

Negation Data Sheets

What Is Inside, and Where

23 pages: three sections, a worked example and a back page. Nothing here scores a response against a published norm or sets when a referral is warranted; every one of those stays with your team.

How the sections build on each other: Section 1 sets up the marks, negation domain codes and caseload once. Section 2 is every session's data — a detailed sheet for each of full, contracted and negative-quantifier negation, a quick combined check, a frequency chart, and a form for a second adult. Section 3 turns that data into a tracker, a graph, a family update and language for a progress note, closed out with one worked example.

Start Here — Three Steps

Ninety seconds of reading. Type the roster and the code key once; the trial marks themselves are faster with a pen.

1

Set up once

Define the recording marks, negation domain codes and generalization levels (page 6) as a team before the first session, and type the caseload roster once at the start of the term.

Print the binder cover and tabs (page 8) if this file lives in a binder rather than on a device.

2

Take data every session

Run the detailed sheet for whichever form the goal targets (pages 10–12), or the quick combined check (page 13) on a tighter day, and add the session up on the frequency chart (page 14) before moving on.

The paraprofessional form is the plain-words version for a day the case manager is not the one listening.

3

Roll up and share

Copy the percent onto the tracker (page 17) the same day, and plot the graph (page 18) once a week.

The family update (page 20) and the phrase bank (page 21) are ready to use as soon as a session of data is in.

WHAT THIS FILE IS

A fillable PDF. The fields are built into the document itself, so it works offline with no account or subscription and looks the same on every machine that opens it.

WHAT THIS FILE IS NOT

It is not a Google Sheets file, a Google Doc, or an Excel workbook, and it does not score a response against a published norm or compute a percent for you. You can type in it and print it; you cannot drag the boxes around or restyle the page.

WHAT THIS IS, AND WHAT IT IS NOT THE SAME AS

Not **Morphosyntax and Grammar Development Progress Monitoring Editable** — one generic sheet spread across seven grammar domains. Not **Double Negatives Editing Progress Monitoring Probes** — six fixed worksheets where the student finds and fixes a sentence that already has TWO negatives; this file never asks a student to find or fix an error. This file is the negation-only caseload system: a session sheet for EACH of full, contracted and negative-quantifier negation, a quick check, a tracker and graph, a family update and a phrase bank.

THE RULE EVERY PAGE IN THIS FILE FOLLOWS

A mark says only whether a response matched the target negation form as the clinician judged it that session — never a score against a published norm, a condition name, or a referral rule.

IF SOMETHING DOES NOT WORK

The text disappears when I close it. Opened in something that fills fields but does not save them — use Acrobat Reader and Save As.

I need more rows than a table holds. Print that page again and number the sheets; the tracker only needs the totals.

Anything else — the **Ask a Question** tab; a fix to the file is a free update.

02

Take the Data

A detailed session sheet for full, uncontracted negation, a separate one for contracted negation, and a third for negative quantifiers, a faster combined check for a day with no time for three full sessions, a within-session tally chart for all three forms, and a plain-language form for the paraprofessional or the general education teacher.

IN THIS SECTION

Full Negation (not) Data Sheet	10
Contracted Negation (-n't) Data Sheet	11
Negative Quantifiers Data Sheet	12
Quick Daily Negation Check	13
Frequency Correct / Incorrect Chart	14
Paraprofessional and Classroom Carryover Form	15

DATA

Full Negation (not) Data Sheet

One sentence context at a time, ten trials a session. Move up a generalization level only when the criterion at the top has been met.

STUDENT	SENTENCE SET USED	LEVEL (PAGE 6)
CRITERION FROM THE IEP	CUED TRIALS COUNT AS CORRECT? (Y / N)	

SAMPLE SENTENCE CONTEXTS (TEN DIFFERENT ITEMS — SWAP IN YOUR OWN)

The sun is shining today. The rain ____ falling. → **is not** · I am ready to go. She ____ ready to go. → **is not** · We are finished with lunch. They ____ finished with lunch. → **are not** · The boy likes carrots. He ____ like peas. → **does not** · The girls play outside at recess. The boys ____ play inside at recess. → **do not** · He ate breakfast this morning. He ____ eaten lunch yet. → **has not** · The cat was sleeping on the rug. The dog ____ sleeping on the rug. → **was not** · The twins were playing tag. Grandma and Grandpa ____ playing tag. → **were not** · You have finished your homework. I ____ finished my homework. → **have not** · The team will win the game. The other team ____ win the game. → **will not**

DATE	1	2	3	4	5	6	7	8	9	10	+ (OF 10)	%	LEVEL

WHAT COUNTS AS A CORRECT FULL-NEGATION RESPONSE

This sheet never decides which response counts. Write the accepted negation for each context on the stimulus set itself, and score against that list, not against how close the response feels in the moment.

CONTEXTS THAT KEEP FAILING

DATA

Contracted Negation (-n't) Data Sheet

Same shape as the full-negation sheet, for the contracted form. One context list, one generalization level, ten trials a session.

