Start Here

November Learning Collection

A date-specific November 2026 classroom calendar kit with an undated grid, differentiated date investigations, number talks, weekly plans, weather observations and original reading. Best for supported K-2 morning meetings. This download contains the color edition first, followed by matching ink-saver pages. Print one edition. Answer-guide page references use the color-edition page numbers in both editions.

Three ways to participate

Circle: process clues; two choices on choice pages. Square: apply without the clue; three choices on choice pages. Triangle: explain, draw or solve.

Start with the task, then fade support

Model one example. Choose an entry point, then use a different task to check transfer. Record what the learner did and which support was used. Quick route (color edition): Calendar p. 4; date practice p. 6; mat/cards pp. 34-36; answer guide p. 38.

What you need

Pencils, crayons, paper and optional scissors/glue. A partner may read text aloud; support does not change what the task asks.

PREVIEW

My name _____

Find a date. Tell its day.

November 2026 classroom calendar

Sun	Mon	Tue	Wed	Thu	Fri	Sat
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30

Tell one date you can find. What comes before it?

My name _____

Look. Tell the routine.

Calendar meeting: completed example

First

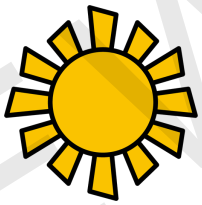

Check the calendar

Find today. Say its date and weekday.

Next

Notice the weather

Look outside. Choose a weather word.

Then

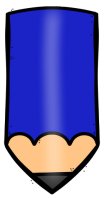

Choose a class job

Pick one helpful action for our class.

Last

Make a plan

Tell one thing we will do today.

PREVIEW

My name _____

Use the calendar. Show your answer.

What day is November 8, 2026?

Find the date. Look at its column heading.

Sunday | Monday

What day is November 16, 2026?

Find the date. Look at its column heading.

Tuesday | Monday

What day is November 27, 2026?

Find the date. Look at its column heading.

Friday | Thursday

PREVIEW

My name _____

Use the calendar. Show your answer.

November 2026: yesterday and tomorrow

Today is November 12. What date was yesterday?

Find today. Move back one day for yesterday or ahead one day for tomorrow.

November 11 | November 10

Today is November 19. What date is tomorrow?

Find today. Move back one day for yesterday or ahead one day for tomorrow.

November 18 | November 20

Today is November 30. What date is tomorrow?

Find today. Move back one day for yesterday or ahead one day for tomorrow.

November 31 | December 1

PREVIEW

My name _____

Draw or write. Tell how you know.

November 2026: november date detective

Which date comes between November 17 and 19?

My clue:

Which Monday comes next after November 9, 2026?

My clue:

How many Sundays are in November 2026?

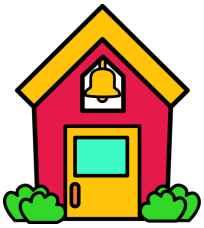

My clue:

PREVIEW

My name _____

Draw. Write about your idea.

November: plan a classroom week

Plan three jobs in time order for the week of November 16-20, 2026. Use the calendar to choose a day.

Words to try: Monday / Tuesday / Wednesday / Thursday / Friday

PREVIEW

A worked teaching example

Fictional learner: Sam

This example is invented. Sam tries four questions with different levels of support. Record independence separately from correctness.

Record what happened

On a four-item check: first item correct independently; second correct with a prompt; third correct independently; fourth incorrect after a prompt. Two of four were correct independently, or 50%. Three of four were correct with or without a prompt, or 75%.

Choose the next step

Keep the next check at the same difficulty and use new items. Model only the part Sam missed, then give another opportunity without that model. This example does not set a required score for the class.
