

Ending Blends Worksheets

CIRCLE · WRITE

27 pages · 11 pictures

One complete kit for hearing and spelling six ending blends in real words: nd, nk, st, mp, lt, ld, two ways to answer, and the record-keeping around it. Every word here ends with its blend — this pack does not cover beginning blends or digraphs.

THREE STEPS

- 1 Pick the blend and the page**
 Six ending blends — nd, nk, st, mp, lt, ld — each with two pages in a row, Circle It then Write It, plus a Mixed Ending Blends review at the end. The contents on page 5 gives every page number.
- 2 Say it, then answer it**
 Say the picture out loud before a pencil moves (the how-it-works page, 4, shows both formats side by side). Every word here ends with its blend, so the “Ends with” label above each tile is the same on every page. The name and date line, the tracker, the class grid and the home page are type-in fields in any PDF reader; the circles and the letters students write are always pencil work.
- 3 Record it, send it home**
 Date the page and note which format was used on the tracker (page 20), roll the group up on page 21, and send a home-practice page (page 23). A filled example is on page 24.

WHICH PAGE, WHEN

WHEN...	USE...
Hears the blend but is not writing it yet	Circle It — three letter choices, one correct
Ready to spell it	Write It — the front of the word is printed, write the missing two letters
Mixing up two ending blends across words	Mixed Ending Blends review, page 18–19
Writing a progress note or a note home	Phrase bank, page 25

Everything inside (27 pages)

- **14 practice pages** — 6 ending blends + 1 mixed review, 2 formats each
- **11 pictured words** checked against two independent picture sets, no repeats across any blend
- **1 tracker** (one student) and **1 class roll-up grid**, type-in or print
- **1 team note page** and **1 home-practice page**
- **1 filled example, 1 phrase bank, 1 binder cover with three tabs**

How to read a page

Page 4 shows Circle It and Write It side by side and what each one asks a student to do. No student page carries the word “Level.”

THE TWO FORMATS

- ☐ **The picture**
One object a child can name, printed big. No word is printed on the Circle It page, so the picture is the only prompt.
- ☐ **Write It (production)**
The front of the word is printed; the blend is missing. The student writes the two letters in the blank.
- ☐ **Circle It (recognition)**
Three letter choices under the picture, all of them other ending blends. The student says the word, listens for the blend at the end, and circles the one they hear.
- ☐ **Ends with**
A small label above every tile is a reminder that all six blends in this pack finish the word — position is never a guess.

BLEND VS. ONE LETTER

What makes an ending blend different from one letter

- A blend is two consonants together, BOTH letters still heard — hand keeps both the /n/ and the /d/, unlike a digraph such as sh or ch, which makes one new sound.
- This pack listens at the END of the word only — a student who reads the front of a word but drops the last sound is exactly who these pages are for.
- Circle It → Write It: the same skill, first recognized among choices, then produced with no choices printed.

Talk first — before a pencil moves (for you, a paraprofessional or a volunteer)

- “What is this?” — name the picture before listening for the blend.
- “Say it slowly.” — stretch the word once together, the two blend letters held a beat longer at the end: ha...nd.
- “Which two letters do you hear last?” — the question every Circle It tile is really asking.

Printing and the type-in fields

Prints clean in black and white. Click a name line, tracker cell or home-page box to type, then save; circles and letters are pencil work — not a slideshow or word-processor file.

Why some blends have fewer pictures

A picture is only used where it names one thing and nothing else. Mp, It and Id have one safe pictured word each, so they repeat as fresh Try 1, Try 2, Try 3 and Try 4 practice instead of a mostly blank page. Page 5 lists the count for every blend.

Every blend has two pages in a row, Circle It then Write It. The page number prints in the footer of every page.

BLEND	TYPE	WHERE	WORDS	CIRCLE IT	WRITE IT
nd	Blend	Ends with	2	6	7
nk	Blend	Ends with	3	8	9
st	Blend	Ends with	3	10	11
mp	Blend	Ends with	1	12	13
lt	Blend	Ends with	1	14	15
ld	Blend	Ends with	1	16	17
Mixed Ending Blends	Review	Mixed	6	18	19

THE 11 PICTURED WORDS, AT A GLANCE

Every picture was checked against two independent picture sets and its spelling checked against its own code before it was kept — a picture is used only where it names one thing and nothing else.

C Circle It · **W** Write It. Write the format the student actually used that day; a student can be at Circle It for one blend and Write It for another, and can move back to Circle It for a harder blend without losing the record of an easier one. Count correct and attempted off the page itself, after the student is done, not while they work. Filled example, read the same way: page 24.

How to help at home, in three steps

- Say the word together, slowly, holding the two blend letters a beat longer at the end: ne ... st.
- Ask "which two letters do you hear last?" before circling or writing anything.
- One word is enough for one sitting. Write any letters your child asks for in the box below, and stop while it is still going well.

BLEND	DATE	FORMAT (C / W)	CORRECT	ATTEMPTED	WHAT I NOTICED
nd	9/3	C	4	6	Circled nd on 4 of 6 tries; chose nk twice on wand
nd	9/6	W	5	6	Wrote nd correctly on 5 of 6, no prompt
nk	9/10	C	5	6	Missed wink once, chose st instead of nk
st	9/13	W	3	6	Wrote st on 3 of 6; needed a model on ghost and fist
mp	9/17	C	4	4	All four correct on shrimp; moving to Write It next
Mixed Ending Blends	9/20	C	4	6	First mixed review; missed the lt and ld items

How to read it

6 sessions so far, across 5 blends (nd, nk, st, mp, Mixed Ending Blends). Deshawn used Circle It **4** time(s) and Write It **2** time(s); the first Write It session was session **2**. **25** of **34** items correct across all 6 pages. Next: the lt blend, starting on Circle It. Every number here comes from the table above.

Two things the notes column is for

- What you saw, in plain words: said it slowly first, wrote a letter without a prompt, mixed up two blends. Every row above is that kind of note.
- What you did about it: moved the format forward or back one step. Never a conclusion about the student — that is the meeting's job, with the whole record in front of it.
- Not yet started: lt, ld. The tracker on page 20 has a blank row waiting for each one.

The same six sessions on the class grid (page 21)

Deshawn's row would read like this today — a code for every blend that has started, a dash for lt, not yet begun.

STUDENT	ND	NK	ST	MP	LT	LD	MIXED ENDING BLENDS
Deshawn R.	W	C	W	C	—	—	C