STUDENT	SENTENCE SET USED	LEVEL (PAGE 6)
CRITERION FROM THE IEP		CUED TRIALS COUNT AS CORRECT? (Y / N)

SAMPLE SENTENCE CONTEXTS (TEN DIFFERENT ITEMS — SWAP IN YOUR OWN)

The light is red. The sign ____ red. → **isn't** · We are late. You ____ late. → **aren't** · She likes apples. She ____ like bananas. → **doesn't** · The boys clean their room every week. The girls ____ clean their room every week. → **don't** · He finished his snack. He ____ finish his drink. → **didn't** · The movie was long. The show ____ long. → **wasn't** · The chairs were stacked. The tables ____ stacked. → **weren't** · I have seen that movie. I ____ seen that show. → **haven't** · The dog can swim. The cat ____ swim. → **can't** · He could reach the shelf. He ____ reach the top shelf. → **couldn't**

DATE	1	2	3	4	5	6	7	8	9	10	+ (OF 10)	%	LEVEL

SAME SHAPE AS THE FULL-NEGATION SHEET

One sentence-context list, one generalization level, ten trials. If a student is tracked on more than one form, keep the sheets on separate pages so the tracker (page 17) can be copied from each without mixing them.

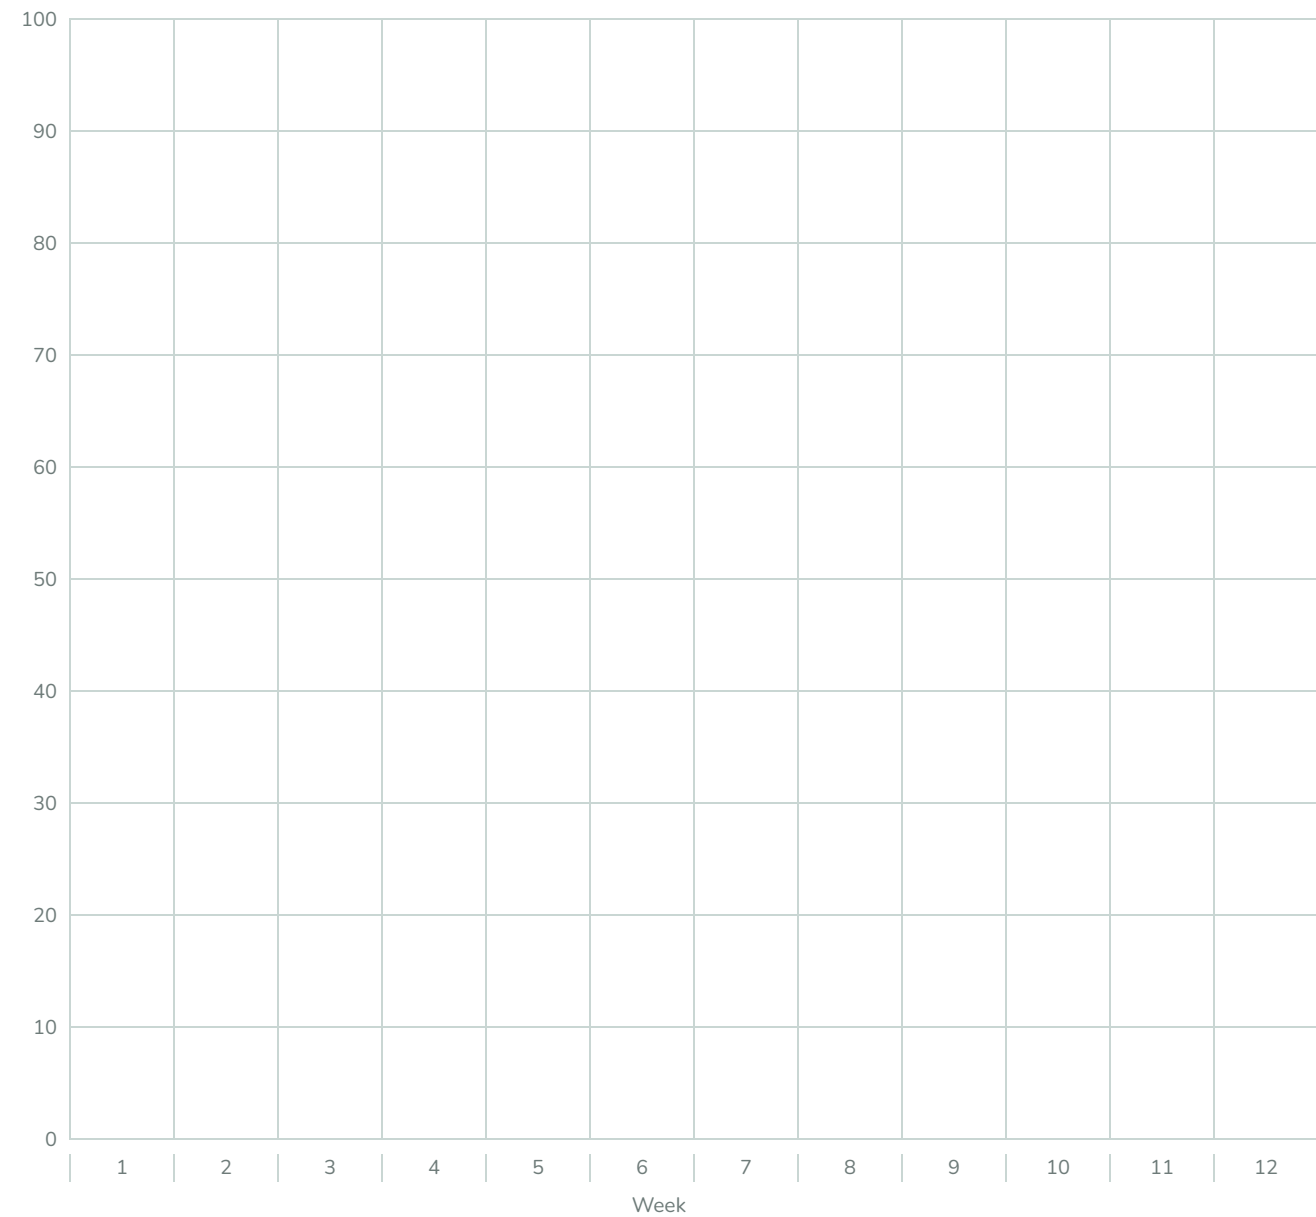

CONTEXTS THAT KEEP FAILING

 TRACKER

Progress Graph

STUDENT	GOAL (SHORT)	CRITERION / AIM

PERCENT CORRECT, FULL/CONTRACTED/QUANTIFIER NEGATION — LABEL IT

WEEK	1	2	3	4	5	6	7	8	9	10	11	12
Date												
Score												
Aim line												

Reading it: a line climbing across sessions is increasing accuracy. Three points flat or falling in a row: check the frequency chart (page 14) for what changed.

EXAMPLE

A Session of Data, Filled In

SAMPLE · INVENTED STUDENT

FULL NEGATION SHEET (PAGE 10) — KAI M., GRADE 2 (INVENTED)

Context set: sample items, teacher-selected · **Criterion from the IEP:** 80% accuracy across three consecutive sessions · **Cued trials count as correct:** N

DATE	1	2	3	4	5	6	7	8	9	10	+	%	LEVEL
Oct 2	+	+	-	+	+	+	-	+	+	+	8	80	Frame
Oct 5	+	+	+	-	+	+	+	+	+	+	9	90	Frame
Oct 9	+	+	+	+	+	-	+	+	+	+	9	90	Frame
Oct 14	+	-	+	+	-	+	+	+	-	+	7	70	Convo

