Do a Dot Free

A free dot marker sampler: colors, color words and counting.

Start here

1. Print the pages you want. Give the student a dot marker, a bingo dauber or round stickers.
2. The student dots the circles. Say the color words and count out loud together.
3. Let the dots dry. Use a clean copy to dot again.

What's inside (11 dot pages)

- 1 Rainbow Arch: 131 circles in six color bands, circles 0.33 in across
- 4 Dot the Picture pages (apple, sun, balloon, heart): fill every circle inside the picture
- 1 My Color Words page: dot each circle and write the word
- 2 Match the Word pages (red and green)
- 2 Count and Dot pages (3 and 5), with a box to color for each dot
- 1 My Own Rainbow open page

Levels (marked by a shape, never a number)

- ● Dot the color: the Rainbow Arch and Dot the Picture.
- ■ Match the color word to its color: Match the Word and My Color Words.
- ▲ Count and dot.

Dot size

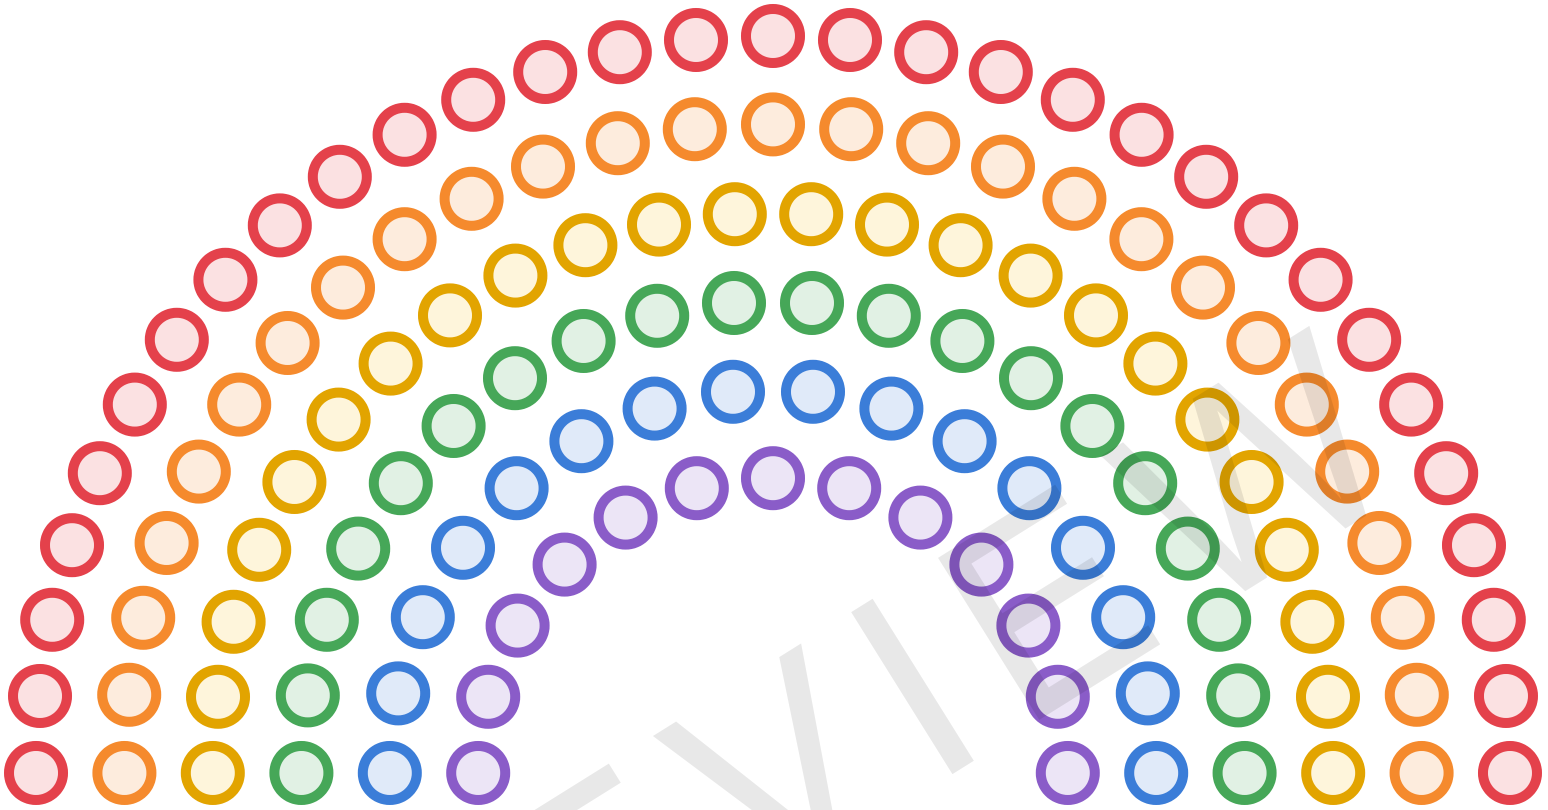

Circles are 0.75 in across on every page except the Rainbow Arch (0.33 in), including the picture pages, so a standard three-quarter inch dot marker fits. On the arch, use a thin marker, a crayon or a small round sticker. The color pages work best printed in color.
