

One complete kit for the magic-e (CVCe) step, built around the word pair itself: fat becomes fate, twin becomes twine. Every student answer is circled or written in pencil — no student page needs scissors or glue, and no page needs a picture.

THREE STEPS

1 Look at Magic E together

Page 7 is the one student page with the rule on it: a silent e at the end makes the vowel say its name. Read the four before/after pairs aloud, then try the three steps at the bottom.

2 Pick a format and a set

Five ways to practice, easiest to hardest. The chart below says which page for which child. Each format comes in two sets of eight pairs (A, B), so a child never meets the same pair twice in one format.

3 Check it, record it, send it home

The answer keys are pages 18 and 19. Date each pair on the tracker (page 20), roll the group up on page 21, and send the home page (23). A filled example is on page 24.

WHICH PAGE, WHEN

WHEN...	USE...
Meeting magic e for the first time	Add the Magic E, pages 8, 9
Can add the e, needs to spot the pattern	Which One Has the Magic E?, pages 10, 11
Reading both halves of a pair	Vowel + Magic E, pages 12, 13
Choosing the real spelling	Circle the Correct Spelling, pages 14, 15
Ready to build the whole word	Write Both Words, pages 16, 17
Writing a progress note or a note home	Team note, page 22 · phrase bank, page 25

Everything inside (28 pages)

- **10 student pages** in 5 formats: 2 sets of 8 word pairs in each format
- **16 before/after word pairs** (32 words), a Magic E Helper page, no pictures anywhere in the file
- **2 answer keys** generated from the same data as the pages, **1 tracker** (16 pairs) and **1 class grid**
- **1 team note, 1 home page, 1 filled example, 1 phrase bank**
- **1 binder cover, 6 divider tabs** and a spine label, cut along the dashed lines

How this is different from the rest of this store's silent-e shelf

The Silent E (CVCe) Cut and Paste pack sorts and glues pictures. Silent E Worksheets reads a picture and writes or circles its word. Nothing here uses a picture at all: every exercise is one of 16 before/after word pairs, printed as text, and the bank is a different 32 words from either of those two packs or the two silent-e progress-monitoring probes. Page 4 shows what each format asks.

How to fill this in

Date each column the day the child gets that pair right with no prompt. A blank means not tried yet, never wrong. Answer keys: pages 18 and 19. Filled example: page 24.

THIS MONTH WE ARE WORKING ON

Priya K. is invented; nothing on this page describes a real student. The blank tracker is on page 20.

How to read it

Priya K. has done Add the Magic E for **12 of 16** pairs, Which One Has the Magic E? for **9**, Vowel + Magic E for **6** and Circle the Correct Spelling for **2**. No pair has reached Write Both Words yet. Ready for Spot It next: fin, mop, slat. Ready for Vowel + Magic E: cod, dun, mat. Ready for Circle the Correct Spelling: rod, hug, rat, spin. Every number comes from the table above.

The family note this tracker would produce

“This month Priya K. added the magic e correctly for 12 pairs and has circled the right spelling for 2 of them. Two pairs needed a second read: rod was read as ‘road’ at first and dun was mixed up with ‘dune sounds like a hill’ until the word bank helped.” — every fact in it is a row of the table above.

THANK YOU FOR USING THIS RESOURCE

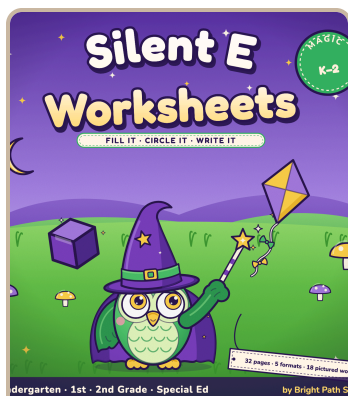

Everything here was built for the teacher who has a table of children who each need a different amount of support turning a short word into a magic-e word. If this helped, leaving feedback on TPT helps other teachers find it.
