Shape Pizza Task Box

Match, count and sort 2D shape toppings. Start here.

What's inside

- Level 1, match: a pizza mat with 6 outlines and 6 toppings to cut
- Level 2, pizza orders: 2 mats with 4 order tickets and 16 toppings to cut
- Level 3, make and count: a free pizza mat with 20 toppings, and the "My Shape Pizza Has..." count sheet
- Level 3 sort: a mat of 5 pizza boxes and 15 toppings to cut (57 toppings to cut in all)
- Level 1 as an ink-saver mat and cut page, shape words, answer key, data sheet, filled example, roll-up, helper card, note for home and a binder set

PREVIEW

The three levels

- **Level 1, errorless.** Each outline on the pizza is the exact shape of one topping. The student matches the topping to its outline. Circles, a triangle, a square, a rectangle and a hexagon.
- **Level 2, orders.** Each ticket says how many of which shape ("2 triangles"). The student cuts the toppings and puts exactly that many on the pizza. Numbers go to 3.
- **Level 3, make and count.** The student builds a pizza from 20 toppings, counts each shape on the count sheet, then sorts a second set into five pizza boxes.

Three steps

- 1. Print the mat and its cut page for each student.
- 2. The student cuts out the toppings and glues them on.
- 3. Check with the answer key, mark the data sheet, and move up or back a level when you decide.

Toppings sit edge to edge, so cuts are straight lines. Each student page names its level in the footer.

