6TH–10TH · ECONOMICS

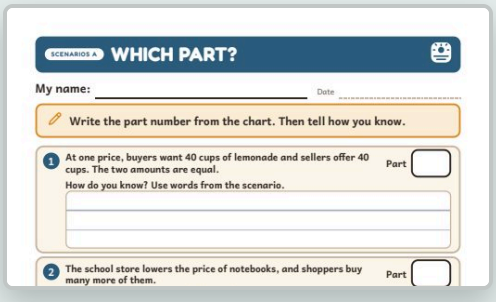

PARTS 1-10

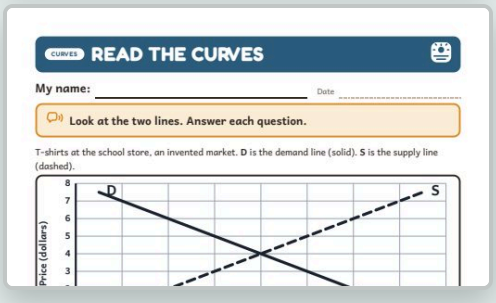

SUPPLY AND DEMAND WORKSHEETS

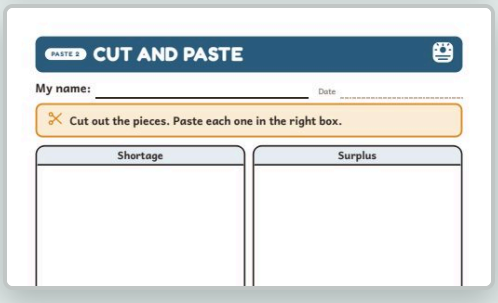

A plain-words chart, vocabulary match, scenarios, tables and curves to read, a grid to draw on, price-change scenarios, writing organizers and cut-and-paste sorts. Keys, a tracker and a family page. Print, or type the answers. PDF.

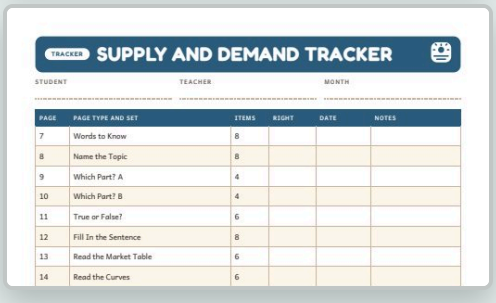

34 Pages

13 Page Types

77 Items

22 Scenarios

BRIGHT PATH SPED

START HERE

QUICK START

1 Start with the two charts

Pages 5 and 6 put the ten parts of supply and demand in plain words, with a way to picture each. Read them aloud together and keep them on the desk; most pages ask the student to look something up.

2 Hand over a page

Every student page opens with a name line and one short instruction, with room to write. Nothing on it is written for an adult. The chooser below says which page for which job.

3 Check, then record

Answer keys are on pages 22 to 25. Record scores on the tracker (page 26) and the open-response pages by what you see, using the look-fors on page 24.

WHICH PAGE FOR WHICH JOB

WHEN YOU WANT TO...	USE	PAGES
Introduce the unit	Plain-Words Chart, Match It	5, 6, 7
Check what they remember	Name the Topic, True or False, Fill In	8, 11, 12
Apply it to real situations	Which Part?, What Happens to the Price?	9, 10, 15
Read and draw graphs	Read the Market Table, Read the Curves, Draw the Curves	13, 14, 16
Write about it	Explain It, Build a Paragraph	17, 18
A hands-on sort	Cut and Paste, three mats	19, 20, 21
Record and report	Tracker, class grid, team note, family page	26, 27, 28, 29

Everything inside (34 pages)

- **17 student pages** in 13 page types, 77 scored items
- **22 scenarios** to sort by part, topic or price change, plus 3 graphs
- **21 cut-and-paste pieces** on 3 sort mats
- **4 answer keys**, a tracker, a class grid, a team note, a family page
- A filled example, a phrase bank, a binder cover and divider tabs

Your standards, your words

These are textbook-level summaries for classroom use. Every market and scenario is invented, and no real prices are used. Write the standard or the district's wording you want students to see on the line on the tracker (page 26).

REFERENCE

PLAIN-WORDS CHART: PARTS 1–5

My name: _____ Date .....

Read the chart. You will use it on the next pages.

Supply and demand explains why prices go up and down. Here are Parts 1 to 5 in plain words: the market, then demand and supply and their two laws.

1 Markets, Buyers and Sellers

In plain words: A market is any place or way that buyers and sellers trade. Buyers want to pay less. Sellers want to charge more. Price is what a buyer pays for one unit of a good.

Think of it this way: Think of a farmers market, an online store or a school fair.

2 Demand

In plain words: Demand is how much of a good buyers are willing and able to buy at each price. The amount they will buy at one price is called the quantity demanded.

Think of it this way: Think of how many slices of pizza your class would buy at each price.

