Teddy Bear Picnic Adapted Book

8 items, 3 levels

What's inside

- 8 items: teddy bear, picnic basket, honey, apple, cake, grapes, banana, strawberry
- Each item's page at 3 levels, in color and black and white
- A 'My ... Book' cover page and a data sheet

The three levels

- ● Level 1 Errorless: 2 choices, the correct one highlighted.
- ■ Level 2 The standard 3-choice circle, no hint.
- ▲ Level 3 No choices -- the student writes the word.

Each level is marked with a shape, not a number, so students are not comparing levels.

How to run it

Read the sentence together, show the big picture, then have the student circle the matching picture (or write the word at Level 3). Laminate for a dry-erase marker, or let the student glue a counter on the answer. Mark the data sheet: pages correct out of 8.

Set up

Print one book per student at the level that fits. Bind with a ring or staple along the left edge. Use the black and white pages when you want to save ink.

Prompts to try

- Point to the picture and ask, "What is this?" before reading the sentence.
- Read the sentence again and let the student point to each word.
- If the student circles a wrong picture, say "Look again" and cover one choice.
- Ask, "Where do you see this at home?" after each page.

Ideas to extend

- Match real objects or small toys to each page.
- Have the student read the finished book to a partner.
- Use a dry-erase marker on a laminated copy so the book can be reused.
- Mix pages from different levels to build a custom book.
