Healthy Plate Adapted Book

11 items, 3 levels

What's inside

- 11 items: apple, potatoes, banana, lettuce, grapes, milk, peas, strawberry, egg, toast, noodles
- Each item's page at 3 levels, in color and black and white
- 6 more activities: fruit or vegetable sort (cut and glue, 8 pieces), match, which food is gone, count, color, and draw your plate
- A book cover to sign, an answer key, a What's Next page and a data sheet

The three levels

- ● Level 1 Errorless: 2 choices, the correct one highlighted.
- ■ Level 2 The standard 3-choice circle, no hint.
- ▲ Level 3 No choices -- the student writes the word.

Each level is marked with a shape, not a number, so students are not comparing levels.

How to run it

Do the first page together as a model. Read the sentence together, show the big picture, then have the student circle the matching picture (or write the word at Level 3). Laminate for a dry-erase marker, or let the student glue a counter on the answer. Mark the data sheet: pages correct out of 11.

Set up

Print one book per student at the level that fits. Bind with a ring or staple along the left edge. Use the black and white pages when you want to save ink.

Prompts to try

- Point to the picture and ask, "What is this?" before reading the sentence.
- Read the sentence again and let the student point to each word.
- If the student circles a wrong picture, say "Look again" and cover one choice.
- Ask, "Where do you see this at home?" after each page.

Ideas to extend

- Match real objects or small toys to each page.
- Have the student read the finished book to a partner.
- Use a dry-erase marker on a laminated copy so the book can be reused.
