# How This Calendar Works

Set it up once, then keep it open all year. Every page in this file is a blank you type into — no date on it is filled in for you, because your district sets those.

| IF YOU NEED TO… | USE THIS PAGE | WHAT IT DOES |
|---|---|---|
| Set your name, school and term dates once | My School Year (4) | Fields, term dates and the optional code letters |
| See the whole year at once | The Year at a Glance (5) | Twelve months on one page, plus a list of big dates |
| Plan one month, one box a day | Month grids (6–17) | August 2026 through July 2027, Sunday through Saturday |
| Remember birthdays, meetings, testing | Planners (18–22) | Birthdays, meetings, testing, monthly goals, closings |
| Hand the week to an aide or a sub | Team Week Sheet (24) | Who is in the room and who is pulled, day by day |
| Count the year and write home | Roll-Up (26), Note Home (27) | Code counts for each month, then a note to families |

### Three steps

1. Type your school, room and term dates on page 4. Type your district's closings and breaks on page 22.
2. Each month, type in the day boxes on that month's page (6–17).
3. At month's end, count the code letters and fill one row on page 26.

### What this file is

A fillable PDF. Click a box in any PDF reader and type, or print the page and write by hand. It works offline with no account or subscription. Save As once, and the original stays blank for next year's copy.

### What this file is not

It is not a Google Sheets file, a Google Doc or an Excel workbook, and it does not add anything up for you. It prints no holiday, break, testing or meeting date: those come from your district, so each one is a blank for you.

### Before you start

- [ ] Save a copy with your name in the file name before you type.
- [ ] Use first names or initials for students; a filled calendar is a school record.
- [ ] Keep the files on a device that locks, and follow your district's rules for records.

When a meeting must be held, and who must be invited, is your district's rule. This page only keeps track of the ones you have set.

ROLL-UP

# Year Roll-Up

At month's end, count the code letters on that month's page (6–17) and type the counts on one row. Twelve months, one page.

**Check your row**

M + C + T + B + O should equal the Total. If they do not, re-count that month's page. The filled example on page 28 shows one row done.

# EXAMPLE A Filled Example: September 2026

Ms. Rivera, her students and every entry are invented. Every count in the roll-up can be re-counted from the calendar above it.

### How the row adds up

September 2026 has 30 days and 5 calendar rows. Nine days carry an entry: 2 meetings + 2 conferences + 2 testing + 2 birthdays + 1 other = 9. Each entry sits on a weekday (checked against the calendar). Students appear as initials or first names only.

Ms. Rivera and every name and entry on this page are invented; no real class is shown.
