Fraction Bingo

45 fractions 30 boards grades 2 to 4 color and ink saver

What's inside

- **45 calling cards** (pages 6-8): each fraction as a circle or a bar, its numeral and its word
- **30 boards** (pages 9-38), 5 by 5, 24 fractions and a FREE space; the same 30 in black and white (pages 42-71) with black-and-white cards (pages 39-41)
- The 45 fractions (page 3), call sheet (page 4), worked example (page 5), 24 blank markers (page 72), note home (page 73)

Set up

Print one board per player and the calling-card pages. Cut the cards apart on the dashed lines (straight cuts only). Print the blank markers page or use counters, beans or dot markers. Laminate the boards to use them again.

How to play

1. Give each player a board and markers. Everyone's FREE space is covered.
2. The caller turns a card and says the fraction in words: "Three eighths." Players say it back.
3. A player who has that fraction covers it. The caller ticks it on the call sheet.
4. A row, a column, a diagonal or the four corners wins. The winner says Bingo and reads the covered fractions; check them on the call sheet.

Three ways to level it

- **Starting**: show the card, point to the shaded part and say the words; players match the picture on their board.
- **Building**: say the words only; players find the fraction, then check the picture together.
- **Ready for more**: call the numeral (5/12), and have the group say the words before they cover it.

About the pictures

Every picture is drawn with equal parts, and the numerator is the number of shaded parts. Circles show halves, thirds, fourths, sixths, eighths and twelfths; bars show fifths and tenths. The set has every proper fraction with these denominators (42 fractions) plus two halves, three thirds and four fourths, so some cards show the same amount in different names, such as one half, two fourths and three sixths. Listen for the exact words before you cover.

PREVIEW

Cut on the dashed lines.

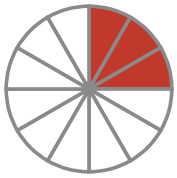

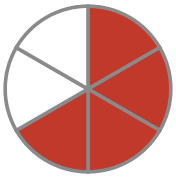

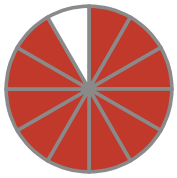

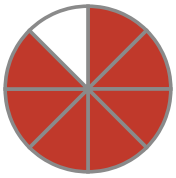

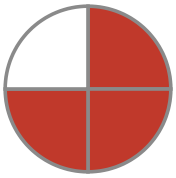

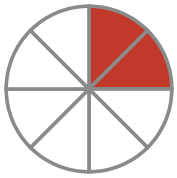

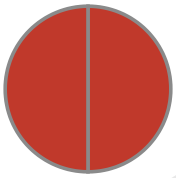

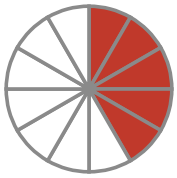

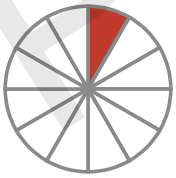

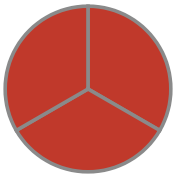

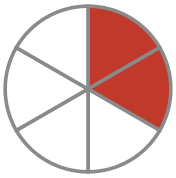

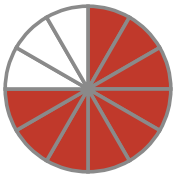

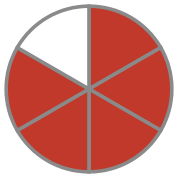

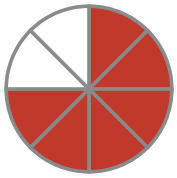

1/12  one twelfth	1/10  one tenth	1/8  one eighth	1/6  one sixth	2/12  two twelfths
1/5  one fifth	2/10  two tenths	1/4  one fourth	2/8  two eighths	3/12  three twelfths
3/10  three tenths	1/3  one third	2/6  two sixths	4/12  four twelfths	3/8  three eighths
