Terms of Use

Please read before you print your first page.

One classroom license

- This file is for one classroom: one teacher and the students in that room.
- Please do not share it, post it online, or sell it.
- Extra licenses for a team or a school are available on the product page.

This is a fillable PDF

- Open it in a PDF reader (Adobe Acrobat Reader, Preview, or your browser), click into a line or a box, type, and Save As.
- It is a fillable PDF, not a slide deck. There is nothing to unlock or ungroup: every line and box is already a type-in field.
- It works offline. No account, no subscription, no internet connection needed after you download it.

Print at 100 percent

Turn off fit to page and shrink to fit. The picture choices are sized to print large and still read when photocopied in black and white.

Keep answers private

Each child's page holds their own answers. Keep the finished pages in a folder, not on a wall. Follow your school's own rules for student records.

Need help?

If a box will not take a typed X, or a page will not print the way you expect, use Ask a Question on the product page before leaving a review. Every question is read, and a fix to the file ships as a free update: re-download it any time from My Purchases.

How to Give the Inventory

Five steps, the words to read aloud, and a few tips. Teacher pages are never given to the child.

Five steps

1. Print the student pages, or type a name on the line at the top and Save As.
2. Sit beside the child. Read the one sentence at the top of the page out loud.
3. The child checks a box, or writes in the lines. Let them pick their own answers.
4. Keep the family version and the drawing page with the same child's folder.
5. Fill in the summary page after the child has finished, then file the folder.

Words to read aloud

- "Look at the pictures. Check the ones you like to do."
- "There are no wrong answers. You can check as many as you want."
- "Finish the sentence any way you like. Write a word or draw it."

Tips

- Read the picture words aloud if a child cannot read them yet. Point at each picture as you read.
- A child who wants to check nothing can skip a box. A blank is an answer too.
- Print in black and white? The pictures still show, and the boxes still take a check.

A Note to Family

Type your own words, print, and send it home with the child. Keep it short.

Dear family,

We finished a short interest inventory this week. It helps us learn what your child likes to do, so we can use those ideas in class.

Things your child told us they like

One thing you could ask about at home

Please write back or send a note with your child

Thank you,

Your name and room
