

IReady Lesson Tracker Reading & Math Log

Which iReady lessons a student has passed, by subject and by week or month: individual, small-group, caseload, and home versions, plus a filled example. Fillable PDF. For use alongside iReady; not affiliated with or endorsed by Curriculum Associates, LLC.

SETUP iReady Lesson Tracking Guide

A blank reference page. Write in your own lesson-passing rule and goals; this file sets none of its own.

WRITE IN YOUR OWN PROGRAM'S RULES

This file does not set a passing rule, a lesson name, or a subject path for any grade — those come from your own iReady dashboard and your team's own decisions. Fill in the table below once per term and refer back to it on every tracking sheet in this file.

Our iReady program/account name: School year / term:				
SETTING	VALUE	NOTES		
Subjects tracked for this student		Write Reading, Math, or both — this file sets neither.		
How a lesson counts as passed		Write your own iReady dashboard's own result label (after Passed or Not Passed); not set by this file.		
Lessons-passed goal, this marking period		Write the goal your team set for this student or class.		
Lessons-passed goal, this school year		Write the year-long goal if your program sets one.		
How often lessons are checked		Write your own schedule: weekly, after every session, or monthly.		
Who records the lessons		Write which adult updates the roster and the logs (teacher, paraprofessional, case manager).		
YOUR TEAM'S OWN DECISION RULES (write these in; this file sets none)				
Signal to raise the goal		Write your team's own rule for when a goal is increased.		
Signal to add more support		Write your team's own rule for when a student needs more support to pass lessons.		
Signal to revisit the lesson path		Write your team's own rule, from your iReady dashboard or your reading or math program, for when a lesson path is revisited.		
Signal to retry a lesson		Write your own rule for when a student retries a lesson instead of moving on to the next one.		
Team Planning Worksheet. One row per marking period, so a lessons-passed goal can grow (or reset) on purpose instead of by accident.				
PERIOD	LESSONS GOAL	LESSONS PASSED	RUNNING TOTAL	ON PACE?

TRACKING Individual Weekly Lesson Log by Subject

One row per lesson, up to 18 rows. Week, subject (Reading or Math), lesson name(s), pass or not yet, and notes. The detailed version for close monitoring.

One student, logged lesson by lesson, week by week. Copy this page per student. Fill in the student name at the top, then add one row per lesson.

Fill the columns: Subject = Reading or Math; Lesson Name / Skill = written exactly as your own iReady dashboard shows it; Pass or Not Yet = your dashboard's own result; Notes = anything that explains the result.

Student name: Grade:				
WEEK OF	SUBJECT	LESSON NAME / SKILL	PASS OR NOT YET	NOTES

TRACKING Individual Monthly Lesson Log by Subject

One row per month per subject: lessons passed, lessons not yet passed, and notes. The big-picture version for a term that notes many weeks.

The big picture version rolled up by month, not by lesson. Copy per student. At the end of each month, count the lessons passed and not yet passed from the weekly log (page 7) or your own iReady dashboard and write the totals here.

Student name:				
Minimum info: Month, subject, lessons passed that month, lessons not yet passed, a one-word note. Save a copy per student with their name.				
MONTH	SUBJECT	LESSONS PASSED	LESSONS NOT YET	NOTES

TRACKING Small-Group iReady Lesson Log

One shared lesson list, up to 4 students. Pass or not yet checked off as each student finishes a lesson.

Lab or small-group time, 4+ students. Write each student's name across the top. For each row, enter the date and lesson name, then mark each student's result once their lesson is done. Copy this sheet if you have more than 4 students in one group.

How to fill: Date / lesson name — each student's pass or not-yet mark (blank until that student finishes the lesson).

Write the four students' names at the top of the page: Student 1: Student 2: Student 3: Student 4:				
DATE / LESSON NAME	STUDENT 1 (PASS/NOT YET)	STUDENT 2 (PASS/NOT YET)	STUDENT 3 (PASS/NOT YET)	STUDENT 4 (PASS/NOT YET)

SUMMARY Caseload iReady Lessons Overview

One row per student: lessons passed, lessons not yet, by subject. The whole caseload at a glance.

One check, whole caseload at a glance. On this once a month. Fill in one row per student: subject, lessons passed, lessons not yet passed, and the date of the last update.

How to fill: Student name — subject — lessons passed (running total from page 7 or 8) — lessons not yet passed — date of last update.

Why this page: You check 10–15 students the same day. This is your monthly snapshot. For lesson-by-lesson detail, use page 7 (Individual Weekly Log).

