EDITABLE NAME PUZZLES

Cut strips. Build a name. PreK-K

Terms of Use

Please read before you print your first page.

One classroom license

- This file is for one classroom: one teacher, one group of students.
- Please do not share it, post it online, or sell it.
- Extra licenses for a team or a school are available on the product page.

This is a fillable PDF

- Open it in a Chrome-based viewer (Chrome), click into the name box, type, and Save As.
- Type the name once, on page 3. The same name fills in on every puzzle strip, mat, name card and My name line in the file.
- It works offline. No account or subscription. Another app may not copy the name from box to box; if so, open the file in Chrome.

Print at 100 percent

Turn off fit to page and shrink to fit, or the cut pieces will not line up with the mat. The name prints in black. Every line is black or gray, so the pages photocopy.

Student names

A saved copy carries a child's name. Keep saved copies in your own files, and use a first name only on any page that leaves your hands.

Need help?

If the name box will not behave or a page will not print the way you expect, use Ask a Question on the product page before leaving a review. Every question is read, and a fix to the file ships as a free update: re-download it any time from My Purchases.

Set Up the Task Box

Each level has its own shape in the corner. Children see a shape, not a number.

Mark	Level	What the child does	Pieces
●	Model	The whole name is shown on the mat, and every piece has a picture on top. The child matches the pictures and the letters.	5 pieces a strip pages 6-8
■	First piece	Only the first piece is shown on the mat. The child builds the rest of the name from it.	5 pieces a strip pages 9-11
▲	Blank	A blank mat. The child builds the name from a name card, one piece at a time, then writes it.	5 pieces a strip pages 12-14
▲	Longer Names	For names of 6 to 8 letters. Eight pieces a strip, one letter on each, a blank mat. Type the name in the second name box.	8 pieces a strip pages 15-17

Build the box

- Type the name on page 3: left box for 4-5 letters, right box for 6-8 letters.
- Print the mat and the cut page for one level, at 100 percent.
- Cut the strips apart on the dashed lines, then cut each strip into its pieces.
- Laminate the mat and the pieces first, then cut. Add a velcro dot to each slot and one to the back of each piece.
- Keep the pieces in a zip bag with the mat, and the name card (page 5) on top.

Pick a level

- Start with the level the child can finish today (the Longer Names set has one blank-mat level). Move on when it feels easy, and go back when it does not.
- Names of 4-5 letters: use Levels 1-3 (five pieces a strip). Names of 6-8 letters: use the Longer Names set (eight pieces a strip). One letter goes on each piece, so no letter is cut. A shorter name leaves the last pieces blank.
- Your team decides the level. The log (page 18) records it.
