Christmas Dot Markers

No prep Christmas dot art mats: pictures, patterns and numbers.

Start here

1. Print the mats you want. Every page is black-and-white friendly and uses very little ink.
2. Give the student a dot marker, a bingo dauber or round stickers. They dot every circle on the mat.
3. Let it dry, then check the mat off on the data sheet.

What's inside

- 28 dot mats in all: 14 Christmas pictures, 4 pattern mats and 10 number mats (1 to 10)
- Christmas pictures: Santa, reindeer, present, gingerbread, gingerbread girl, big ornament, bell, Santa hat, tree, stocking, bow, candy cane, gift and star
- Pattern mats: 2 AB and 2 ABC, 6 rows each. Every row shows the pattern, the student dots what comes next
- Number mats: the big numeral and that many Christmas objects, each with a circle to dot
- 3 finished mats that show what "done" looks like, and a worked example
- A set-up page, a note for home, a data sheet with trackers, and a what's next page

The three levels

- ● Level 1 The pictures with the fewest circles, the AB pattern mat with a faint hint, numbers 1 to 4.
- ■ Level 2 More circles, an AB pattern mat with no hint, an ABC pattern mat with a faint hint, numbers 5 to 7.
- ▲ Level 3 The pictures with the most circles, the ABC pattern mat with no hint, numbers 8 to 10.

Levels are marked with a shape, not a number. Start where the student is and move on when you decide to. Every circle is at least half an inch across (the big pictures have bigger circles): a dot marker, a bingo dauber or a round sticker all fits.

Worked Example

Mira is an invented example student, not a real child.

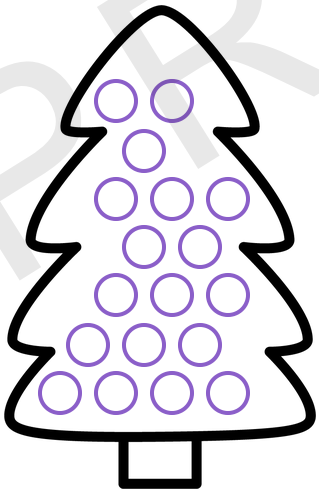

What Mira does on a mat

1. Picks a marker color and finds any circle on the picture.
2. Presses straight down in the middle of the circle, then lifts.
3. Goes around the picture, circle by circle, until every circle is dotted.
4. Looks at the picture. On a number mat, counts the dots out loud.

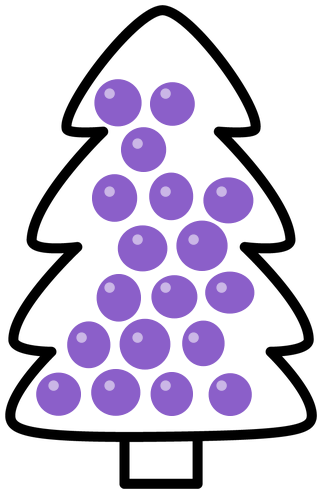

What Mira's teacher writes down (invented numbers)

Day	Mat	Circles on mat	Dotted	Notes
Day 1	Tree	22	22	All circles dotted
Day 2	Stocking	21	19	2 circles skipped near the toe
Day 3	Number 4	4	4	Counted 1, 2, 3, 4 out loud

Across the three mats Mira dotted 45 of 47 circles. The circle counts are the open circles on each mat. The small sketches below show the idea and have fewer, smaller circles than the real mat.

Before: a small sketch of the tree

After: every circle dotted (sketch only)

Number mats and pattern mats

Number 4 has 4 circles to dot, one for each stocking. On a pattern mat the student finishes each row by copying the pattern.