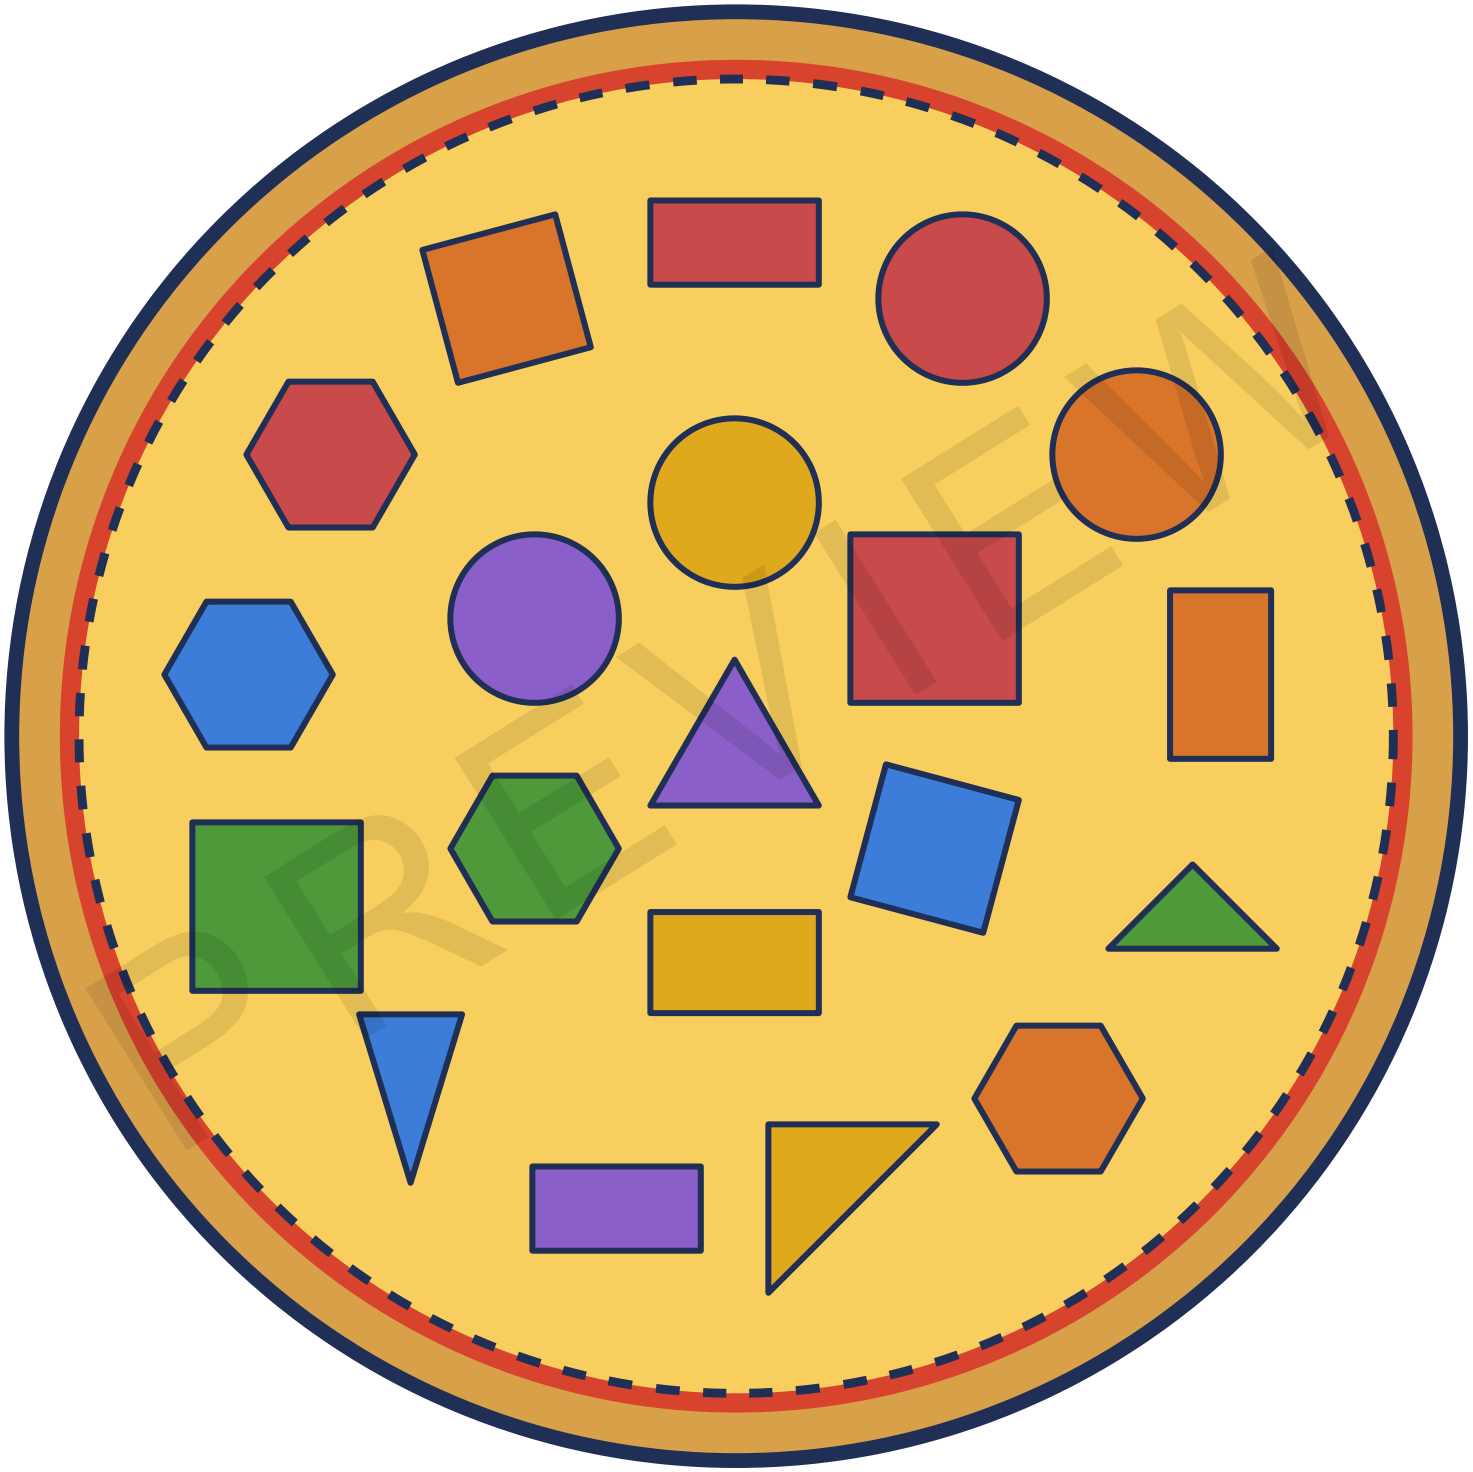

Glue each shape on its outline.

My name _____

Check your pizza.

