One complete kit for alphabetical order where the first letters are the same or different: when all letters start with B, sort them by their second letter (bat, bed, big, bog, bug). Pencil work on every page.

THREE STEPS

- 1 **Start where the child can win**
Three levels, marked by dots and never by color: 1 dot (Sort by Second Letter) has words with different first letters to warm up. 2 dots (Write the Words) has words with different first letters. 3 dots (Same First Letter) has words where the first letter is the same and the second letter decides.
- 2 **Sort by the second letter**
When the first letters are the same (bat, bed, bug), the child sorts by looking at the second letter (a, e, u). Answer keys are pages 22–23. Date each page on the tracker (page 24).
- 3 **Check it, record it, send it home**
Roll the group up on page 25, send the home page (27), and a filled example is on page 28.

WHICH PAGE, WHEN

WHEN...	USE...
Ready to sort by the first letter, then second	Sort by Second Letter, pages 6–8
Ready to write words in order by second letter	Write the Words, pages 9–11
Ready for same first letter, sort by second	Same First Letter, pages 12–14
Needs to move it with hands	Cut and Paste, pages 15–17
Writing a progress note or a note home	Team note, page 26 · phrase bank, page 29

Everything inside (32 pages)

- **16 student pages** in 5 formats, at three levels
- **54 words** organized by first letter, sorted by second letter
- **2 answer keys, 1 tracker** (16 rows) and **1 class grid**
- **1 team note, 1 home page, 1 filled example, 1 phrase bank**
- **1 binder cover, 5 divider tabs** and a spine label, cut along the dashed lines

How this is different from ABC Order Worksheets K-1

The K-1 product sorts words and pictures where every first letter is different (cat, dog, fish come first, then second, then third). This product keeps the first letter the SAME (bat, bed, bug) and sorts by the second letter instead, for a child who knows the alphabet and is ready for the next step. Use this one once a child can say the alphabet in order without stopping to think about it.

How to fill this in

Date a page the day the child finishes it. **Right** is how many of the **Of** column are correct, checked against the answer keys on pages 22–23. A blank means not tried yet, never wrong. Filled example: page 28, which shows the same table partly filled in for an invented student.

Leo M. is invented; nothing on this page describes a real student. The blank tracker is on page 24.

How to read it

Leo M. finished **10 of 16** pages. Across those pages he got **30 of 39** right; **4** pages were all right. The next page on the tracker is page 16 (Cut and Paste, set B). By format, pages finished so far: Sort by Second Letter: 1, 2, 3 3 · Write the Words 3 · Same First Letter 3 · Cut and Paste 1. Every number comes from the table above.

THANK YOU FOR USING THIS RESOURCE

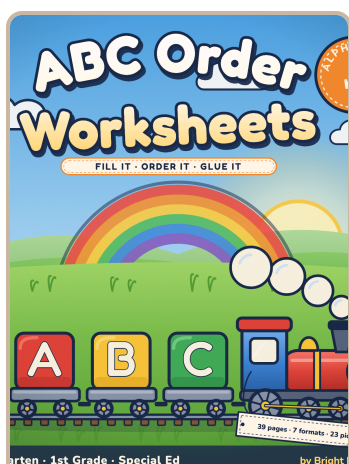

Everything here was built for the child who knows the alphabet and is ready to sort by more than the first letter. If this helped, leaving feedback on TPT helps other teachers find it and helps keep this a small shop building more resources like it.

Something missing or wrong?

Please use the **Ask a Question** tab on the product page first — every question is read, and a fix is a free update from **My Purchases**. This is the fastest way to reach the author and get a straight answer.
