Apraxia Picture Cards: Start Here

What's inside

- **66 words** in **6 sets** sorted by syllable shape (CV, VC, CVC, CVCV, CVCVC); every word has a picture
- **6 sets of color picture cards**: 66 cards to print, cut and laminate, shape letters on every card
- **6 Say & Color pages**: the same pictures in black and white, each with its word and five circles
- **6 Say & Find pages**: a busy scene; the child says a word, finds that picture and colors it (66 to find, 30 to skip)
- A words-by-shape list (page 3) and a colored-in example (page 4)
- A class tracker (page 23), a practice chart (page 24), a family note (page 25), what's next (page 26), credits (page 27)

Reading a shape

C is a consonant sound and V is a vowel sound. A shape follows how the word **sounds**, first to last: **key** is C V, **ice** is V C, **cake** is C V C, **baby** is C V C V. Words with blends or the letter x are left out so every word is a clean shape, and an r after a vowel counts as the consonant (ear). Move any card to another pile if you hear it differently.

Three steps

- **1. Pick a set.** You decide which shape and which words a child works on; follow your own plan. Pages 5-22: for each set, picture cards, a Say & Color page, then a Say & Find page.
- **2. Cut the cards, hand out the pages.** The cards are color, three rows or four, edge to edge, so the cutting is a few straight lines. Say & Color and Say & Find are black and white, so children color them.
- **3. Keep a note.** The class tracker (page 23) shows which sets each child has had. The practice chart (page 24) and family note (page 25) go home.

Which page for which job

- **Cards**: a pile on the table, a card ring, a pocket chart, a game; yours to decide.
- **Center or early finisher**: Say & Color or Say & Find, one per child.
- **Home**: a Say & Color page with the practice chart and the family note.

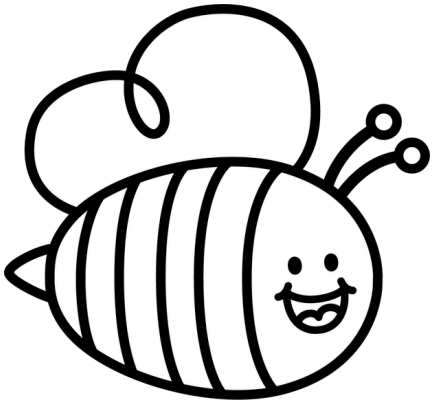

What this is, and is not

Picture cards and pages for word practice, sorted by shape. It is not a screener, an assessment or a program, and it has no scoring. It does not say which words to use, how many, how often or when a child is ready; the district's rules and your own plan do that. Shapes that have too few plain, clear pictures in the library (for example CVCVCV) are not in the set.
