Terms of Use

Please read before you print your first page.

One classroom license

- This file is for one classroom: one teacher, one group of students.
- Please do not share it, post it online, or sell it.
- Extra licenses for a team or a school are available on the product page.

This is a fillable PDF

- Open it in a PDF reader (Adobe Acrobat Reader, Preview, or your browser), click into a box, type, and Save As.
- The name line, the graph titles, the category and scale boxes and every answer box are type-in fields. The bars are colored by hand on a printed page.
- It works offline. No account, no subscription, no internet connection needed after you download it.

Print at 100 percent

Turn off fit to page and shrink to fit so the grids and answer boxes stay big enough for small hands. Every page prints in color or in black and white. In black and white the bars are outlined in black and every gridline stays visible, so a child can still count up to the top of a bar.

Student work

A filled-in tracker carries a student's name. Keep it in the data folder, and use a first name only on any page that leaves your hands. The survey pages ask children about themselves: keep the questions to favorites and choices.

Need help?

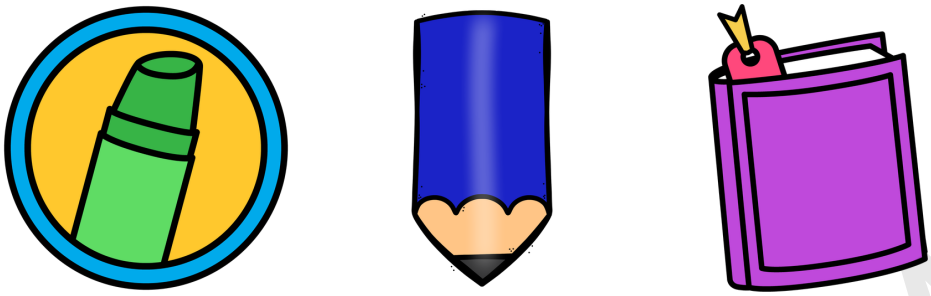

If a box will not behave or a page will not print the way you expect, use Ask a Question on the product page before leaving a review. Every question is read, and a fix to the file ships as a free update: re-download it any time from My Purchases.

Graphs at Home

Send this page home with a child, or hand it to a family at a conference.

Student _____ Week of _____

How to help at home, in three steps

- Pick a question with a few answers: favorite snack, pet, or color. Ask everyone in the family.
- Make a tally mark for each answer. Count the marks for each choice.
- Fill in the graph. Color one bar for each choice and talk about which bar is longest.

Our family graph

Our question _____

How many?

Try saying

- "Which bar is the longest? What does that tell us?"
- "Which one has the fewest? How many fewer is it?"
