BRIGHT PATH SPED

START HERE

QUICK START

One complete kit for goods and services. Children read an anchor chart, circle, match a worker to a job, find the odd word, count, fill in the sentence, choose the true sentence and cut and paste onto sort mats — on pages with room to work, untimed.

THREE STEPS

1. **Read the Anchor Chart together**
   Page 5 says what a good is and what a service is, and lists 10 workers who each give a service. Page 6 is a word mat the child can keep beside them. Read both aloud, then let the child write a word of their own for each group.

2. **Hand over a page**
   Every student page opens with a name line and one short instruction, and the boxes are big. Nothing on it is written for you, so the child can start. The chart below says which page for which child; the dots at the top right are the only level code.

3. **Check it, record it, send it home**
   The answer keys are pages 20 and 21. Date each page on the tracker (page 22), roll a group up on page 23, and send the home page (25). A filled example is on page 26.

- **67 scored items** on 13 pages, every answer computed in code
- **26 cut-and-paste pieces** on 3 sort mats

How to fill this in

Write how many items the child got right with no prompt, and the date. A blank means not tried yet, never wrong. There are 67 items on the 13 pages above; the Anchor Chart and My Word Mat (pages 5 and 6) are not scored. Answer keys: pages 20 and 21. Filled example: page 26.

THIS MONTH WE ARE WORKING ON (YOUR OWN WORDING)

EXAMPLE MIA'S TRACKER

Mia K. is invented; nothing on this page describes a real student. The blank tracker is on page 22.

How to read it

Mia K. has done **6 of 13** scored pages and got **25 of 27** items right with no prompt. **4** pages were all right. Every number here comes from the table above.

The family note this tracker would produce

"This month Mia finished 6 pages and got 25 of 27 items right. Mia needed a little help on one item on each of 2 pages; saying what a word means before choosing is the next thing to practice." — every number in it is a row of the table above.

What the table points to

2 pages carry a note and each is one item short of full. Pages left blank (7 of them) are not tried yet, never wrong.

THANK YOU

BEFORE YOU GO

THANK YOU FOR USING THIS RESOURCE

Everything here was built for the teacher who has a table of children who each need a different amount of support sorting and describing what they learn. If this helped, leaving feedback on TPT helps other teachers find it.

Everything inside, one more time

- **15 student pages** in 9 page types, 67 scored items, every answer computed in code from the word lists on the page.
- **26 cut-and-paste pieces** on 3 sort mats, **2 answer keys**, **1 word mat**.
- **1 tracker, 1 class grid, 1 team note, 1 home page, 1 filled example, 1 phrase bank** (16 starters), **1 binder cover** and divider tabs.

No real student anywhere in this file

The filled example on page 26 names "Mia K.," an invented student used only to show how the tracker fills in. No table, note or score anywhere in this resource describes a real child, and nothing here is a clinical judgment, an eligibility timeline, or a medical claim of any kind. Once you fill in a real student's name, the tracker, class grid and team note (pages 22, 23 and 24) do carry real information — keep completed pages secure the same way you would any other record.