3 The Law of Demand

In plain words: When the price of a good goes up, buyers buy less of it. When the price goes down, they buy more. On a graph, the demand curve slopes down.

Think of it this way: A sale sign makes shoppers buy more.

4 Supply

In plain words: Supply is how much of a good sellers are willing to sell at each price. The amount they will sell at one price is called the quantity supplied.

Think of it this way: Think of how many cups of lemonade a stand would make at each price.

5 The Law of Supply

In plain words: When the price of a good goes up, sellers offer more of it. When the price goes down, they offer less. On a graph, the supply curve slopes up.

Think of it this way: A higher price makes the extra work worth it.

VOCABULARY

MATCH IT: WORDS TO KNOW

My name: _____ Date .....

Write the letter of the meaning next to each word.

1	supply	
2	producer	
3	shortage	
4	demand	
5	surplus	
6	scarcity	
7	equilibrium	
8	consumer	

A	A person who buys goods or services to use them.
B	A person or business that makes goods to sell.
C	How much of a good sellers are willing to sell at each price.
D	When sellers offer more of a good than buyers want at a price.
E	A general rise in prices over time.
F	When buyers want more of a good than sellers offer at a price.
G	How much of a good buyers are willing and able to buy at each price.
H	Not having enough of something to meet everyone's wants.
I	The price where buyers want exactly the amount that sellers offer.
J	A tax on goods brought into a country.

Two of the meanings are not used.

SCENARIOS A

WHICH PART?

My name: _____ Date .....

Write the part number from the chart. Then tell how you know.

1 At one price, buyers want 40 cups of lemonade and sellers offer 40 cups. The two amounts are equal.

Part ☐

How do you know? Use words from the scenario.

2 The school store lowers the price of notebooks, and shoppers buy many more of them.

Part ☐

How do you know? Use words from the scenario.

3 A band sets a low price for 200 concert tickets. Fans want more tickets than that, so many fans go without.

Part ☐

How do you know? Use words from the scenario.

4 A bakery sees that cookies now sell for a higher price, so it decides to bake more cookies each day.

Part ☐

How do you know? Use words from the scenario.

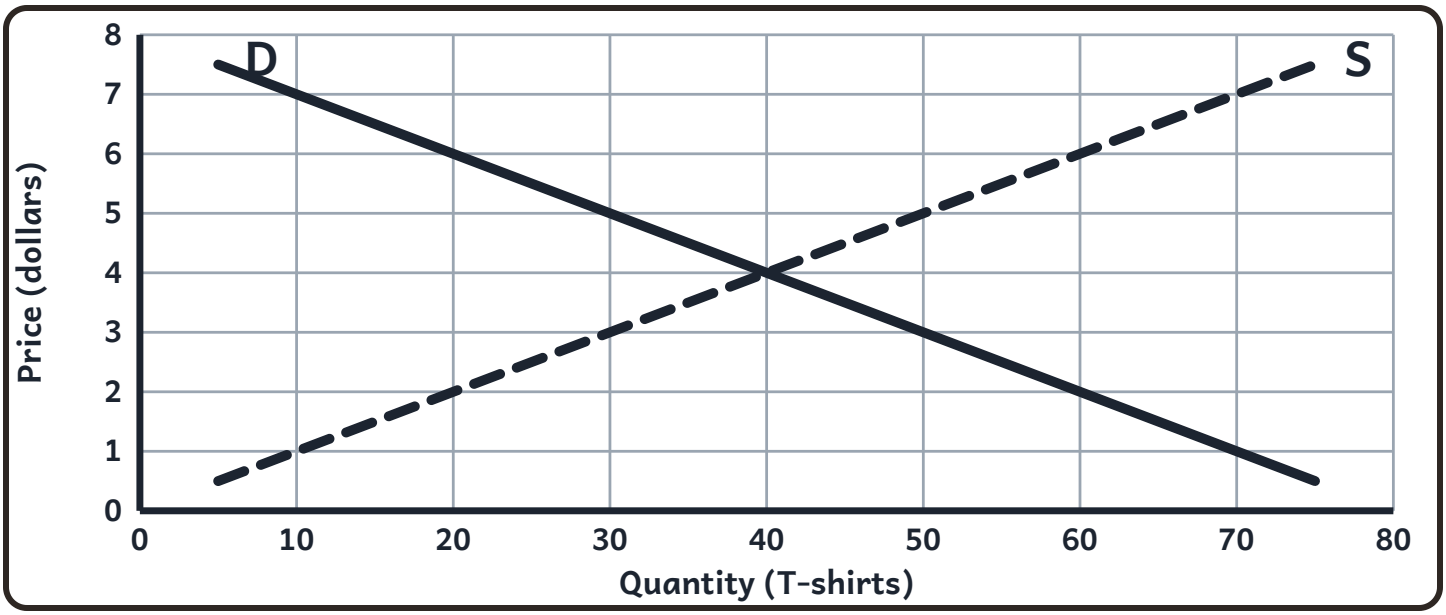

CURVES

READ THE CURVES

My name: _____ Date .....

