Christmas Door Decor: Start Here

What's inside

- **A big gingerbread house** on 4 letter pages (pages 4-7) that tape into one 15.8 x 20.8 inch house, plus a one-page house to color (8)
- **24 gumdrops** at four levels (9-12), 2.5 x 4.4 inches each
- **18 banner flags** (13-14): MERRY CHRISTMAS! is 15 flags, plus 3 blank
- **32 ornaments** (15-16) and **8 gingerbread name tags** (17), a word bank (18)
- A mock-up with every size (3), a class roll-up (19), a family letter (20), credits (21)

Print, color, cut, glue

- **Print** every page at full size (100 percent) on letter paper. House pages (4-7) print best on white; gumdrops, flags and ornaments on plain paper or light card stock.
- **Color** the house pages with crayons or paint. The gumdrops, flags and the ornaments on page 15 are already in Christmas colors; the ornaments on page 16 are white for the children to color.
- **Trim and tape the house.** Trim the white edge off the sides that touch the next page (a dashed line shows where), then tape the four pages together on the back: 4 and 5 across the top, 6 and 7 across the bottom.
- **Cut** the gumdrop, flag, ornament and name-tag pages on the dashed lines. Pieces touch edge to edge, so every cut is one straight line across the page.
- **Glue or staple** the banner across the top of the door first, then the house under it, the gumdrops in two rows below the house, and the ornaments on either side.

Four gumdrop levels, marked with shapes

- ● **Draw it** (page 9): the words "I love" are printed; the child draws a picture.
- ■ **Draw it and label it** (page 10): a picture plus one word on the line. **Write it** (page 11): a word or short phrase on four lines.
- ▲ **Write more** (page 12): "I love ___ because ___." Use the word bank on page 18 to get started.

