Thank you for downloading

Thank you for supporting a small classroom-resource shop. This free sample is one Level 2 page from four different skills in this store's cut-and-paste line, so you can try the fit before choosing a full pack.

You MAY

- Use this resource in your own classroom, with your own students, for as long as you like.
- Print as many copies as you need for your own classroom.
- Reference this resource on a blog or social media, with a link back to the listing.
- Buy additional licenses at a discount for teammates who want their own copy.

You may NOT

- Share, email, or upload this file to a shared drive, district server, or website.
- Sell, redistribute, or claim any part of this resource as your own.
- Copy or modify any part of it to create a resource for sale or free distribution.
- Post the file publicly where anyone other than you can download it.

A note on student information

Pages you fill in will contain confidential student information. Keep completed pages secure, follow your district's FERPA and records policies, and consider using first names or initials on anything that leaves your classroom.

This free packet gives a first-time buyer one worked page from four different skills in this store's cut-and-paste line — picture-supported CVC, a word family, addition to 20, and take-away to 10 — each printed at Level 2, so you can judge the fit before choosing a full three-level pack.

1 Four sample pages, one skill each

Reading a picture, sorting a word family, finding a missing part to 20, and taking away to 10.

2 Every one of the four pages is printed at Level 2

Moderate support, one spare piece on the strip, nothing tinted — the middle of the road for every skill in this store's cut-and-paste line.

3 Read the footer at the bottom of each sample page

It names the full three-level pack that continues that exact skill.

4 Use the chooser page right after this one

One page, four rows: which pack fits which student.

5 Nothing here is a fillable field

Print, cut, and glue, the same as every paid pack in this line.

Try it today

Hand one sample page to a single student on scrap paper before copying a full set for the class.

Each of the next four pages continues into one full three-level pack. Match the student to a row below.

Picture-Supported CVC

Needs a picture next to a short word, before reading the word alone

This sample: dog, bed, pig, bus — say the picture, glue the matching word

CVC Cut and Paste, 3 Levels

Word Families

Can read a CVC word and is ready to read a whole word-chunk (a rime) at once

This sample: the -og family — dog, log

Word Families Cut and Paste, 3 Levels

Addition to 20

Is building addition facts and needs the missing part of a whole to 20

This sample: a whole of 12–20 on the jar, count the known part, glue the rest

Addition to 20 Cut and Paste, 3 Levels

Subtraction to 10

Is building subtraction facts and needs to count what is left after some are taken away

This sample: count what is left in the jar, glue the number

Subtraction Within 10 Cut and Paste, 3 Levels

Every sample on the next four pages is Level 2

Moderate support, one spare piece on the strip, nothing tinted — the middle of the road for every skill in this store's cut-and-paste line. Each full pack also ships an easier Level 1 and a more independent Level 3.

Prefer the whole shelf at once?

Look for the **Phonics Cut and Paste Bundle** for the reading packs together, or the **Special Education Cut and Paste Bundle** for every cut-and-paste skill in this store, in one listing.

How to use this key

Every number above is listed in the order its box appears on the page, top to bottom — check a glued strip against the row it came from, not just the set of numbers. Every answer was computed from the same data that draws the page, never typed in by hand.

THANK YOU FOR TRYING THIS SAMPLE

Every full pack in this line ships the same three-level shape this sample previewed at Level 2 — an easier Level 1 and a more independent Level 3 as well.