Look at the two lines. Answer each question.

T-shirts at the school store, an invented market. **D** is the demand line (solid). **S** is the supply line (dashed).

1. The equilibrium price is _____ dollars.
2. The equilibrium quantity is _____ shirts.
3. At price 2, buyers want _____ shirts.
4. At price 2, sellers offer _____ shirts.
5. At price 6, is it a shortage or a surplus? _____
6. At price 6, how many shirts are left over? _____

PASTE 2

CUT AND PASTE

My name: _____ Date .....

Cut out the pieces. Paste each one in the right box.

Shortage	Surplus

Cut on the dashed lines.

Sellers can raise the price	Goods are left over	The shelves go empty	The price is above equilibrium
Buyers want more than sellers offer	Sellers cut the price	The price is below equilibrium	Sellers offer more than buyers want

TRACKER

SUPPLY AND DEMAND TRACKER

STUDENT _____ TEACHER _____ MONTH _____

PAGE	PAGE TYPE AND SET	ITEMS	RIGHT	DATE	NOTES
7	Words to Know	8			
8	Name the Topic	8			
9	Which Part? A	4			
10	Which Part? B	4			
11	True or False?	6			
12	Fill In the Sentence	8			
13	Read the Market Table	6			
14	Read the Curves	6			
15	What Happens to the Price?	6			
19	Cut and Paste 1	8			
20	Cut and Paste 2	8			
21	Cut and Paste 3	5			

PAGE	OPEN-RESPONSE PAGE	DATE DONE	WHAT I SAW
16	Draw the Curves		
17	Explain It		
18	Build a Paragraph		

How to fill this in

Write how many items the student got right with no prompt, and the date. A blank means not tried yet, never wrong. There are 77 items on the 12 scored pages. The charts (pages 5 and 6) are not scored. Answer keys: pages 22 to 25. Filled example: page 30.

THIS MONTH WE ARE WORKING ON (YOUR OWN STANDARD OR WORDING)

EXAMPLE DANA'S TRACKER

Dana R. is invented; nothing on this page describes a real student. The blank tracker is on page 26.

STUDENT	TEACHER	MONTH
Dana R. (an invented student)	**Ms. Odom (invented)**	**October**

PAGE	PAGE TYPE AND SET	ITEMS	RIGHT	DATE	NOTES
7	Words to Know	8	7	10/1	Mixed up two meanings
8	Name the Topic	8	8	10/2	–
9	Which Part? A	4	3	10/6	Needed a prompt on one item
10	Which Part? B	4	4	10/7	–
11	True or False?	6	5	10/8	Missed one false sentence
12	Fill In the Sentence	8	7	10/9	Needed a prompt on one item
13	Read the Market Table	6	5	10/13	Missed the size of the shortage
14	Read the Curves	6	–	–	–
15	What Happens to the Price?	6	4	10/15	Mixed up demand and supply twice
19	Cut and Paste 1	8	8	10/3	–
20	Cut and Paste 2	8	–	–	–
21	Cut and Paste 3	5	–	–	–

How to read it

Dana R. has done **9 of 12** scored pages and got **51 of 58** items right with no prompt. **3** pages were all right and **6** carry a note. Every number here comes from the table above.

The family note this tracker would produce

"This month Dana finished 9 pages and got 51 of 58 items right. Dana is solid on Name the Topic and the cut-and-paste sort; the next thing to practice is telling which line moves when something changes." — every number in it is a row of the table above.

What the table points to

6 pages carry a note and each is short of full. The pages left blank (3 of them) are not tried yet, never wrong.

THANK YOU FOR USING THIS RESOURCE

Everything here was built for the teacher who has a table of students who each need a different amount of support learning and explaining what they learn. If this helped, leaving feedback on TPT helps other teachers find it.

Everything inside, one more time

- **17 student pages** in 13 page types, 77 scored items, every answer computed in code from the lists on the page.
- **21 cut-and-paste pieces** on 3 sort mats, **4 answer keys**.
- **1 tracker, 1 class grid, 1 team note, 1 family page, 1 filled example, 1 phrase bank** (17 starters), **1 binder cover** and divider tabs.

How this file avoids guessing

Wherever a student picks among printed spots — the lettered meanings, the box of words, the order of the pieces on the cut strip — the position of the right answer is checked in code so it never sits in the same spot three times in a row.

No real student anywhere in this file

The filled example on page 30 names "Dana R.," an invented student used only to show how the tracker fills in. Every market and scenario is invented, and all prices are made up. Once you fill in a real student's name, the tracker, class grid and team note (pages 26, 27 and 28) do carry real information — keep completed pages secure the same way you would any other record.

Something missing or wrong?

Please use the **Ask a Question** tab on the product page first — every question is read, and a fix to the file is a free update you re-download from **My Purchases**.

WHAT'S NEXT FROM THIS STORE

For the same students: transition and career readiness, plus a K-2 community set.

Student Transition Career Readiness Portfolio
A career readiness portfolio for students in transition.