STUDENT NAME	SUBJECT	LESSONS PASSED	LESSONS NOT YET	LAST UPDATED	NOTES

EXAMPLE A Tracking Sheet, Filled In

An invented fifth grader. Every lesson count below is checked against the rows it comes from.

An invented fifth grader, Priya S. Every lesson name, subject, and pass mark is made up. These five lessons hang together: one retry, a monthly count that only adds the Pass rows, and a read/match split that matches the weekly rows exactly.

Lesson names are invented and are not a reproduction of any specific iReady lesson or skill sequence.

Individual Weekly Lesson Log Example (partial) — Priya S., grade 5 (invented)				
WEEK OF	SUBJECT	LESSON NAME / SKILL (INVENTED)	PASS OR NOT YET	NOTES
Oct 2	Math	Comparing Fractions with Unlike Denominators	Pass	First lesson this term
Oct 9	Reading	Finding the Main Idea in Nonfiction	Pass	Finished early
Oct 16	Math	Multiplying Fractions by Whole Numbers	Not Yet	Retrying next session
Oct 17	Math	Multiplying Fractions by Whole Numbers — retry	Pass	Passed on retry, same skill.
Oct 23	Reading	Author's Purpose in Persuasive Text	Pass	Worked independently
This example shows 5 lessons. A real page 7 would have up to 18 rows for a full term. Lesson names are invented examples, not a reproduction of any iReady lesson.				
Individual Monthly Lesson Log by Subject (page 8) — Priya's October Row				
MONTH	SUBJECT	LESSONS PASSED	LESSONS NOT YET	NOTES
October	Math	2	0	One retry, passed on second attempt.
October	Reading	2	0	Both lessons passed on first try.
Checked against the weekly log above: Math shows 2 Pass rows (Oct 17 retry counted once it passed) and 0 remaining Not Yet. Reading shows 2 Pass rows (Oct 9, Oct 23) and 0 Not Yet. Totals match exactly: 2+2 = 4 lessons passed in October.				
Progress Snapshot for Priya's October Meeting				
PERIOD	LESSONS PASSED THIS PERIOD	RUNNING TOTAL	READING / MATH SPLIT	TREND

R & M Log

Pass Tracker

How This Tracking System Works

Three steps: set up the tracker, pick the sheet that matches today, and roll the numbers up before a meeting. Everything here is a plain lesson-by-lesson log, not a timed probe and not the iReady program itself.

ONE: SET UP THE TRACKER (once per student, at the start of the term)

- Page 5: Write in your own lesson-passing rule and which subjects you are tracking, if your program sets one.
- Page 6: List the student on the Caseload iReady Roster with the subjects they are tracked in, pulled from your own iReady dashboard.
- Decide once whether this student is tracked week by week (page 7) or month by month (page 8) so every log afterward rolls up the same way.

TWO: PICK THE SHEET THAT FITS TODAY

- **Full detail, one student, week by week:** Use page 7 (Individual Weekly Lesson Log by Subject). Copy it per student. Save with the student's name: "Aiden-iReady-Log.pdf."
- **Big picture, one student, month by month:** Use page 8 (Individual Monthly Lesson Log by Subject) for a term that runs many weeks.
- **Quick check when you have no time:** Use page 9 (Quick iReady Check-In Log). No lesson-name column, just the numbers.
- **Lab or small-group time, several students:** Use page 10 (Small-Group iReady Lesson Log). One shared lesson list, up to 4 students.

THREE: LOG EVERY LESSON, THEN ROLL IT UP

- After checking your iReady dashboard, write the week (or month), subject, and lesson name/skill on page 7 (or page 8 for the month view).
- Mark the lesson Pass or Not Yet, from your own account's own result.
- Add the lesson to the running total on page 11 (Caseload iReady Lessons Overview) once it is passed.
- Note anything that explains the result on page 7 or 9: "retried after a break," "worked with support," "finished early."

FOUR: REPORT PROGRESS

- Once a month or at the end of a marking period, fill out page 12 (iReady Progress Snapshot) for a team meeting or a note to families.
- Send the Home iReady Practice Log (page 13) home so families can log at-home practice time between school check-ins.

What this is not

Not a timed probe pack; it does not reproduce any iReady lesson, score, or skill sequence. It is the running lesson log and pass count a case manager, teacher, or family keeps between iReady check-ins. Example students are invented. Names, lessons, and numbers are made up.

The habits this file assumes

- ☐ Which subjects are tracked (page 5 or 6) are written down before the first lesson is logged.
- ☐ Every lesson gets a week or a month, even a quick one.
- ☐ A lesson is only counted once it has a Pass or Not Yet mark on a tracking sheet.

