Bright Path Sped

Terms of Use

Please read before you print your first page.

One classroom license

- This file is for one classroom: one teacher, one group of students.
- Please do not share it, post it online, or sell it.
- Extra licenses for a team or a school are available on the product page.

This is a fillable PDF

- Open it in a PDF reader (Adobe Acrobat Reader, Preview, or your browser), click into a box, type, and Save As.
- The name line and every empty square are type-in fields. On the blank template pages you can type your own numbers into the middle squares before you print. You can also print a page and let students write with a pencil.
- It works offline. No account, no subscription, no internet connection needed after you download it.

Print at 100 percent

Turn off fit to page and shrink to fit so the squares stay big enough for small hands to write in. Every page prints in color or in black and white: the colors are light tints, and in black and white an orange square prints light gray against white squares.

Student work

A filled-in tracker carries a student's name. Keep it in the data folder, and use a first name only on any page that leaves your hands.

Need help?

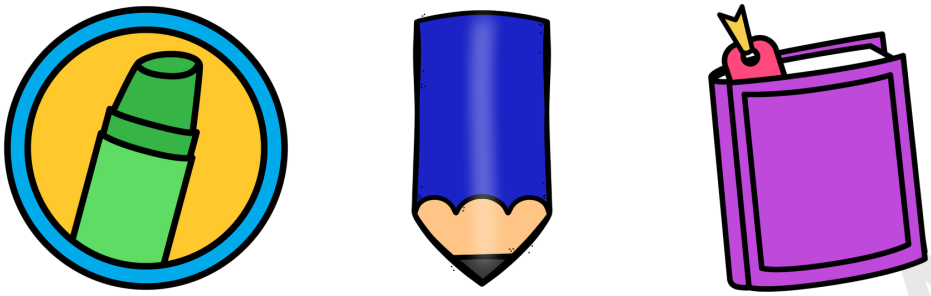

If a box will not behave or a page will not print the way you expect, use Ask a Question on the product page before leaving a review. Every question is read, and a fix to the file ships as a free update: re-download it any time from My Purchases.

© Bright Path Sped. For single-classroom use by the original purchaser.

PREVIEW

The Cross at Home

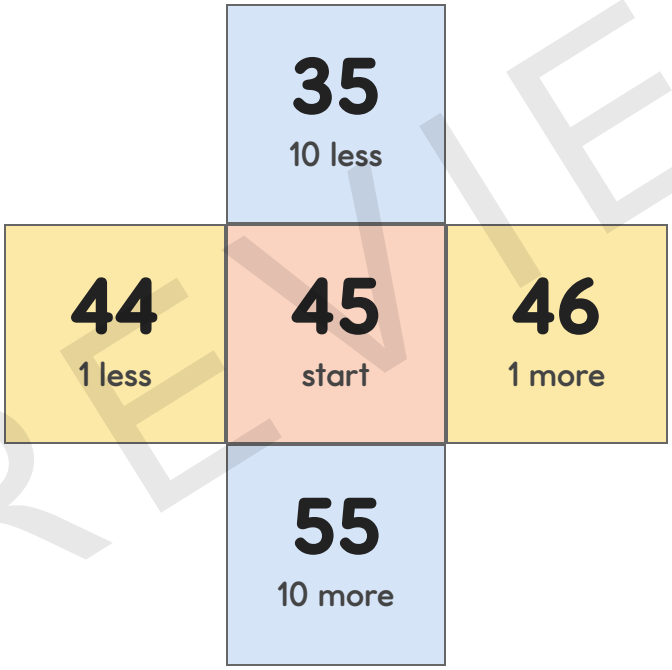

Send this page home with a child, or hand it to a family at a conference.

Student _____ Week of _____

Play the Cross Game at home

- Pick a number from the chart. Say it out loud. Your child finds it on the chart.
- Ask for 1 more, 1 less, 10 more or 10 less. Your child points the way: right, left, down or up.
- Swap. Your child picks a number and asks you. Make one mistake on purpose and see if they catch it.

Our family cross: start on 45

Try saying

- "Which way do we go for 10 more? How did you know?"
- "What changed when we went down one row? What stayed the same?"
