Lemonade Day Counting

Counting clip cards, 3 levels, plus a ten frame mat

What's inside

- 36 count cards: 12 at each level, in color and in black and white
- A number strip, 1 to 10, to keep in the box
- A lemonade day counting ten frame mat with pictures to count and write
- Three student recording sheets (one per level), an answer key and a teacher data sheet

Set up

Print, laminate, and cut on the dashed lines. Put one level in the box with clothespins, or let students circle with a dry erase marker. Put the number strip and the lemonade day counting ten frame mat in the box for students who need them.

The three levels

- ● Level 1 Counts 1 to 6. 2 numbers to pick from, and the wrong one is far away.
- ■ Level 2 Counts 3 to 8. 3 numbers to pick from.
- ▲ Level 3 Counts 5 to 10. 4 numbers to pick from, including one right next door (off by one).

Each level is marked with a shape, not a number, so students are not comparing levels.

How to run it

"How many? Count them." Have the student touch each picture while counting, then clip the number. Check with the strip if needed. The lemonade day counting ten frame mat gives the same skill on a ten frame: the student counts the pictures and writes the number. Students who can write use the recording sheet (card numbers are in the corner of each card). Mark the data sheet: cards correct out of cards given.

Ready to move up

When a student gets 11 of 12 on two days in a row, try the next level. If a level is too hard two days in a row, go back one.

Talk it through

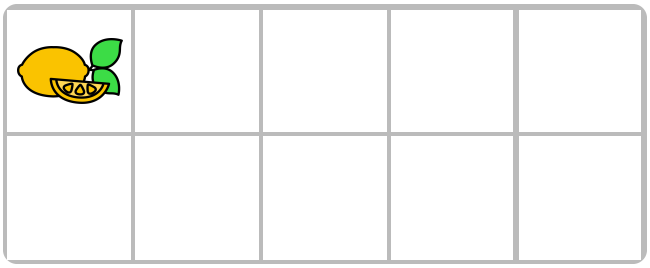

Play lemonade stand first. Stir sugar and pour cups for thirsty customers.
