

Homophones Worksheets

CHOOSE IT • CIRCLE IT • WRITE IT

29 pages • 5 formats • 10 pairs

One complete kit for choosing the correct homophone: five ways to practice the same ten pairs, from circling a printed choice to matching a meaning clue — every student answer is circled or written in pencil.

THREE STEPS

- 1 **Meet the pairs**
Page 7 shows what a homophone is and works through one real sentence. Page 6 lists all ten pairs with a short clue for each word.
- 2 **Pick a format and a set**
Five ways to practice, easiest to hardest. The chart below says which page for which child. Each format is two sets of five pairs (A, B), so a child never sees the same sentence twice in one format.
- 3 **Check it, record it, send it home**
The answer keys are pages 18-20. Date each pair on the tracker (page 21), roll the group up on page 22, and send the home page (24). A filled example is on page 25.

WHICH PAGE, WHEN

WHEN...	USE...
Meeting homophones for the first time	Circle the Word, pages 8, 9
Ready to write the answer	Write the Word, pages 10, 11
Practicing proofreading	Find the Mistake, pages 12, 13
Comparing two whole sentences	Which One Is Right?, pages 14, 15
Learning what each word means	Match the Meaning, pages 16, 17
Writing a progress note or a note home	Team note, page 23 · phrase bank, page 26

Everything inside (29 pages)

- **10 student pages** in 5 formats: 2 sets of 5 pairs in each format
- **10 homophone pairs** — the same ten the store's Homophones probe measures
- **40 of the bank's 60 hand-checked sentences**, one per pair per format, so no sentence repeats between Circle the Word, Write the Word, Find the Mistake and Which One Is Right?
- **10 meaning clues** in Match the Meaning, plus a Pair Key page listing all 20 (both words of every pair)
- **3 answer keys** generated from the same data as the pages, **1 tracker** (10 pairs) and **1 class grid**
- **1 team note, 1 home page, 1 filled example, 1 phrase bank**
- **1 binder cover, 6 divider tabs** and a spine label, cut along the dashed lines

How this is different from the Homophones probe

The Homophones Choose the Correct Word probe in this store measures the skill for an IEP goal: one sentence a form, one write-in blank, a criterion score. Nothing here is scored against a criterion; this is the practice that comes before that measure. Page 4 shows what each format asks.

My name: _____

Date _____

Homophones are two words that sound the same but are spelled differently and mean different things. Sounding a homophone out never tells you which spelling is right; only the sentence does.

their / there

their — Belongs to more than one person
there — Means 'in that place'

its / it's

its — Belongs to it
it's — Short for 'it is'

to / too

to — Means 'toward' or 'in order to'
too — Means 'also' or 'more than enough'

One pair, in a real sentence

"The dogs buried their bones in the yard." Read it with the other word from the pair and it stops making sense — that is the whole skill.

My name: _____

Date _____

Read the sentence. Circle the word that fits.

1 The twins carried **their** OR **there** backpacks inside.

2 The cat licked **its** OR **it's** paw.

3 We bought a **new** OR **knew** bike for my birthday.

4 My little brother is **eight** OR **ate** years old.

5 The table is made of solid **wood** OR **would**.

How to fill this in

Date each column the day the child gets that pair right with no prompt. A blank means not tried yet, never wrong. Answer keys: pages 18-20. Filled example: page 25.

What the row shows is next

Reading left to right, the first blank column is the next format to try for that pair. If Circle is dated but Write is not, Write the Word (pages 10, 11) is next for that pair; if all five are dated, that pair is done.

THIS MONTH WE ARE WORKING ON

Diego M. is invented; nothing on this page describes a real student. The blank tracker is on page 21.

How to read it

Diego M. has circled the correct word for **10 of 10** pairs, written it for **7**, found and fixed the mistake for **5**, judged the two sentences for **3** and matched the meaning for **2**. Ready for Write the Word next: wood/would, sea/see, hear/here. Ready for Find the Mistake: eight/ate, to/too. Ready for Which One Is Right?: new/knew, write/right. Ready for Match the Meaning: its/it's. Every number comes from the table above.

The family note this tracker would produce

“This month Diego M. circled the correct word for all ten pairs and has moved on to writing it for 7 of them. Two pairs needed extra attention: it's (said ‘it is’ out loud first) and write/right (mixed up at first, self-corrected).”
— every fact in it is a row of the table above.

THANK YOU FOR USING THIS RESOURCE

Everything here was built for the teacher who has a table of children who each need a different amount of support choosing between two homophones.

If this helped, leaving feedback on TPT helps other teachers find it.
