

A student's Accelerated Reader (AR) book log and points progress: individual, small-group, caseload, and home versions, a points goal thermometer, and a filled example. Fillable PDF. For use alongside AR; not affiliated with or endorsed by Renaissance Learning, Inc.

How This Tracking System Works

Three steps: set the points goal, pick the sheet that matches today, and roll the numbers up before a meeting. Everything here is a plain book-and-points log, not a timed reading probe.

ONE: SET THE POINTS GOAL (once per student, at the start of the term)

- Page 5: Write in your school's own AR passing score and point value guide, if your program uses one.
- Page 6: List the student on the Caseload AR Roster with their points goal for this term, pulled from your own AR account or your team's own goal-setting rule.
- Page 11: Write the same points goal at the top of the Points Goal Thermometer so every quiz below rolls up toward one number.

TWO: PICK THE SHEET THAT FITS TODAY

- **Full detail, one student at a time:** Use page 7 (Individual AR Book Log & Quiz Tracking Sheet). Copy it per student. Save with the student's name: "Aiden-AR-Log.pdf."
- **Quick check when you have no time:** Use page 8 (Quick AR Check-In Log). No title/author columns, just the day's points.
- **Reading or library time, several students:** Use page 9 (Small-Group AR Reading Log). One shared book list, up to 4 students.
- **Monthly caseload check:** Use page 10 (Caseload AR Points Overview). Check all your students the same day.

THREE: LOG EVERY QUIZ, THEN ROLL IT UP

- After each AR quiz, write the book title, author, quiz date, and quiz score on page 7 (or page 8 for the fast version).
- Write the points earned for that book, from your AR account.
- Add the points to the running total on page 11 (Points Goal Thermometer) and color in the bar to match.
- Note anything that explains the result on page 7 or 8: "re-read a favorite series," "harder nonfiction title," "missed the quiz window."

FOUR: REPORT PROGRESS

- Once a month or at the end of a marking period, fill out page 13 (AR Progress Snapshot) for a team meeting or a note to families.
- Send the Home AR Reading Log (page 12) home so families can log at-home reading minutes between quizzes.

What this is not

This is not a timed reading probe pack, and it does not reproduce any AR book list, quiz, or reading-level scale. It is the running book log and points total a case manager, teacher, or family keeps between AR quizzes. Example students are invented. Names, titles, and numbers are made up.

The habits this file assumes

- ☐ A points goal is written down (page 5 or 6) before the first quiz is logged.
- ☐ Every quiz gets a date, even a quick one.
- ☐ A book is only counted once it has a scored quiz on a tracking sheet.

Why six sheet shapes instead of one

One student needs the full detail (page 7). A whole caseload needs the fast version (pages 8 and 10). A reading group needs one shared sheet (page 9). A family needs a version with no scores on it at all (page 12).

One student, logged book by book. Copy this page per student. Fill in the student name at the top, then add one row per AR book and quiz.

Student name: Grade:

[illegible]

SUMMARY Caseload AR Points Overview

One row per student: points total, points goal, books completed, last quiz date. The whole caseload at a glance.

One check, whole caseload at a glance. Do this once a month. Fill in one row per student: points total, points goal, number of books completed, and the date of the last quiz.

How to fill: Student name · points total (running total from page 11) · points goal (from page 5/6) · books completed so far · date of last quiz.

Why this page: You check 10–15 students the same day. This is your monthly snapshot. For book-by-book detail, use page 7 (Individual Sheet).

[illegible]

Reading the caseload at a glance

A student well behind their own goal is the one to check first.

GOAL AR Points Goal Thermometer & Running Total

Color in the thermometer as points add up, and log the running total in the table beside it. No percent is pre-set—write in your own goal and track toward it.

No percent is pre-set. Write in this student's own points goal below, then color in the thermometer by hand (or shade it in a PDF app) as the running total grows, one tick mark per ten percent of the way to goal.

STUDENT

POINTS GOAL, THIS TERM

GOAL SET ON

Running total: one row every time points are earned. Running total is a cumulative sum; % of goal = running total ÷ points goal × 100, rounded to the nearest whole percent.

DATE	BOOK TITLE	POINTS EARNED	RUNNING TOTAL	% OF GOAL

Reading the bar

The bar is a plain visual for the running total above; shade it to the nearest tick mark for the current % of goal.

EXAMPLE

A Tracking Sheet, Filled In

An invented fourth grader. Every point total and percent below is checked against the rows it comes from.

An invented fourth grader, Jaylen P. Every book title, author, score, and point value is made up. These five quizzes hang together: one retake, a running total that only adds up, and a percent of goal that matches the arithmetic exactly.

Titles are invented and are not a reproduction of any specific AR book list or quiz.

Individual AR Book Log Example (partial) — Jaylen P., grade 4 (invented)

QUIZ DATE	BOOK / AUTHOR	SCORE	POINTS	PASSED?	NOTES
Oct 2	The Lantern Trail — invented author	88%	4	Yes	First book this term
Oct 9	Ramble Creek — invented author	92%	6	Yes	Longer book, more points
Oct 16	The Quiet Orchard — invented author	60%	2	Not yet	Below passing score, retaking
Oct 17	The Quiet Orchard — retake	80%	2	Yes	Passed on retake, same book
Oct 23	Signal Fire — invented author	95%	6	Yes	Favorite series, read fast

This example shows 5 quizzes. A real page 7 would have up to 18 rows for a full term.

Points Goal Thermometer & Running Total (page 11) — Jaylen's Entries

Points goal, this term: 20.

DATE	BOOK TITLE	POINTS	RUNNING TOTAL	% OF GOAL
Oct 2	The Lantern Trail	4	4	20%
Oct 9	Ramble Creek	6	10	50%
Oct 17	The Quiet Orchard (retake)	2	12	60%
Oct 23	Signal Fire	6	18	90%

Running total is a plain cumulative sum: 4, then 4+6=10, then 10+2=12, then 12+6=18. % of goal = running total ÷ 20 × 100, rounded: 18÷20=0.9 = 90%. The thermometer bar would be shaded to the 90% tick mark.

Progress Snapshot for Jaylen's October Meeting

PERIOD	POINTS THIS PERIOD	RUNNING TOTAL	% OF GOAL	BOOKS	TREND
Oct 1–23	18	18	90%	4	On pace, ahead of schedule

Checked against the thermometer table above: 18 points, 90% of the 20-point goal, 4 books logged on the individual sheet.

What the Family and Team Update (page 14) would say

Current book: Signal Fire. Points earned since the last update: 8 (The Quiet Orchard retake, 2, plus Signal Fire, 6). Running total toward goal: 18 of 20, 90%. Next check planned for the first week of November, the same date noted on the thermometer and the snapshot above.
