Thanksgiving WH Questions · point-to-page · scene 1: The Pumpkin Wagon

THANKSGIVING WH QUESTIONS

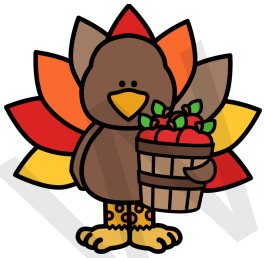

PICTURE SCENES • CUT & GLUE

Start Here

What's inside

- **8 picture scenes** of Thanksgiving and harvest time: a pumpkin wagon, hay for the cow, a pie in the kitchen, apples in the yard, a turkey craft at school, rain at the house, leaves in the wind, corn in the sun. Each scene has a short story under it.
- **40 questions**: five for every scene (who, what, where, when, why), each with **three picture choices**. One choice is right; the story and the scene both say which.
- **8 point-to pages** (pages 5-12): read the story, circle one of three pictures for each question
- **16 cut-and-glue pages**: pages 13-20 have a faint picture in each glue box to match (circle shape), pages 21-28 do not (square shape). Five answers to cut from a strip, 80 pieces in all
- An answer key (page 3), a finished example (page 4), a tracker (page 29), a what's-next page and credits

Three steps

- 1. **Look and read.** Read the story to the child, or let the child read it. Talk about the scene first.
- 2. **Point or circle.** On a point-to page the child circles the picture that answers each question. You may ask the question aloud and let the child point instead.
- 3. **Cut and glue.** The five right answers are cut from the strip and glued by their question. The circle pages have a faint picture to match; the square pages do not.

Which page for which job

- **Teaching table or small group**: a point-to page, one question at a time.
- **Center or early finisher**: a cut-and-glue page. Start with a circle page, move to a square page when you choose.
- **Notes**: the tracker (page 29). The answer key is on page 3.

What this is, and is not

This is a picture-question teaching set: scenes, stories, questions and pieces to glue. It is **not** a set of progress-monitoring probes, and it has no scoring, no assessment and no timeline; the district's rules and your own plan decide when and how a child works on a question word. Every scene is flat shapes and licensed clip art, no photos.

Example: a Finished Page

Ravi is an invented student. Ravi circled an answer for 4 of the 5 questions on scene 1. Each circled picture is the one the story names. 1 question is still open: "Why does she want the pumpkin?"
