HOW THE TAGS ON EACH PAGE WORK

Practice is for the student to fill, **Tracker** and **Log** are data, **Example** is the sample, **Notes** go out, **Reference** is to read.

☆ START HERE Start Here — Three Steps

1

Print and hand out

Print the student pages (pages 6–18): a worked example, a word helper, 6 themed sheets of 12 boxes, 2 blank sheets, People I Met and Look Back.

Pick a sheet (pages 8–13) for the day. 72 prompts in all, and the blank sheets hold 24 more of your own.

2

Ask, sign, say thanks

Start with Try One Together (page 6). Then students walk the room, ask a classmate about a box and get a signature.

The mixer plan is on page 21; follow-up questions are on page 22.

3

Log it, roll it up, send it home

One row on the log (page 25) for each sheet: students there, filled a row, filled the sheet.

Total the week on the roll-up (page 26). Send the family page (page 28) home; the hand-off page (page 29) goes to any other adult.

WHAT THIS FILE IS

A fillable PDF: 6 Find Someone Who sheets with 12 boxes each (72 prompts), 2 blank sheets, a worked example, a word helper, People I Met and Look Back, and the data pages behind them, with type-in fields on the name lines, the signing lines, the blank boxes, the log, the roll-up, the family and hand-off pages. It works offline with no account and prints the same on every machine.

WHAT THIS FILE IS NOT

It is not an editable online slideshow or word-processor document, and it is not a counseling program, a behavior plan or a clinical procedure. It follows no named method and promises no outcome; it gives a class a friendly way to meet, ask and sign.

WHICH PAGE, WHEN

YOUR SITUATION	GO TO
I want a sheet to hand out	Pages 8–13
I want to write my own boxes	Blank sheets, pages 15–16; ideas, page 23
I need a routine for the room	Page 21; follow-up questions, page 22
Students need words to ask with	Word helper, page 7
Another adult takes over	Hand-off, page 29
A family conference or a check-in	Roll-up, page 26; filled example, page 27

IF SOMETHING DOES NOT WORK

A field will not hold my typing. Open the file in Adobe Acrobat Reader (free) or Preview, not a browser tab. **A prompt does not fit my class.** Use a blank sheet; the **Ask a Question** tab on the product page reaches me, and a fix is a free update. **Confidentiality:** a filled-in log with student names is a student record — initials only on anything that leaves your hands.

EXAMPLE

Try One Together

SAMPLE · INVENTED STUDENT

My name _____ **Today** _____

☆ **See how it works. Then you try.**

Find someone who likes pizza.

1

likes pizza

Signed by

Priya

1

Read a box.

Box 1 says: likes pizza.

2

Ask a classmate.

“Do you like pizza?”

3

Get a signature.

Priya says, “Yes, I do!” Priya signs the box.

4

Say thanks. Go on.

“Thanks, Priya!” Now find a new friend for box 2.

Priya is made up. A friend can sign one box on your sheet. Now you try a sheet.

PERCENT OF STUDENTS WHO FILLED THE SHEET · ONE DOT PER WEEK, THEN DRAW THE LINE

FIGURING THE PERCENT

From the log (page 25): students is the Students there column added over the week; filled the sheet is that column added over the week. Filled the sheet divided by students, times 100, rounded to the nearest whole number.

BRINGING THIS PAGE TO A MEETING

The criterion field is where your own number goes, so every dot is read against the same line. This page counts what is plotted; it does not decide what a flat line means.

EXAMPLE

Filled Example

SAMPLE · INVENTED STUDENT

Room 8 is an invented class of up to 24, and so is every mark on this page. 7 sheets on the log (page 25), then three weeks on the roll-up (page 26).

The log, 7 sheets

#	DATE	SHEET USED	STUDENTS THERE	FILLED A ROW	FILLED THE SHEET	INITIALS
1	10/5	Back to School	22	15	6	RT
2	10/8	Hobbies	23	18	9	RT
3	10/12	School Life	21	17	11	RT
4	10/14	Food and Fun	23	20	13	RT
5	10/16	Music and Movies	22	19	14	RT
6	10/19	Outdoors and Games	24	21	15	RT
7	10/22	Class-made	22	20	16	RT

The roll-up, three weeks

#	WEEK OF	SHEETS USED	STUDENTS (ADDED UP)	FILLED THE SHEET	PERCENT	NOTES
1	10/5	2	45	15	33%	–
2	10/12	3	66	38	58%	–
3	10/19	2	46	31	67%	–

READING THE NUMBERS

Week one: 2 sheets, 45 students, 15 filled sheets, 33 percent. Then 38 of 66 (58 percent) and 31 of 46 (67 percent). In all, 84 filled sheets from 157 students (54 percent). Each percent is that row's own count divided by its students.

A LINE THIS SHEET COULD WRITE

"Over 3 weeks, Room 8 used 7 Find Someone Who sheets and counted 84 filled sheets from 157 students; 6 themed sheets, 1 class-made."

Sheets used, all three weeks

KIND OF SHEET	SHEETS USED
Themed sheets	6
Class-made sheet	1

WHERE THE NUMBERS COME FROM

Every roll-up row is added up from that week's log rows. The 7 rows across the three weeks are the 7 sheets; the Students column adds to 157 and the Filled the sheet column to 84.

WHAT THIS EXAMPLE IS NOT

One invented class's weeks. It sets no typical rate, names no cause and predicts nothing about a real class; the criterion would be whatever Room 8's teacher wrote. A filled-in copy with student names is a student record: initials only on anything that leaves your hands.
