Teach 1st to 10th First

Five minutes with this table makes every worksheet go smoothly. Read each row out loud.

Number	Word	Place in a line of ten
1st	first	
2nd	second	
3rd	third	
4th	fourth	
5th	fifth	
6th	sixth	
7th	seventh	
8th	eighth	
9th	ninth	
10th	tenth	

Say it

- Ordinal numbers tell the place of something in a line: first, second, third.
- Cardinal numbers tell how many: one, two, three.
- Line up ten children, or ten blocks, and point: first, second, third.

Spelling to watch

- first, second and third do not follow the pattern; say them often.
- fifth, eighth and ninth change the spelling of five, eight and nine.
- The short form keeps the last two letters of the word: 5th, 8th, 9th.

Use it all day

- Line up for lunch and ask: who is first? Who is last? Who is fourth?
- On a calendar, point to the dates and say the ordinal: the 3rd, the 4th, the 5th.
- Stack five blocks and ask a child to point to the third one from the bottom.
- Read a short story and ask what happened first, second and third.
