

Brushing Teeth Sequence Cards

SECTION 1 · SEQUENCE STRIP AND COLOR CARDS

BRUSHING TEETH ROUTINE

STRIP Sequence Strip (Color)

The routine, in order, at a glance. This is the color set; the same strip in the ink-saver set is on page 11. The numbered cut-apart cards are on the pages that follow.

WHY A STRIP, NOT A BOARD

A board holds a picture that changes; a routine like this does not change from one day to the next, so the whole point is to show the fixed order at a glance. The number is printed on every card too, so cutting the strip apart never loses the order.

PRINTING AND SIZING

The strip above is a quick reference; the same steps print as full 2-inch cut-apart cards on the pages that follow, at the same size so a spare from the blank-card page (page 8) always matches.

A NOTE ON THE GET TOOTHBRUSH AND BRUSH CARDS

Both steps use the same toothbrush, so both cards show the same picture. If that reads as confusing to your student, a blank card (page 8) is the fix — see the card page for the same note.

WHERE THIS POSTS

In the bathroom, near the sink or on the wall where your student brushes — this is a daily routine, so it stays posted every day, not just on special occasions.

THE ROUTINE, STEP BY STEP

STEP #	BRUSHING TEETH ROUTINE	WHAT IT SHOWS
1	Get toothbrush	A toothbrush — the tool for brushing. Same picture as "Brush" because both steps use the same object.
2	Brush	A toothbrush with toothpaste. Same picture as "Get toothbrush" because both steps use the same object.
3	Rinse	A water droplet, for rinsing the mouth and the toothbrush.
4	Check mirror	A mirror, for a quick look to check the job before finishing up.
5	All done	A white check mark, showing the routine is complete.

STRIP AND COLOR CARDS

BRUSHING TEETH ROUTINE

Brushing Teeth Routine Cards (Color)

Print the order of the brushing teeth routine. Print on cardstock, cut on the dashed lines, velcro. This is the color set; the same 5 in the ink-saver set are on page 10. The whole strip is on

WHAT IT SHOWS

A toothbrush — the tool for brushing. Same picture as "Brush" because both steps use the same object.
A toothbrush with toothpaste. Same picture as "Get toothbrush" because both steps use the same object.
A water droplet, for rinsing the mouth and the toothbrush.
A mirror, for a quick look to check the job before finishing up.
A white check mark, showing the routine is complete.

IF A PICTURE READS DIFFERENTLY TO YOUR STUDENT

Use a blank card (page 8) instead; type or write the word your student uses, and draw or glue on a picture that names it for them. The numbered strip (page 6) still shows where the replacement card belongs in the order.

What Is Inside, and Where

One brushing teeth routine, in color and ink-saver, plus the log, roll-up, family and hand-off pages that turn it into data.

HOW THE TAGS ON EACH PAGE WORK

Every page carries a small tag in its top corner, the same word used above: **Strip** the whole sequence in reading order, **Cards** a sheet of cut-apart numbered pictures, **Log** the data sheet, **Tracker** the weekly roll-up, **Example** the filled-in sample, **Notes** a page meant to be sent out or handed off, and **Reference** everything else you read rather than fill in.

Start Here — Three Steps

1

Print and cut

Print the strip (page 6) and the numbered cards (page 7) from the color set on cardstock, or the ink-saver set (pages 10–11) on plain paper. Laminate, cut on the dashed lines, velcro or ring as needed.

Blank cards for a step the set does not cover are on page 8: type the word, print, cut.

2

Post it, follow the numbers

Post the strip in the bathroom, or hand the cards over one at a time in numbered order. Say the printed word as each step happens (page 19).

The how-to page (13) has the rest: what to do if a step is skipped, and how two cards use the same toothbrush picture.

3

Log it, roll it up, send it home

One row on the log (page 14) each brushing time the routine runs: one letter per step — independently, with a prompt, or not completed.

Total the week on the roll-up (page 15) and dot the graph. Send the family page (page 17) home when the strip is new; the hand-off page (page 18) goes with the cards to any other adult.

WHAT THIS FILE IS

A fillable PDF: 5 numbered, cut-apart sequence cards for one brushing teeth routine, plus a strip view, in two art sets, with type-in fields on the log, the roll-up, the family page, the hand-off page and the blank cards. It works offline with no account or subscription and prints the same on every machine.

