

Halloween Color by Sight Word

READ IT • COLOR IT • REVEAL IT

Kindergarten • 1st Grade • Special Ed

by Bright Path Sped

One complete kit for reading sight words by coloring: the child reads a word, finds it in the key, colors the square, and a Halloween picture shows up. Every student answer is colored or written in pencil or crayon, so no student page needs scissors or glue. The pictures are ordinary Halloween props (a pumpkin, a ghost, a bat, a spider, a witch hat, a moon) — nothing scary-detailed.

THREE STEPS

1 Do the practice heart together

Page 6 is the one student page that shows how it works: read the word, find it in the key, color the box. A small heart is hiding in the squares. Do it side by side before anything else.

2 Get Ready, then reveal the picture

Each of the 6 Halloween mystery pictures has two pages: Get Ready (trace and write the key words, pages 7, 9, 11, 13, 15, 17) and the Mystery Picture itself (pages 8, 10, 12, 14, 16, 18). The dots on the name line say how big the key is: one dot is 2 or 3 colors, two dots is 4, three dots is 5.

3 Check it, record it, send it home

The answer keys are pages 22 and 23. Date each picture on the tracker (page 24), roll the group up on page 25, and send the home page (27). A filled example is on page 28.

Before you print

Crayons or markers work best. The color names are printed in the key, so the pages still work when photocopied in black and white. Page 4 shows what each page type asks and why these words.

How to read it

Priya S. has finished **3 of 6** Mystery Pictures (jackolantern, ghost, spider). On those pictures the words read with no help add up to **33 of 37**; the 4 words to come back to are listed in the Notes column. Get Ready is done for bat, which is next. Every number comes from the table above.

The family note this tracker would produce

“This month Priya finished 3 mystery pictures and read 33 of the 37 words on them without help. The words we are still practicing are not, funny, up, me.” — every fact in it is a row of the table above.

THANK YOU FOR USING THIS RESOURCE

Everything here was built for the teacher who has a table of children who each need a different amount of support reading their first words. If this helped, leaving feedback on TPT helps other teachers find it.

A FEW WAYS TEACHERS USE THIS PACK

- Independent seatwork while you pull a small group — every page is self-checking against its own color key, so a student can start and finish without a teacher standing over the desk.
- A sub folder page: the instructions on page 4 are written for anyone, not just this class.
- A center or early-finisher bin: laminate one Mystery Picture and use dry-erase crayons so it is reusable, then check it against the answer key on page 22 or 23.
- Send the Get Ready page home first for a student who needs the words in hand before the timed part of the picture — the home page (27) explains the routine to a family in plain language.

Every picture in this file is drawn by Bright Path Sped from a pixel map in code; no third-party art is used. Type: Andika, Fredoka and Patrick Hand, SIL Open Font License.
