Sorting Objects into Categories

Winter or Summer Task Box, 3 levels

What's inside

- 3 levels: a sort mat (Winter Things / Summer Things) and two 6-piece cut pages (12 pictures total), in color and black and white
- An answer key and a teacher data sheet

The three levels

- ● Level 1 Errorless: a faint picture already sits in the correct bin.
- ■ Level 2 The standard sort, no hints.
- ▲ Level 3 No hints, plus a line to write why one picture belongs where it does.

Each level is marked with a shape, not a number, so students are not comparing levels.

How to run it

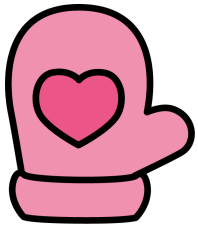

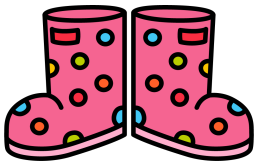

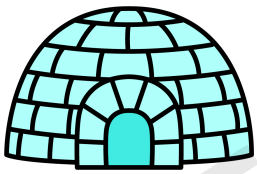

"What is this? Is it a winter thing or a summer thing?" Have the student name the picture, cut all 12 pieces (two cut pages), then glue each one in the matching bin. Check with the answer key. Mark the data sheet: pieces sorted correctly out of 12.

Set up

Print one sort mat and one cut page per student per level. The cut pieces are big (at least 1.1 in on every side) with a thick dashed line, laid out edge to edge for as few cuts as possible.

PREVIEW

Name it. Then cut. (Winter Things)

1  mitten	2  boots
3  snowman	4  igloo
5  coat	6  snowflake

PREVIEW

Glue each picture in its bin.