WHAT THIS FILE IS NOT

It is not an editable online slideshow or word-processor document, and it is not a hygiene or safety procedure or a behavior plan. It supplies no prompt hierarchy, fading schedule or mastery rule and promises no outcome; it shows a student the order of one routine and counts what happened.

WHICH PAGE, WHEN

YOUR SITUATION	GO TO
A student learning one everyday routine in order	Strip, page 6
A student who does better with one card at a time	Cut-apart cards, page 7
A step the routine's cards do not name	Blank cards, page 8
A photocopier, or a copy that goes home	Ink-saver cards, page 10
The IEP meeting or a family conference	Roll-up and graph, page 15; example, page 16

IF SOMETHING DOES NOT WORK, AND WHERE THIS FILE LIVES

A field will not hold my typing. Open the file in Adobe Acrobat Reader (free) or Preview, not a browser tab. **A picture reads as a different word to my student.** Use a blank card for that word; the **Ask a Question** tab on the product page reaches me, and a fix is a free update. **Confidentiality:** a filled-in log, roll-up or example-style note is a student record — initials only on anything that leaves your hands, first name only on the family page.

STRIP

Sequence Strip (Color)

The routine, in order, at a glance. This is the color set; the same strip in the ink-saver set is on page 11. The numbered cut-apart cards are on the pages that follow.

WHY A STRIP, NOT A BOARD

A board holds a picture that changes; a routine like this does not change from one day to the next, so the whole point is to show the fixed order at a glance. The number is printed on every card too, so cutting the strip apart never loses the order.

PRINTING AND SIZING

The strip above is a quick reference; the same steps print as full 2-inch cut-apart cards on the pages that follow, at the same size so a spare from the blank-card page (page 8) always matches.

A NOTE ON THE GET TOOTHBRUSH AND BRUSH CARDS

Both steps use the same toothbrush, so both cards show the same picture. If that reads as confusing to your student, a blank card (page 8) is the fix — see the card page for the same note.

WHERE THIS POSTS

In the bathroom, near the sink or on the wall where your student brushes — this is a daily routine, so it stays posted every day, not just on special occasions.

THE ROUTINE, STEP BY STEP

STEP #	BRUSHING TEETH ROUTINE	WHAT IT SHOWS
1	Get toothbrush	A toothbrush — the tool for brushing. Same picture as “Brush” because both steps use the same object.
2	Brush	A toothbrush with toothpaste. Same picture as “Get toothbrush” because both steps use the same object.
3	Rinse	A water droplet, for rinsing the mouth and the toothbrush.
4	Check mirror	A mirror, for a quick look to check the job before finishing up.
5	All done	A white check mark, showing the routine is complete.

CARDS

Brushing Teeth Routine Cards (Color)

5 2-inch cards, numbered in the order of the brushing teeth routine. Print on cardstock, cut on the dashed lines, velcro on the back or use on a ring. This is the color set; the same 5 in the ink-saver set are on page 10. The whole strip is on page 6.

WHAT EACH CARD SHOWS

#	CARD	WHAT IT SHOWS
1	Get toothbrush	A toothbrush — the tool for brushing. Same picture as “Brush” because both steps use the same object.
2	Brush	A toothbrush with toothpaste. Same picture as “Get toothbrush” because both steps use the same object.
3	Rinse	A water droplet, for rinsing the mouth and the toothbrush.
4	Check mirror	A mirror, for a quick look to check the job before finishing up.
5	All done	A white check mark, showing the routine is complete.

PRINTING AND SIZING

Cardstock holds up to daily handling better than plain paper; laminating adds durability for a card that travels on a ring or a lanyard. Every card in this file prints at the same 2-inch size, in this set and the ink-saver one, so a spare from the blank-card page (page 8) always matches.

IF A PICTURE READS DIFFERENTLY TO YOUR STUDENT

Use a blank card (page 8) instead: type or write the word your student uses, and draw or glue on a picture that names it for them. The numbered strip (page 6) still shows where the replacement card belongs in the order.

CARDS

Brushing Teeth Routine Cards (Ink-Saver)

5 2-inch cards, numbered in the order of the brushing teeth routine. Print on cardstock, cut on the dashed lines, velcro on the back or use on a ring. This is the ink-saver set; the same 5 in the color set are on page 7. The whole strip is on page 11.

