Terms of Use

Please read before you print your first page.

One classroom license

- This file is for one classroom: one teacher, one group of students.
- Please do not share it, post it online, or sell it.
- Extra licenses for a team or a school are available on the product page.

This is a fillable PDF

- Open it in a PDF reader (Adobe Acrobat Reader, Preview, or your browser), click into a box, type, and Save As.
- The name line, every answer box, the tracker and the notes areas are type-in fields. You can also print any page and write by hand.
- It works offline. No account, no subscription, no internet connection needed after you download it.

Print and go

Print at 100 percent, in color or black and white. The cutting pages are on pages 20-22: each has five big pieces edge to edge, so each cut is one straight line.

Student work

A filled-in tracker carries a student's name. Keep it in the data folder, and use a first name only on any page that leaves your hands.

Need help?

If a box will not behave or a page will not print the way you expect, use Ask a Question on the product page before leaving a review. Every question is read, and a fix to the file ships as a free update: re-download it any time from My Purchases.

My name _____

Read the chart. Keep it close.

I	V	X	L	C	D	M
1	5	10	50	100	500	1000

Same symbols? Add.

X X X 10 + 10 + 10 = 30

C C 100 + 100 = 200

Small after big? Add.

X V I 10 + 5 + 1 = 16

D C 500 + 100 = 600

Small before big? Subtract.

I X 10 - 1 = 9

X L 50 - 10 = 40

Keep the rules.

Three in a row is the most.
III is 3. IIII is not used.

V, L and D never come twice.

Reading

Find the biggest symbol first, then read left to right. A smaller symbol before a bigger one is taken away, so XL is 50 - 10 = 40. Ask the student to say it out loud: "ten less than fifty."

Writing

Build the numeral from the biggest place down: hundreds, then tens, then ones. 449 is CD (400), XL (40), IX (9): CDXLIX.

Roman Numerals at Home

Send this page home with a child, or hand it to a family at a conference. Change the hunt to match your week.

Student _____ Week of _____

How to help at home, in three steps

- Look for Roman numerals together: a clock face, the chapters of a book, a building stone, a list with I, II, III.
- Read the numeral out loud. Start with the biggest symbol, then the rest. Say the number.
- Write the numeral and the number. Stop while it is still fun.

Roman numerals we found

1. I found one on a _____ **It says** ☐ **=** ☐

2. I found one on a _____ **It says** ☐ **=** ☐

3. I found one on a _____ **It says** ☐ **=** ☐

4. I found one on a _____ **It says** ☐ **=** ☐

Try saying

- "Which symbol is the biggest? Start there."
- "Is the small symbol before the big one, or after it?"
- "How would you write 14? Say it in parts: ten and four."
