

NG and Nk Glued Sounds

CIRCLE · WRITE · READ

27 pages · 12 pictures

One complete kit for the two nasal glued sounds, ng and nk, with pictures: circle it, write it, and read it, with the record-keeping around it. Nothing on a child page is cut or glued.

THREE STEPS

- 1 **Pick a set and a way to answer**
Two glued sounds, one set each (ng, nk). Every set has a Circle It page (pick from three) and a Write It page (write the two letters). The contents on page 5 gives every page number.
- 2 **Say the picture first**
The child says the picture before a pencil moves. The child page has a name line, one short direction and big pictures; page 4 shows all three page types side by side.
- 3 **Check it, record it, send it home**
The answer key is pages 17–18. Record on the tracker (page 19), roll the group up on page 20, and send home page 22. A filled example is on page 23.

Reading the words	Mixed Read It, pages 15, 16
A note home or a progress note	Home page 22 · phrase bank 24

Everything inside (27 pages)

- **10 student pages** — 2 sets x (Circle It + Write It), plus 6 Mixed pages (Circle It, Write It, Read It, two of each)
- **12 pictured words**, six per glued sound; every picture checked and looked at, six drawn for this pack
- **2 answer-key pages, 1 tracker, 1 class roll-up grid**
- **1 team note, 1 home page, 1 filled example, 1 phrase bank**
- **1 binder cover and 1 page of cut-apart divider tabs**

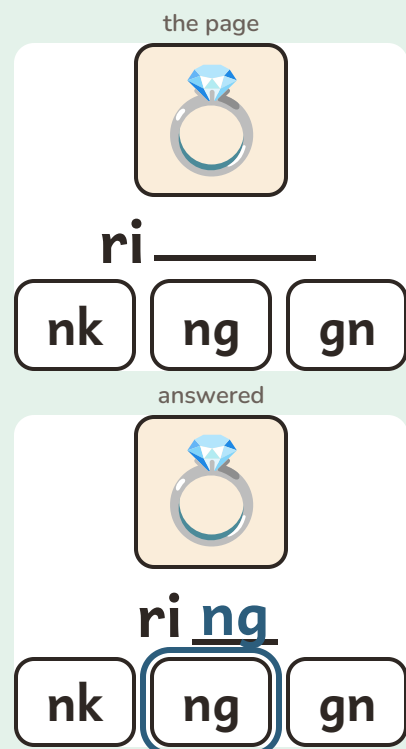

Only ng and nk

This file is the two nasal glued sounds only, not every digraph. For sh, ch, th, wh and beginning or ending blends, see the sibling worksheet pack named on page 27.

THE THREE PAGE TYPES, WITH ONE WORD (RING)

Circle It

The child says the picture and circles the two letters that fit. One chip is right; two are look-alikes.

Write It

The same word with two big boxes, one letter each. A set page names the team in the direction; a Mixed page has a glued-sound bank.

Read It

The other way round: the word is printed, the child reads it and circles the picture. Mixed pages only.

THE PARTS OF A PAGE

The picture

One object a child can name. A word is used only if its picture names it one way; 6 of the 12 are Noto pictures, 6 are drawn for this pack.

The answer boxes

Each Write It box is about 0.7 in tall, one letter per box, so a beginning writer has room.

The dots by the name line

One dot: a guided set page. Two: more independent. Three: Mixed Write It, no glued sound given. The dot count is the only mark; no page says "Level."

The small Set tag

Set 1 or 2 (page 5 shows which is which) so you can file a page. It never names the glued sound, so a Circle It page does not give the answer away.

Printing and the type-in fields

Every child page prints clean in black and white and is pencil work. In any PDF reader, click a name line, a tracker cell or a home-page box to type into it, then save. This is a PDF, not a slideshow or a word-processor file.

Two glued sounds, two pages each, then six Mixed pages with no glued sound given. The page number prints in the footer of every page.

MIXED REVIEW: EVERY WORD ONCE, NO HINT

MIXED REVIEW	PAGES	PAGE NUMBERS
Mixed Circle It	A · B	11 · 12
Mixed Write It	A · B	13 · 14
Mixed Read It	A · B	15 · 16

One way to run a set

Day 1: the set's Circle It page. Day 2: its Write It page. Later: the Mixed pages, which mix ng and nk on one page. Read It (pages 15, 16) needs no writing and works well as a first look or a warm-up. Change it freely.

Every word appears on a Mixed page once

The 12 words are split across the two Mixed pages of each kind (Circle It, Write It, Read It), one per page, so no Mixed page repeats a word another Mixed page of the same kind already used. Page 18 lists which is which.

Why only ng and nk

These two nasal sounds blend into a single glued sound the way a digraph does, rather than staying two separate letter sounds. Your district's or program's scope and sequence decides when to teach them.

How to fill this in

Write the date, then how many the child got right with no prompt, each time the set is practiced (up to 3 tries are laid out below; add a photocopy of this page for more). Circle It and Write It are out of 6 per set. A blank always means "not tried yet," never "got it wrong." Answer key: pages 17-18. Filled example: page 23.

Three steps at home

- Pick one row below. Point to a picture and say the word slowly together.
- Find the two letters that make the glued sound, the underlined ones. Trace them with a finger.
- Look for the same two letters in a book, a sign or a cereal box. One word is enough for one sitting.

Mixed Circle It (A + B)	9/14	10	Slower on nk items
Mixed Write It (A + B)	–	–	–

How to read it

Priya K. has tried **2 of 2** sets. On Circle It she got **10 of 12** right; on Write It, for the 1 set(s) where it is done, **5 of 6**. Set(s) none not started. The lower Circle It score is on the **nk** set. Every number here comes from the tables.

The family note this tracker would produce

“This week Priya K. circled the right letters on 10 of 12 items and wrote the team correctly on 5 of 6. The nk set needed Write It next.” — every fact in it is a row of the tables above.

What the ng row shows

Set 1 (ng), dated 9/8: Circle It **6 of 6**, Write It **5 of 6**. The note says Priya said every picture out loud before circling or writing — the habit the how-to page (page 4) asks every set to start with.

What the nk row shows

Set 2 (nk), dated 9/10: Circle It **4 of 6**, Write It not done yet. The note says Write It is planned for next week, which is why the row shows a dash instead of a zero — a blank cell always means “not tried yet,” never “got it wrong.”

THANK YOU FOR USING THIS RESOURCE

Everything here was built for the teacher who has thirty minutes of planning time and a table of students who each need a different amount of support to spell a glued sound. If it saved you an hour, it worked. If something is missing or wrong, please use the **Ask a Question** tab first — I will fix it and send you the update free.

WHAT'S NEXT FROM THIS STORE

Once a child can spell ng and nk, the next step is the other consonant patterns, or taking timed data on the same sounds. These four go with this one.

**DIGRAPH & BLEND
PICTURE WORKSHEETS**

Twelve skills — six digraphs, six blends — each with a Circle It page (three letter choices) and a Write It page (the word missing its digraph or blend), plus a Mixed Digraphs and a Mixed Blends review. Not the cut-and-paste sort. Fillable PDF.
