Start Here — Three Steps

1

Print one story

Pick the story that fits what this student needs most right now and print it from the color set (pages 6–8) or the ink-saver set (pages 12–14). Type the student's name on it first if you like.

The pocket strips (page 9) put the same six pictures on cut-apart cards; the blank page (page 10) is for a story of your own.

2

Read it, then practice

Read the story in a calm moment, pointing to each picture, the same way every time. After a read, do that story's practice page (pages 17–19): three "what can I do?" moments, a Monday-to-Friday strip, and three things to try with an adult.

3

Log it, roll it up, send it home

One row on the log (page 22) each school day: was the story read, by whom, how many moments came up, and in how many the student did what the story says.

Total the week on the roll-up (page 23) and dot the graph. Send the family page (page 25) home the week a story is new; the hand-off page (page 26) goes with the story to any other adult.

WHAT THIS FILE IS

A fillable PDF: 3 short picture stories (18 sentences, 9 pictures) about meeting someone the student has not met before, in a color set and an ink-saver set, a practice page for each, pocket strips, a write-your-own page and the data pages behind them, with type-in fields throughout. It works offline, no account needed.

WHAT THIS FILE IS NOT

Not an editable online slideshow or word-processor document, and not a behavior plan or a legal or clinical procedure of any kind. It follows no named method, supplies no prompt hierarchy, fading schedule or mastery rule and promises no outcome; it tells a student, in pictures, what a first-meeting moment looks like and what they can do, and counts what happened.

IF SOMETHING DOES NOT WORK, AND WHERE THIS FILE LIVES

A field will not hold my typing. Open the file in Acrobat Reader or Preview, not a browser tab. **A picture reads as a different word.** Cover it and use the blank page instead; the **Ask a Question** tab reaches me for a free update.

Confidentiality: initials only on anything that leaves your hands, first name only on the family page.

CARDS

Pocket Story Strips (Color)

The six pictures of each story in order, as cut-apart cards. Print, cut on the dashed lines, and the story travels in a pocket or on a keyring; the numbers keep the order. This is the color set; the same three strips in the ink-saver set are on page 15.

STORY 1 • MEETING A NEW CLASSMATE

STORY 2 • MEETING SOMEONE NEW OUTSIDE

STORY 3 • MEETING A NEW GROWN-UP

EVERY CARD IS ITS OWN PICTURE

No card repeats in any of the three strips; each number is a different picture. The full sentences are on the story pages (pages 6–8).

FOUR QUICK WAYS TO USE A STRIP

- ☐ Clip it to a lanyard or keyring so it travels between rooms with the student.
- ☐ Tape it inside a folder or desk lid for a quiet, private reminder.
- ☐ Hand one card at a time as the story is retold, in order, one to six.
- ☐ Send the set home in an envelope the week that story is new (page 25).

PRINTING AND CUTTING TIP

Print on cardstock if it is available, and cut each row as one strip before cutting the six cards apart — that keeps the numbers in order while little hands are still learning scissors. A laminated strip holds up to a backpack or a keyring for the whole season.

MY OWN WORDS ABOUT THIS STORY

 LOG

Story and Moments Log

One row per school day. It counts two things: whether the story was read, and how many of the day’s moments the student did what it says.

WHAT “READ BY” MEANS ON THIS SHEET

Your own short word for how the read went: an adult read it, you read it together, or the student read it alone. Leave the row’s story column blank on a day it was not read; the moment columns still count.

WHAT THE TWO MOMENT COLUMNS MEAN

Moments seen: how many times meeting someone new actually came up that day. Used it: how many of those the student did what the story says. Total both on the roll-up (page 23) at the end of the week.

PERCENT OF MOMENTS THE STUDENT USED IT · ONE DOT PER WEEK, THEN DRAW THE LINE

FIGURING THE PERCENT

Add the log’s two moment columns (page 22) for the week. Used it divided by moments seen, times 100, rounded to the nearest whole number. Days read is how many rows that week name a story.

BRINGING THIS PAGE TO A MEETING

A rising line says the student is doing what the story says in more of the moments it is about. The criterion field above is where your team’s own number goes, so every dot is read against the same line. This page counts what is plotted; it does not decide what a flat line means.

EXAMPLE

Filled Example

SAMPLE · INVENTED STUDENT

Every number in the read-out is re-counted straight from the two tables above.

Rosa is invented, and so is every mark on this page. One week on the log, then three weeks on the roll-up, to show how the two pages read once real marks are on them.

The log, one week (page 22)

#	DATE	STORY READ	READ BY	MOMENTS SEEN	USED IT
1	10/12	Meeting a New Classmate	adult	2	1
2	10/13	Meeting a New Classmate	together	2	1
3	10/14	Meeting a New Classmate	together	1	1
4	10/15	Meeting a New Classmate	student	2	2
5	10/16	Meeting a New Classmate	together	2	2

The roll-up, three weeks (page 23)

#	WEEK OF	STORY	DAYS READ	MOMENTS SEEN	USED IT	PERCENT
1	10/12	Meeting a New Classmate	5	9	7	78%
2	10/19	Meeting a New Classmate	4	8	7	88%
3	10/26	Meeting a New Classmate	5	10	9	90%

READING THE NUMBERS

The week above: 9 moments seen across 5 days, used it in 7, 78 percent. The story was read by an adult 1 time, together 3 times and by Rosa alone 1 time. The weeks: 7 of 9 (78 percent), then 7 of 8 (88 percent), then 9 of 10 (90 percent) — a line rising week on week. Every percent is that row's own used-it count divided by its moments seen.

A LINE THIS SHEET COULD WRITE

"With Meeting a New Classmate read 5 days that week, Rosa greeted a new person in 9 of 10 moments seen the week of 10/26 (90 percent), up from 7 of 9 the week of 10/12."

HOW THE GRAPH WOULD LOOK

Three dots on the roll-up graph (page 23) at 78, 88 and 90, joined by a line that rises. The "read by" column on the week above shows the read shifting from an adult to the student, which the log records but does not score.

WHAT THIS EXAMPLE IS NOT

One invented child's week and three weeks of totals. It sets no typical rate, predicts nothing about a real student, and the criterion field would hold whatever Rosa's team wrote — not a number this file supplies.

THE PRACTICE STRIP THAT WEEK (PAGE 17)

On the Monday-to-Friday strip, Rosa marked "I read the story" on 5 days — every row above names the story — and "I did what the story says" on 5 days, the days whose used-it count is at least 1 (every day on this log). The strip is the student's own mark; the log is the adult's count. They agree here because the example was built that way, not because they must.
