38 pages · 5 formats · 45 words

One kit for sight word practice that a child does with a pencil: find the word, circle it, write it. Every student page has a “My name” line at the top.

THREE STEPS

1 Look at one grid together

Page 6 is the one page that shows how: a small grid with go across and up down, both circled. Run a finger across a row, then down a column, then circle the word in pencil.

2 Pick a format and a level

Five ways to work with the same sight words, from the chart below. The dots in the corner of a child’s page (one, two or three) say how much there is to do; color never changes with the level, only the dots.

3 Check it, record it, send it home

Answer keys are pages 27, 28 and 29. Date each page on the tracker (page 30), roll a group up on page 31 and send the home page (33). A filled example is on page 34.

Everything inside (38 pages)

- **21 student pages** in 5 formats: 9 Word Search, 3 Find and Circle, 2 Missing Letter, 3 Read and Match, 3 Find, Cut and Glue, plus a How to Find a Word page
- **45 sight words** hidden in 9 puzzles (28 Pre-Primer, 17 Primer), each in one puzzle only
- **3 answer keys** made from the same data as the pages, **1 tracker** (20 rows), **1 class grid**
- **1 team note, 1 home page, 1 filled example, 1 phrase bank**
- **1 binder cover, 6 divider tabs** and a spine label, cut along the dashed lines

Scissors, in one place

Of the student pages, only the 3 Find, Cut and Glue pages (pages 24, 25, 26) are cut. Each has 6 pieces edge to edge in two rows of three, so it is three straight cuts (one across, two down). Every other student page is pencil work. The words on the pieces get longer page by page: 2-letter words on page 24, 3-letter words on page 25, 4-letter words on page 26.

How to fill this in

Date the page the day it is done. Write how many the child got right without help, out of the number in the What column. A blank means not tried yet, never wrong. Answer keys: pages 27–29. Filled example: page 34.

Priya S. is invented; nothing on this page describes a real student. The blank tracker is on page 30.

How to read it

Priya S. has finished **6 of 9** word searches and found **24 of 27** words on her own, one page of Find and Circle (5 of 6), one of Missing Letter (6 of 8) and **2 of 3** Find, Cut and Glue pages (10 of 12 pieces on the right row the first time). Every number comes from the table above.

The family note this tracker would produce

“This month Priya found 24 of 27 words in 6 word searches on her own and glued 10 of 12 pieces on the right row the first time. She needed a reminder to look down on 2 of the 3 puzzles that hide words down.” — every fact in it is a row of the table above.

THANK YOU FOR USING THIS RESOURCE

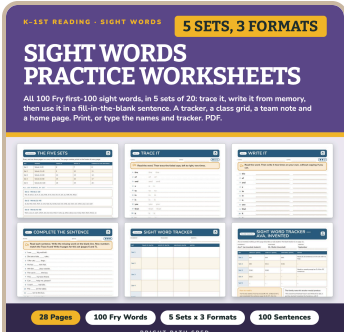

Everything here was built for the teacher who has a table of children who each need a different amount of support finding and writing sight words. If this helped, leaving feedback on TPT helps other teachers find it.
