

Digraphs Worksheets

SORT • MATCH • BUILD • WRITE

27 pages • 13 words • 6 digraphs

One complete kit for digraphs, five different ways: sort pictures by sound, draw a line to the matching digraph, build the digraph in a word, write the whole word, and a hands-on cut-and-glue sort for a change of pace.

THREE STEPS

- 1 **Look at the digraph rule together**
Page 7 is the one student page with the rule on it: two letters, one sound. Read the four cards aloud, then do the three-step listen check at the bottom.
- 2 **Pick a format and a group**
Five ways to practice, easiest to hardest, and every digraph splits into two groups: sh, ch, wh (Beginning Digraphs) and ck, ng, th (Ending Digraphs), so a page never has more than three categories to sort into.
- 3 **Check it, record it, send it home**
The answer key is page 18. Date each digraph on the tracker (page 19), roll the group up on page 20, and send the home page (22). A filled example is on page 23.

WHICH PAGE, WHEN

WHEN...	USE...
Hearing a digraph but not naming it yet	Sort the Pictures, pages 8, 9
Can hear it, needs to connect it to the letters	Match the Digraph, pages 10, 11
Ready to spell just the digraph	Build the Word, pages 12, 13
Ready to spell the whole word	Write the Word, pages 14, 15
Wants a hands-on, cut-and-paste review	Cut and Glue, pages 16, 17
Writing a progress note or a note home	Team note, page 21 · phrase bank, page 24

Everything inside (27 pages)

- **10 student pages** in 5 formats, 2 groups each: 10 pages
- **13 pictured words** across **6 digraphs** (sh, ch, wh, ck, ng, th), a picture key and a Digraph Helper page
- **1 answer key** generated from the same data as every page, **1 tracker** and **1 class grid**
- **1 team note, 1 home page, 1 filled example, 1 phrase bank**
- **1 binder cover, 6 divider tabs** and a spine label, cut along the dashed lines

How this is different from Digraphs Cut and Paste

The Digraphs Cut and Paste pack from this store is one sort at three difficulty levels. This pack is one skill covered five different ways — sort, match, build, write, and its own cut-and-glue page. Page 4 shows what each format asks.

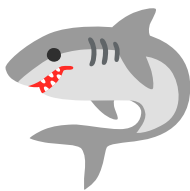

NAME

DATE

A digraph is two letters that make one sound: sh, ch, wh, ck, ng, th.

shark

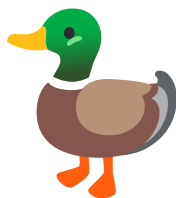

shark

chick

chick

duck

duck

tooth

tooth

1

Say the word
slowly.

2

Listen for two
letters that make
ONE sound.

3

Is it at the start or
the end?

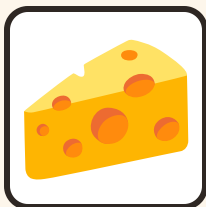

NAME

DATE

Say each picture. Write its number under the digraph you hear.

How you'll know it's right

Check the glued pictures against page 18: every picture in this group belongs under exactly one of the 3 digraph columns above, and that page lists every word for Ending Digraphs.

Why this format, too

Sort and Match ask the same question with a pencil. Cutting and gluing the same 6 pictures gives the exact same recognition skill a hands-on, different-feeling turn — useful for a child who is tired of pencil work but not of the skill itself.

TEACHER

MONTH

DIGRAPH	SORT	MATCH	BUILD	WRITE	CUT & GLUE	NOTES
sh						
ch						
wh						
ck						
ng						
th						

How to fill this in

Date each column the day the child gets that digraph right with no prompt. A blank means not tried yet, never wrong. Answer key: page 18. Filled example: page 23.

A suggested order

Most teachers move left to right across this table one digraph at a time: Sort and Match the same week, Cut and Glue for extra practice, then Build and Write once the digraph is solid. Nothing forces this order — move back a column any time.

THIS MONTH WE ARE WORKING ON

Priya N. is invented; nothing on this page describes a real student. The blank tracker is on page 19.

STUDENT

TEACHER

MONTH

Priya N. (an invented student)

Mr. Diaz (invented)

September

DIGRAPH	SORT	MATCH	BUILD	WRITE	CUT & GLUE	NOTES
sh	9/2	9/2	9/9	9/16	9/9	–
ch	9/3	9/3	9/10	–	9/10	Named chick “baby chicken” until the picture key was shown
wh	9/4	9/4	–	–	9/11	–
ck	9/10	9/10	9/17	9/24	9/17	–
ng	9/11	9/11	9/18	–	9/18	Mixed up ring and wing on Sort; corrected after Cut and Glue
th	9/15	–	–	–	–	–

How to read it

Priya N. has Sorted **6 of 6** digraphs, Matched **5**, Built **4**, Written **2** and Cut and Glued **5**. Not yet started: none. Every number here comes from the table above.

The family note this tracker would produce

“This month Priya N. has sorted and matched 6 digraphs and can now build or write 4 of them. Two words needed help with their names: chick was called ‘baby chicken’ and ring was mixed up with wing until she cut and glued both.” — every fact in it is a row of the table above.

The same six digraphs on the class grid (page 20)

Priya N.’s row would read like this today — one code per digraph, for the furthest format reached so far: S Sort, M Match, B Build, W Write, C Cut and Glue.

STUDENT	SH	CH	WH	CK	NG	TH
Priya N.	W	B	C	W	B	S

What happens next

Priya N.’s next check-in picks up wherever this table leaves off: finish Write the Word on ch, wh, ng, th, then start Build the Word on th, the one digraph that has only been sorted so far.

THANK YOU FOR USING THIS RESOURCE

Everything here was built for the teacher who has a table of children who each need a different way into digraphs. If this helped, leaving feedback on TPT helps other teachers find it.

Something missing or wrong?

Please use the **Ask a Question** tab on the product page first — every question is read, and a fix to the file is a free update you re-download from **My Purchases**.

WHAT'S NEXT FROM THIS STORE

The same skill as a sort at three levels, as a combined digraph-and-blend worksheet, as blends instead of digraphs, and as data for an IEP goal.

DIGRAPHS
Cut and Paste, 3 Levels