Why six sheet shapes instead of one

One student needs full weekly detail (page 7). A long term needs the monthly rollup (page 8). A caseload needs the fast version (pages 9 and 11). A lab group needs one shared sheet (page 10). A family needs a version with no pass marks on it (page 13).

TRACKING

Individual Weekly Lesson Log by Subject

One row per lesson, up to 18 rows. Week, subject (Reading or Math), lesson name/skill, pass or not yet, and notes. The detailed version for close monitoring.

One student, logged lesson by lesson, week by week. Copy this page per student. Fill in the student name at the top, then add one row per lesson.

Fill the columns: Subject = Reading or Math; Lesson Name / Skill = written exactly as your own iReady dashboard shows it; Pass or Not Yet = your dashboard's own result; Notes = anything that explains the result.

Student name: Grade:

WEEK OF	SUBJECT	LESSON NAME / SKILL	PASS OR NOT YET	NOTES

Lab or small-group time, 4+ students. Write each student's name across the top. For each row, enter the date and lesson name, then mark each student's result once their lesson is done. Copy this sheet if you have more than 4 students in one group.

Write the four students' names at the top of the page:

Student 3: Student 4:

Carrying lessons forward

SUMMARY Caseload iReady Lessons Overview

One row per student: lessons passed, lessons not yet, by subject. The whole caseload at a glance.

One check, whole caseload at a glance. Do this once a month. Fill in one row per student: subject, lessons passed, lessons not yet passed, and the date of the last update.

How to fill: Student name · subject · lessons passed (running total from page 7 or 8) · lessons not yet passed · date of last update.

Why this page: You check 10–15 students the same day. This is your monthly snapshot. For lesson-by-lesson detail, use page 7 (Individual Weekly Log).

[illegible]

Reading the caseload at a glance

A student with many more Not Yet rows than Passed rows is the one to check first.

EXAMPLE

A Tracking Sheet, Filled In

An invented fifth grader. Every lesson count below is checked against the rows it comes from.

An invented fifth grader, Priya S. Every lesson name, subject, and pass mark is made up. These five lessons hang together: one retry, a monthly count that only adds the Pass rows, and a reading/math split that matches the weekly rows exactly.

Lesson names are invented and are not a reproduction of any specific iReady lesson or skill sequence.

Individual Weekly Lesson Log Example (partial) — Priya S., grade 5 (invented)

WEEK OF	SUBJECT	LESSON NAME / SKILL (INVENTED)	PASS OR NOT YET	NOTES
Oct 2	Math	Comparing Fractions with Unlike Denominators	Pass	First lesson this term
Oct 9	Reading	Finding the Main Idea in Nonfiction	Pass	Finished early
Oct 16	Math	Multiplying Fractions by Whole Numbers	Not Yet	Retrying next session
Oct 17	Math	Multiplying Fractions by Whole Numbers — retry	Pass	Passed on retry, same skill
Oct 23	Reading	Author's Purpose in Persuasive Text	Pass	Worked independently

This example shows 5 lessons. A real page 7 would have up to 18 rows for a full term. Lesson names are invented examples, not a reproduction of any iReady lesson.

Individual Monthly Lesson Log by Subject (page 8) — Priya's October Row

MONTH	SUBJECT	LESSONS PASSED	LESSONS NOT YET	NOTES
October	Math	2	0	One retry, passed on second attempt
October	Reading	2	0	Both lessons passed on first try

Checked against the weekly log above: Math shows 2 Pass rows (Oct 17 retry counted once it passed) and 0 remaining Not Yet; Reading shows 2 Pass rows (Oct 9, Oct 23) and 0 Not Yet. Totals match exactly: $2+2 = 4$ lessons passed in October.

Progress Snapshot for Priya's October Meeting

PERIOD	LESSONS PASSED THIS PERIOD	RUNNING TOTAL	READING / MATH SPLIT	TREND
Oct 1–23	4	4	2 Reading / 2 Math	On pace, one retry resolved quickly

Checked against the monthly table above: 4 lessons passed total (2 Reading + 2 Math), running total 4, matching the weekly log's own count of 4 Pass rows.

What the Family and Team Update (page 14) would say

Current lesson / subject: Author's Purpose in Persuasive Text, Reading. Lessons passed since the last update: 4 (2 Reading, 2 Math, including one Math retry that passed on the second attempt). Running total toward goal: 4 lessons this month. Next check planned for the first week of November, the same date noted on the monthly log and the snapshot above.