WHAT EACH CARD SHOWS

#	CARD	WHAT IT SHOWS
1	Get toothbrush	A toothbrush — the tool for brushing. Same picture as “Brush” because both steps use the same object.
2	Brush	A toothbrush with toothpaste. Same picture as “Get toothbrush” because both steps use the same object.
3	Rinse	A water droplet, for rinsing the mouth and the toothbrush.
4	Check mirror	A mirror, for a quick look to check the job before finishing up.
5	All done	A white check mark, showing the routine is complete.

PRINTING AND SIZING

Cardstock holds up to daily handling better than plain paper; laminating adds durability for a card that travels on a ring or a lanyard. Every card in this file prints at the same 2-inch size, in this set and the color one, so a spare from the blank-card page (page 8) always matches.

IF A PICTURE READS DIFFERENTLY TO YOUR STUDENT

Use a blank card (page 8) instead: type or write the word your student uses, and draw or glue on a picture that names it for them. The numbered strip (page 11) still shows where the replacement card belongs in the order.

Completion Log

WEEK OF

[illegible]

Count every 1 across the table for the week; the roll-up (page 15) turns that count into a percent.

TRACKER

Weekly Roll-Up and Graph

One row and one dot per week, from the log. Eight weeks across, 0 to 100 percent.

STUDENT

GOAL (YOUR DISTRICT'S OWN WORDING)

CRITERION (YOUR TEAM SETS IT)

#	WEEK OF	TIMES LOGGED	STEPS INDEPENDENT	PERCENT INDEPENDENT	NOTES
1					
2					
3					
4					
5					
6					
7					
8					

FIGURING THE PERCENT

Count the I marks on the log (page 14) for the week and divide by the total steps run: each brushing time logged is 5 steps. I marks divided by total steps, times 100, rounded to the nearest whole number.

BRINGING THIS PAGE TO A MEETING

A rising line says more steps are being completed without a prompt; the criterion field above is where your team’s own number goes, so every dot is read against the same line. This page counts what is plotted; it does not decide what a flat line means.

EXAMPLE

Filled Example

SAMPLE · INVENTED STUDENT

Every number in the read-out is re-counted straight from the tables above; JR means “see the log for initials” and is not itself a field value.

Quinn is invented, and so is every mark on this page. One brushing time on the log, then three weeks on the roll-up, to show how the pages read once real marks are on them.

The log, one brushing time (page 14)

DATE	1 GET TOOTHBRUSH	2 BRUSH	3 RINSE	4 CHECK MIRROR	5 ALL DONE	INITIALS
Today						JR

The roll-up, three weeks (page 15)

#	WEEK OF	TIMES LOGGED	STEPS INDEPENDENT	PERCENT INDEPENDENT	NOTES
1	9/8	5	20	80%	—
2	9/15	5	23	92%	—
3	9/22	5	25	100%	—

READING THE NUMBERS

Today's row: 5 of 5 steps completed independently (all of them). The weeks: 20 of 25 steps (80 percent), then 23 of 25 (92 percent), then 25 of 25 (100 percent) — a line rising week on week, which is what “needing fewer prompts over time” looks like on paper. Every percent is that week's own independent count divided by its total steps run.

A LINE THIS SHEET COULD WRITE

“Quinn completed 25 of 25 brushing time steps independently the week of 9/22 (100 percent), up from 20 of 25 the week of 9/8.”

HOW THE GRAPH WOULD LOOK

Three dots on the roll-up graph (page 15) at 80, 92 and 100, joined by a line that rises. No P marks in this example — all steps independent, which is not typical and not a pattern this file claims.

WHAT THIS EXAMPLE IS NOT

One invented child's day and three weeks. It sets no typical rate, predicts nothing about a real student, and the criterion field would hold whatever Quinn's team wrote — not a number this file supplies.

THE ALL-INDEPENDENT EXAMPLE

Today's five steps are all independent. That is a coincidence of this invented day, not a pattern this file claims — a real log might show prompts needed on any step, or none at all.

WHAT A CASE MANAGER COULD BRING TO A MEETING

The three roll-up rows above (page 15), read alongside the one filled log row (page 14), are enough to show a trend and one concrete example of what a logged brushing time looks like — without needing to bring the whole stack of daily logs to the table.
