Fall Themed

One complete kit for fall beginning sounds: ten letters (P, A, L, O, C, B, H, M, S, T) with fall-themed pictures to circle and color, plus the recording and family pages around it.

THREE STEPS

1

Pick the letter

Any of the 10 letters on pages 6–15, or follow a planned order.

2

Circle it, trace it, write it

Every letter has pictures to circle, lines to trace and practice, and a blank line to write on.

3

Record it, send it home

Score on the tracker (page 16), see progress at a glance (page 17), and send the family update (page 18).

Everything inside (22 pages)

- 32 beginning-sound pictures, 10 pages — one letter per page, trace and write
- 1 practice tracker, 1 progress summary
- 1 family update page, 1 filled example
- 1 phrase bank for observation and next-step notes
- 1 binder cover with divider tabs

Fall themes throughout

Pumpkins, apples, leaves, corn, hay, and owls — every picture comes from fall and autumn imagery, printed clean on a grayscale copier.

Who else this works for

Built for a special education teacher or interventionist, but the same pages work for a general education classroom center, a paraprofessional running small groups, or a family practicing at home — nothing on any page assumes a particular setting.

More in this collection

This is one seasonal set in the store's beginning-sounds and phonics collection; new letters, seasons and skills are added to it regularly.

Before you print

- Print single-sided so the tracer letters on the back of one page never show through onto the next.
- The name/date line and every table cell are type-in fields — fill them on screen, or leave blank and write by hand after printing.
- Pages 6–15 are the ten letter pages; everything else is the record-keeping and family pages around them.
- The binder cover and divider tabs (page 21) let this drop straight into an existing phonics binder without any extra cutting or labeling.

How to score it

Write the number correct in each session column. 32 pictures total across 10 letters. A filled example is on page 19.

If a letter needs more time

Circle the letter row instead of scoring it, and go back to that letter's practice page again before moving on — the pictures and lines stay the same, so a repeat pass is a real second attempt, not a new worksheet.

NEXT LETTER TO TRY

How to help at home, in three steps

- Point to things around the house (a pumpkin, an apple, a leaf) and say the word out loud.
- Ask “What sound does [word] start with?” before your child answers.
- One short practice is plenty. Stop while it is still going well.

JORDAN'S TRACKER, INVENTED

Jordan is invented; nothing on this page describes a real student. The blank tracker is on page 16.

STUDENT

How to read it

Jordan scored **28 of 32** pictures across all 10 letters. The letters with the lowest scores are A, O, B, M. Every number here comes from the table above.

Where this goes next

Jordan's next practice focuses on A, O, B, M, working with 2–3 letters at a time. The phrase bank on the next page has starters for writing this up.

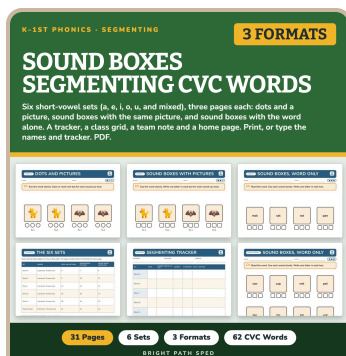

THANK YOU FOR USING THIS RESOURCE

Everything here was built for the teacher who has thirty minutes of planning time and a table of students who each need a different amount of support to hear the same sound. If it saved you an hour, it worked. If this helped, leaving feedback on TPT helps other teachers find it.