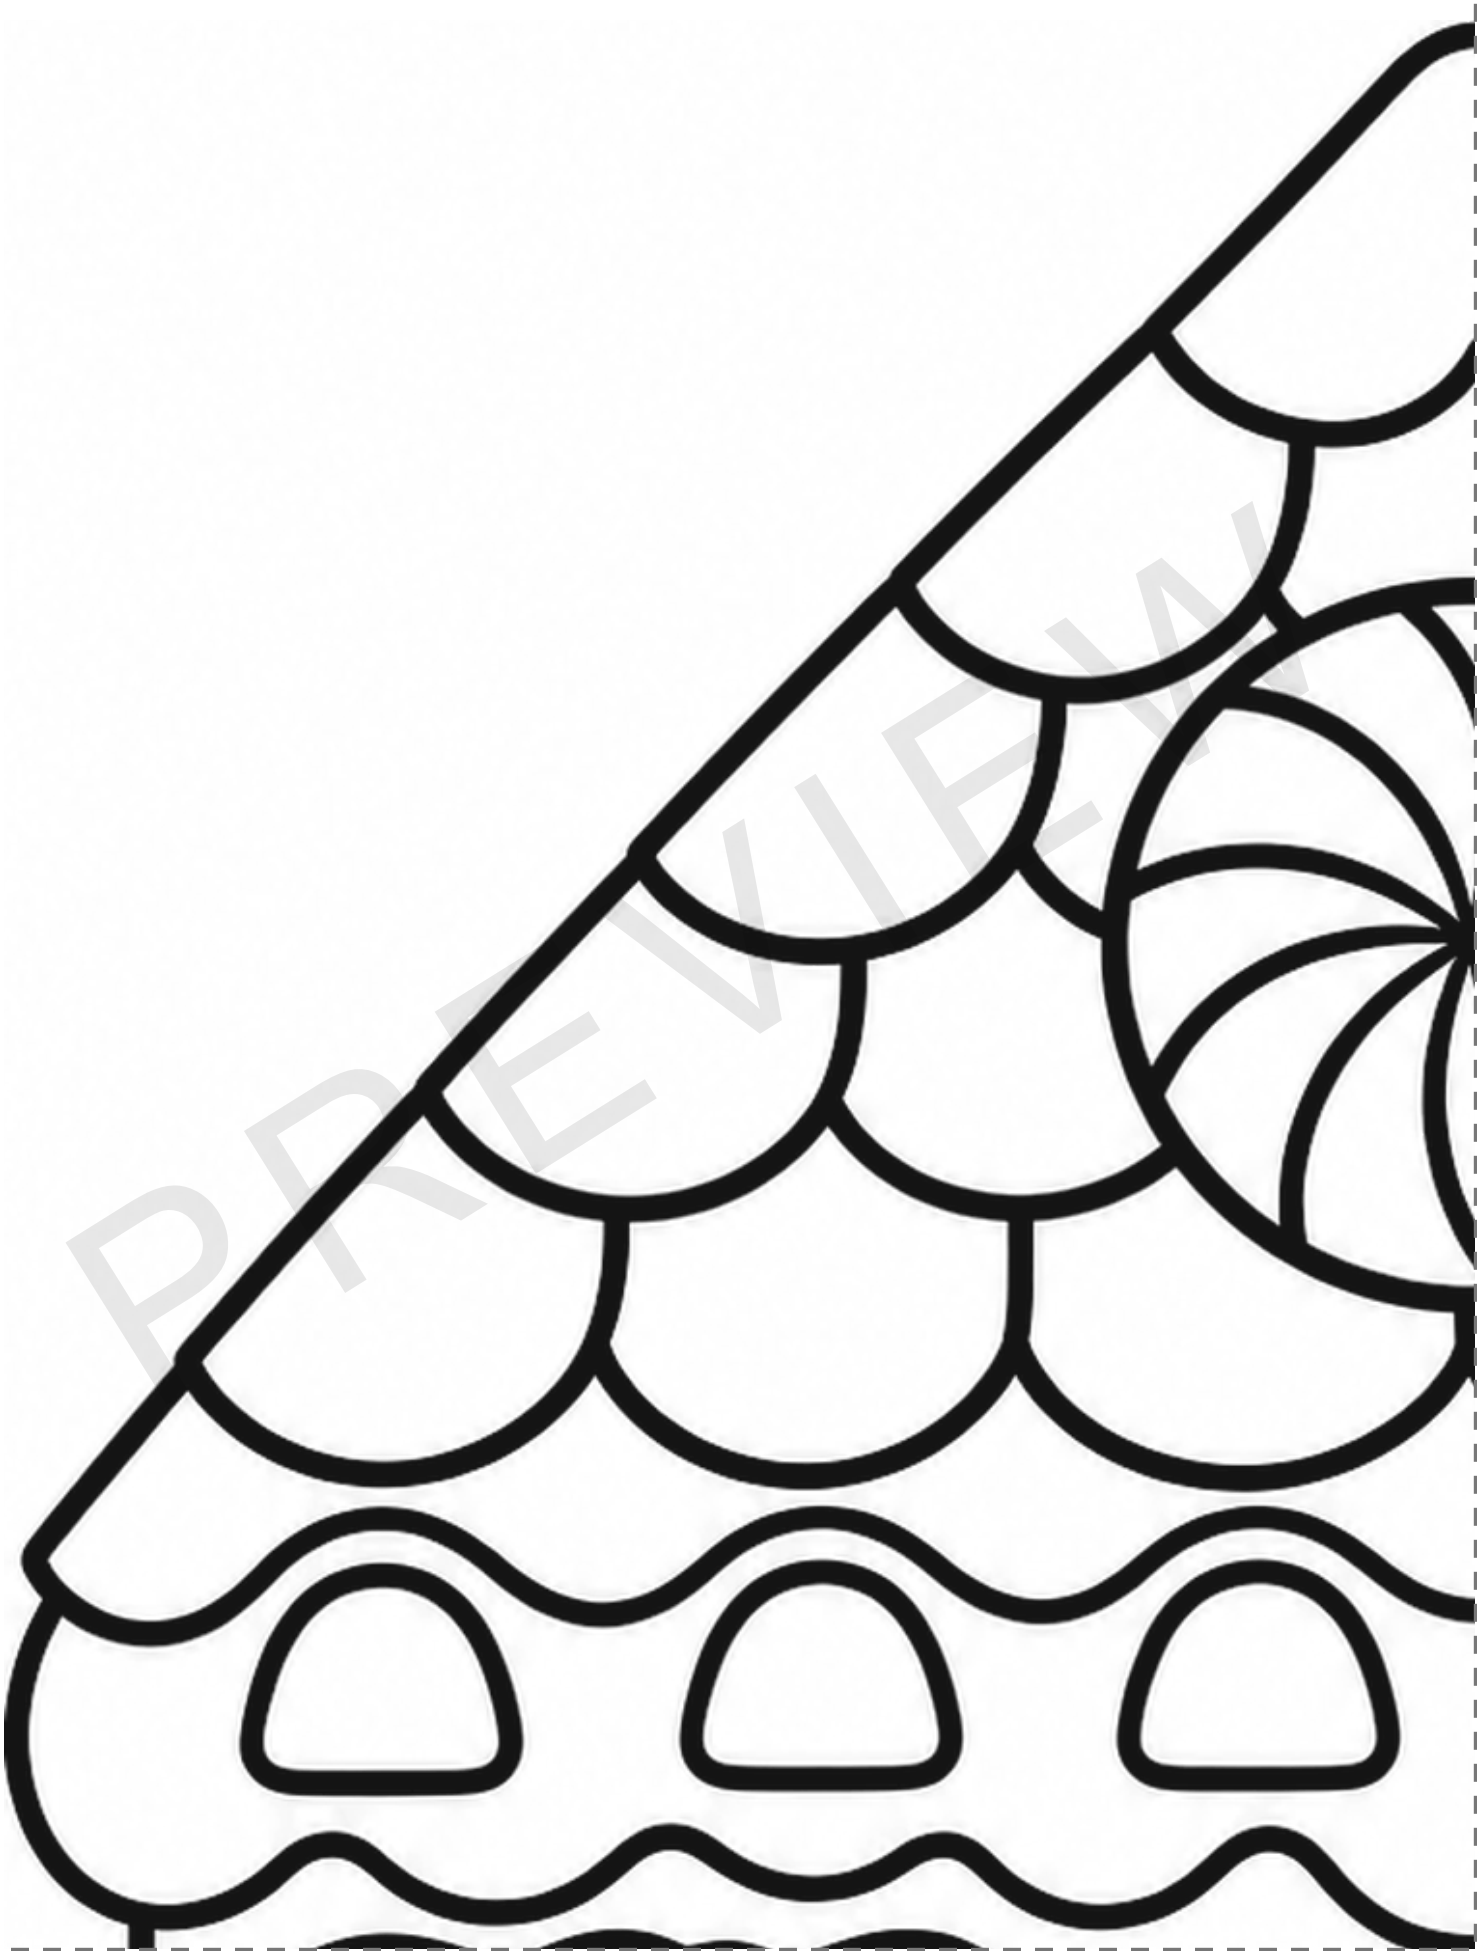

Levels are marked with a shape, not a number, so children are not comparing papers. Each child's name goes on the "by" line at the foot of the gumdrop.

Prep

Scissors, glue sticks, crayons, tape, and butcher paper to back the display if you like. A larger class can print a page twice.