My name _____

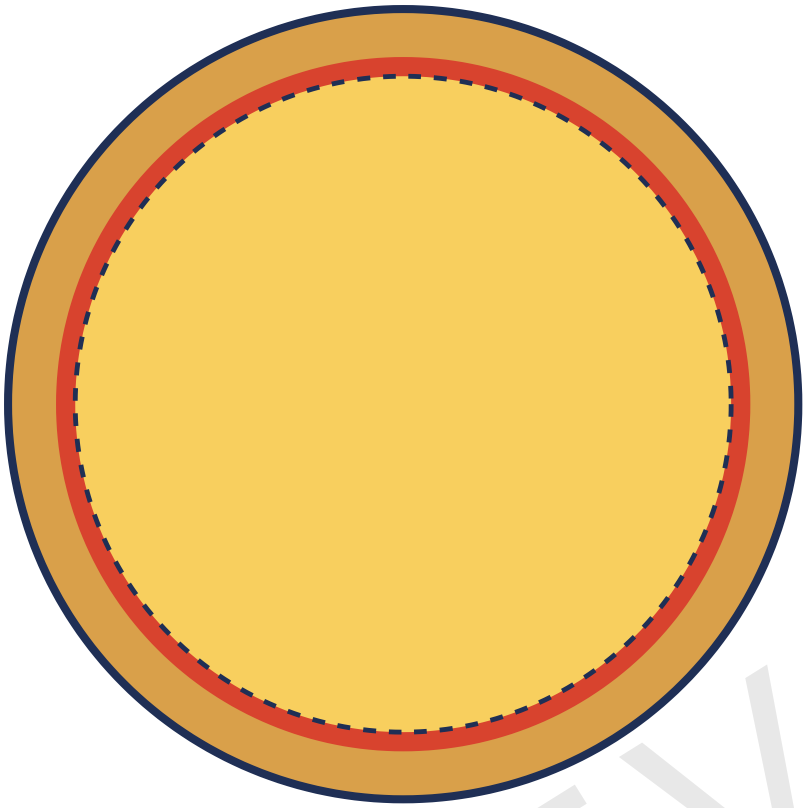

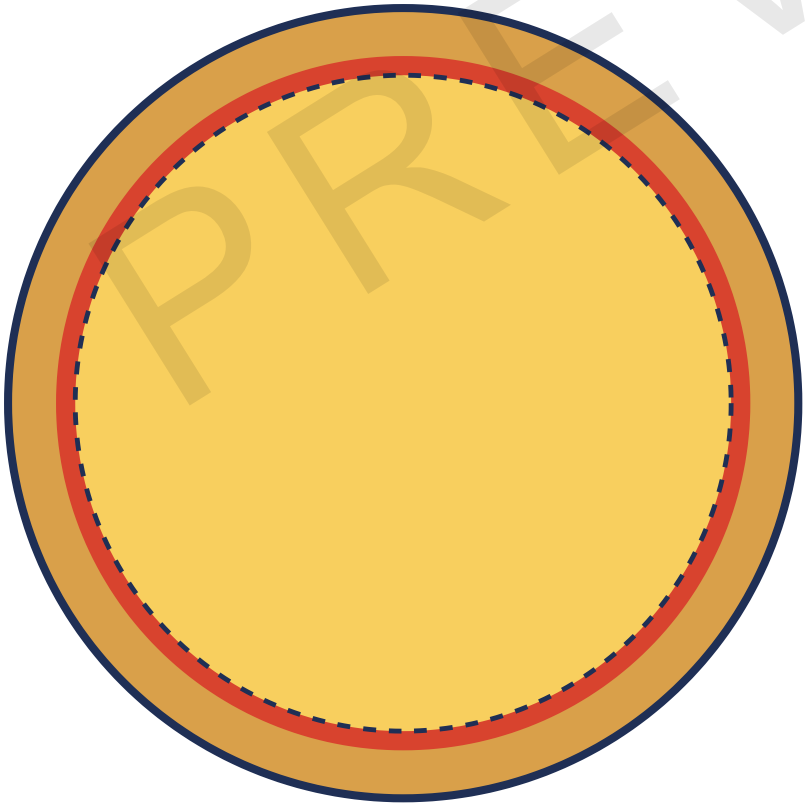

This is the answer model: 4 of each shape, 20 toppings in all. Yours can be arranged any way.

Answer Key

Toppings are numbered on each cut page. On Level 1 each topping goes on the outline of its own shape.

