MATCHING FILE FOLDER ACTIVITIES

Home, Food, Clothes, Signs

18 FOLDERS 2 LEVELS

Bright Path Sped

Start Here

18 matching file folders for everyday words: the house, the kitchen, food, clothes, things that go, the pencil box and 12 signs around town, 125 different words in all. 9 folders match picture to picture, 6 match a word to its picture and 3 sort into two groups. Every folder comes at two levels (● and ■). Each level is two face pages, A and B, of six cells, so every folder level has 12 pieces and every folder has 24. That is 72 face pages and 432 loose pieces, with a tab label, a bag label for each folder level and a line on the data sheet.

Three steps

1. **Prep once.** Print the 72 face pages (pages 8 to 79) and the piece sheets (pages 80 to 88), laminate, cut the pieces, add hook-and-loop dots. Page 5 shows the folder.
2. **Pick a folder and a level.** Hand over the folder and its bag of pieces. Say "Match." Prompt only if needed, then fade the prompt. Page 3 lists every folder and where its pieces are.
3. **Mark it.** One mark per folder level on the data sheet (pages 110 and 111). Roll it up on page 113 when you need a summary.

Which page when

You need to	Go to
see every folder, its face pages and its piece rows	page 3
see what changes from Level 1 to Level 2	page 4
put a folder together	page 5
check an answer on a face	pages 6 and 7
label tabs and piece bags	pages 108 and 109
give a student paper practice (no folder)	pages 89 to 106; key on page 116
record a session (a filled sample is on page 112)	pages 110 and 111
send a note home or word a progress line	pages 114 and 115

Moving up

A folder level is done alone when all 12 pieces (page A and page B) are placed with no prompt. When a folder's Level 1 is done alone three sessions in a row, start its Level 2. If Level 2 is not working after three sessions, go back to Level 1 and keep it in the rotation. Short on time? Run page A one day and page B the next.

What is in the file

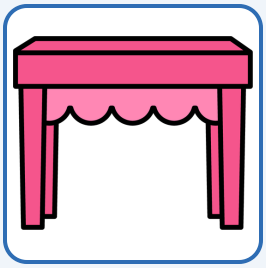

- 72 folder face pages, 432 loose pieces on 9 sheets, 18 tab labels and 36 bag labels
- 18 paper practice pages: draw a line, cut and glue a word, cut and sort
- a student chart, two data sheets with a filled sample, a progress summary, a note home, a notes bank and answer keys for the folders and the paper practice
