QUICK START

One complete kit for one job: cutting practice. Lines first, then shapes, spirals and cut-and-glue pictures, on pages with a big name line and room to cut.

THREE STEPS

1. **Trace the Look page together**
   Page 5 shows the green dot, the red stop and three lines to trace with a crayon before any cutting.

2. **Hand over a page**
   Every student page has a big "My name" line and one short instruction. Each cutting page is six cards in a block with a thick solid line to cut on. The dots at the top right are the only level code.

3. **Record it, send it home**
   Date each page on the tracker (page 23), roll a group up on page 24, and send the home page (26). The glue key is page 22. A filled example is on page 27.

WHICH PAGE, WHEN

Everything inside (31 pages)

- **17 student pages** in 5 page types: Look, Lines, Paths, Shapes and Spirals, Cut and Glue
- **15 cutting pages** with **90 cards to cut**, six a page, in two sets of each
- **18 pictures** drawn for this file, **3 cut-and-glue pages** with a shadow for each
- **My Stars** page for the child, **1 glue key, 1 tracker, 1 class grid**
- **Team note, home page, filled example, phrase bank,** binder cover, 6 divider tabs

What makes it different

Every cutting page is six cards that touch edge to edge, so a page is a few straight cuts to part. Every line is solid and thick, with a dot to start and a stop to end. Each picture is drawn for this file and the shadow is the same drawing in gray. Nothing is timed or scored on a student page.

How to fill this in

Write how many of the 6 cards the child cut the way your team counts as “on the line” with no help, and the date. A blank means not tried yet, never wrong. There are 90 cards on the 15 pages above; Look (page 5) and My Stars (page 21) are not scored. Glue key: page 22. Filled example: page 27.