Level 1 cut page, 1 to 6	1 circle	2 hexagon	3 circle	4 square	5 triangle	6 rectangle
Level 2 cut page, 1 to 6	1 circle	2 triangle	3 square	4 rectangle	5 triangle	6 rectangle
Level 2 cut page, 7 to 12	7 square	8 hexagon	9 hexagon	10 triangle	11 circle	12 circle
Level 2 cut page, 13 to 16	13 square	14 square	15 rectangle	16 hexagon		
Level 3 cut page, 1 to 6	1 hexagon	2 square	3 rectangle	4 hexagon	5 circle	6 hexagon
Level 3 cut page, 7 to 12	7 hexagon	8 rectangle	9 circle	10 rectangle	11 circle	12 triangle
Level 3 cut page, 13 to 18	13 triangle	14 circle	15 rectangle	16 square	17 square	18 square
Level 3 cut page, 19 to 20	19 triangle	20 triangle				
Level 3 sort cut page, 1 to 6	1 rectangle	2 triangle	3 hexagon	4 square	5 circle	6 hexagon
Level 3 sort cut page, 7 to 12	7 circle	8 rectangle	9 circle	10 rectangle	11 square	12 square
Level 3 sort cut page, 13 to 15	13 hexagon	14 triangle	15 triangle			

Level 2 orders

- Order 1: 2 triangles, 2 circles
- Order 2: 3 squares, 1 hexagon
- Order 3: 2 rectangles, 1 triangle, 1 circle
- Order 4: 1 square, 2 hexagons, 1 rectangle

Level 3

Make your pizza: 4 of each shape, 20 in all. Sort: 3 of each shape, 15 in all. A turned triangle is still a triangle. Features page: circle 0 sides and 0 corners, triangle 3 and 3, square 4 and 4, rectangle 4 and 4, hexagon 6 and 6. Pizzeria tally: 3 circles, 2 squares, 3 triangles, 2 rectangles, 2 hexagons, 12 toppings in all. Detective: clue 1 triangle, clue 2 square, clue 3 hexagon. If your math program uses other words for a shape, write them here: _____

Filled Example

Invented example. Mia is not a real student; these numbers are made up.

Date	Level	Correct	Notes
Oct 6	L1	4 of 6	needed a reminder to look at the outline
Oct 8	L1	5 of 6	turned the triangle until it fit
Oct 13	L1	6 of 6	all 6 on the first try
Oct 15	L2	10 of 16	put 3 squares when the order said 2
Oct 20	L2	13 of 16	touched each one while counting
Oct 22	L2	16 of 16	all four orders right
Oct 27	Sort	9 of 15	put a rectangle in the square box
Oct 29	Sort	12 of 15	said the sides out loud
Nov 3	Sort	14 of 15	one self-correction

The same scores on the roll-up chart

Each column is one session; the label under it is the level (L1 match, L2 orders, Sort = the sort mat). A filled square is one correct topping.

- L1: first score 4, best score 6 out of 6
- L2: first score 10, best score 16 out of 16
- Sort: first score 9, best score 14 out of 15

Helper Card

For a paraprofessional, a sub or a volunteer running this task box

Before you start

- Student has a mat, the matching cut page, scissors and a glue stick.
- The level is in the small line at the bottom of each page. Use the level the teacher wrote below.
- Answer key: next to this card. Keep it out of the student's sight.

Run it

- Level 1 say: "Look at the topping. Which outline is the same?" Level 2 say: "Read the order. How many do you need?"
- Let the student cut, count and glue. Wait before you help.
- When everything is glued, check with the key. Point to any that moved, and let the student fix it.
- Mark the data sheet: date, level, number correct.

Write in

Level for today: _____ Prompts to use if the student is stuck (the teacher fills this in):

_____

_____

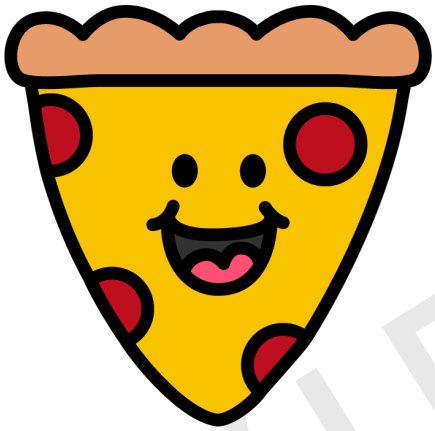

If something is not working, tell the teacher. Who to tell:

_____