Oct 2, Oct 5 and Oct 9 were three sessions at or above 80%, so the criterion was met Oct 9; the level then moved to conversation on Oct 14, where the percent dropped to 70% as expected — progress, not a setback.

CONTRACTED NEGATION SHEET (PAGE 11)

DATE	1	2	3	4	5	6	7	8	9	10	+	%	LEVEL
Oct 3	+	-	+	+	-	+	+	-	+	-	6	60	Frame
Oct 6	+	+	-	+	+	+	-	+	-	+	7	70	Frame
Oct 10	+	+	+	-	+	+	+	-	+	+	8	80	Frame
Oct 14	+	+	+	+	-	+	+	+	-	+	8	80	Frame

Four sessions at 60/70/80/80% — rising, but never three in a row at 80%, so contracted negation stays at the sentence-frame level. Oct 3 and Oct 6 both missed “doesn’t” and “haven’t”.

FREQUENCY CORRECT/INCORRECT CHART (PAGE 14) — OCT 14, ALL THREE FORMS, SAME SESSION

DOMAIN	PRESENTED	CORRECT	INCORRECT	SC	NR	%
Full negation	10	7	3	0	0	70
Contracted negation	10	8	2	0	0	80
Negative quantifiers	10	8	2	0	0	80

Same session, same student: contracted negation and negative quantifiers are both at 80%, ahead of full negation at 70% — expected, since full negation just moved up to the conversation level and starts lower there.

THE DECISION, WRITTEN ON THE TRACKER (PAGE 17)

Full negation: met criterion Oct 9; now in conversation at 70%, the expected first drop.

Contracted negation: 60/70/80/80% — not yet met; recheck “doesn’t” and “haven’t”. **Negative quantifiers:** rising steadily (50/60/70/80%); one more session at 80%+ to start the three-in-a-row count.

DOMAIN SNAPSHOT (FEEDS THE QUARTERLY SUMMARY, PAGE 19)

DOMAIN	BASELINE (DATE, %)	CURRENT (DATE, %, LEVEL)	STATUS	ONE-LINE NOTE FOR THE QUARTERLY SUMMARY
Full negation	30% (Sep 20)	70% convo (Oct 14)	SP	Met frame-level criterion Oct 9; now in conversation.
Contracted negation	25% (Sep 20)	80% frame (Oct 14)	SP	Rising; needs two more sessions at or above 80% to meet criterion.
Negative quantifiers	20% (Sep 20)	80% frame (Oct 14)	IP	Slow, steady rise; one more session at 80%+ to start the three-in-a-row count.

WHY THIS IS ENOUGH

Every number here came from the tables above it; the quarterly summary is a copying job.
