Thank you for downloading

Thank you for supporting a small classroom-resource shop. Every purchase goes straight back into making more low-prep tools for special education teachers. If this saves you one stressful morning, it did its job.

You MAY

- ☐ Use this resource in your own classroom, with your own students, for as long as you like.
- ☐ Print as many copies as you need for your own classroom.
- ☐ Reference this resource on a blog or social media, with a link back to the listing.
- ☐ Buy additional licenses at a discount for teammates who want their own copy.

You may NOT

- ☐ Share, email, or upload this file to a shared drive, district server, or website.
- ☐ Sell, redistribute, or claim any part of this resource as your own.
- ☐ Copy or modify any part of it to create a resource for sale or free distribution.
- ☐ Post the file publicly where anyone other than you can download it.

A note on student information

Pages you fill in will contain confidential student information. Keep completed pages secure, follow your district's FERPA and records policies, and consider using first names or initials on anything that leaves your classroom.

Found a problem? Want something added?

Please use the **Ask a Question** tab on the product page before leaving a review — every question is read, and a fix to the file is a free update. Updates are always free: re-download from **My Purchases**. If this resource saved you time, an honest rating on Teachers Pay Teachers (**My Purchases → Leave a Review**) helps other teachers find a small shop, and TPT credits you toward future purchases for it.

PREVIEW

FLUENCY GRAPH

Start Here

What this file is for, in three steps, and which page to use for which job.

1. **Set a goal with the student.** Fill in the goal page (page 5). The starting score and the goal number are yours to choose.
2. **Read, count, write it down.** Time a one-minute read, then write the score on the reading log (page 10). Words read minus mistakes is the score.
3. **Graph it and talk about it.** Pick a graph below, color the bar, and look at the picture with the student. Send the family letter (page 11) when you have a few scores.

IF YOU	USE	WHERE
A student sets a goal or starts a new round	**My Reading Goal**	Page 5
You read every day for a short stretch	**Daily Graph, 20 days**	Page 6
You check once a week and want big bars to color	**Weekly Graph, bars, 12 weeks**	Page 7
A student likes dots and a line better than bars	**Weekly Graph, dots and line**	Page 8
You want the whole school year on one page	**Year-Long Graph, 36 weeks**	Page 9
You need somewhere to write the raw scores	**Reading Log**	Page 10
Families want to see progress	**Family Letter and Home Tips**	Page 11
You want every student on one page	**Caseload Overview**	Page 12

PREVIEW

What this file is not

Not a test, and no grade-level targets are printed here: you set every scale and every goal. Not a school policy. Your school's own way of counting a score, if it has one, goes in the box on page 10.

Before you print

- [ ] Printer set to Actual size, not Fit to page.
- [ ] Scale numbers typed on the graph (page 4 shows how).
- [ ] Crayons or markers ready for the bars.

After each read

- [ ] Score written on the log (page 10).
- [ ] Bar colored on the graph.
- [ ] One thing noticed, said out loud to the student.

FLUENCY GRAPH

How the Type-In Fields Work

Type once, or print and write by hand.

Type it or write it

Click a line or a box and type. Or print the page and write with a pencil. Every page works both ways and still reads when copied in black and white.

Type your own scale

Each graph has small boxes up the left side. Type the numbers there: count by 5s, 10s or 20s, whatever fits your student. The bottom line is always 0. The scale is yours to set, so nothing on the page tells a child what their number should be.

Color the bars

Find the score on the side, then color the column up to it. Dot and line pages: put a dot where the bar would end, then connect the dots.

Words correct per minute

Time a one-minute read. Words read minus mistakes is the score. If your school counts it a different way, write that on page 10 and use it every time.

What this file is

A fillable PDF. The type-in fields are built into the document, so it works offline with no account and looks the same on every machine that opens it. You can type in the boxes and print the pages, but you cannot drag the boxes around.

If something does not work

The text disappears when I close it. It was opened in something that fills fields but does not save them. Download it, open it in Acrobat Reader (free), and use Save As.

I need another copy for another student. Print the page again, or save a copy per student with their initials in the file name.

Anything else: use the **Ask a Question** tab on the product page. Every question is read, and a fix to the file is a free update.

Names and privacy

A page only carries the names you type or write. Keep graphs with names on them in your own files, not posted on a wall.

Notes for this set
