SCHEDULE ICONS

Routine picture cards

96 CARDS

2 SIZES

Terms of Use

Please read before you print your first page.

One classroom license

- This file is for one classroom: one teacher, one group of students.
- Please do not share it, post it online, or sell it.
- Extra licenses for a team or a school are available on the product page.

This is a print-and-cut PDF

- Print the pages you need, cut the cards once, laminate, and use hook-and-loop dots.
- A few lines are type-in fields in any PDF reader (the blank cards, the planner, the roll-up, the family note). You can also print and write by hand. The pictures and boards are not editable.
- It works offline. No account, no subscription, no internet connection needed after you download it.

Print at 100 percent

Turn off fit to page and shrink to fit so the cards keep their size and fit the board slots. Use cardstock for the boards; copy paper is fine for the cards if you laminate them.

What this is

A classroom and home visual support and your own working notes. Your team's plan for a child comes first; this set does not replace it.

Need help?

If a field will not behave or a page will not print the way you expect, use Ask a Question on the product page before leaving a review. Every question is read, and a fix to the file ships as a free update.

© Bright Path Sped. For single-classroom use by the original purchaser.

PREVIEW

Set Up the Cards

Cut once, laminate, and use them all year. Your cards, your order.

Large card, actual size
2.4 by 2.2 in, 12 a sheet

Backpack

Small card, actual size
1.24 by 1.44 in, 36 a sheet

Backpack

Prep, once

- Print at 100 percent so the cards keep their size.
- Trim each sheet on the solid lines. The cards touch edge to edge, so each cut is one straight line across the sheet.
- Laminate before or after cutting. Rounded corners are easy to hold and do not poke.
- Soft (loop) dot on the back of every card; hook dot in each board slot. Small cards (1.24 by 1.44 in) sit inside the 1.45 by 2.0 in strip slots; large cards (2.4 by 2.2 in) sit inside the 2.5 by 2.65 in board slots.
- Store cards by ring color in zip bags or a photo box, or clip each sheet's cards in a stack.

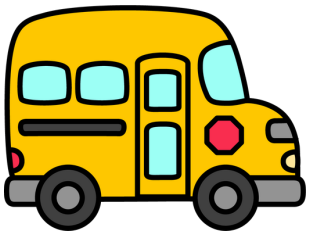

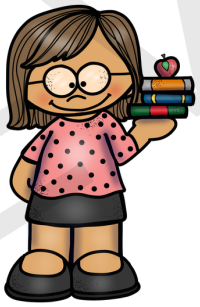

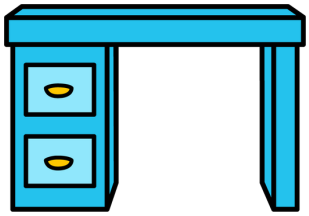

The same four moves every time

- **Show.** Look at the schedule together before the day starts.
- **Say.** Point to the first card and say what it shows, in a few words.
- **Do.** The child does that job.
- **Finish.** The child takes the card off, puts it in a finished pocket or turns it over, and looks at the next one.

Notes for this room

How to Fade the Schedule

Five steps from a full picture strip to a written list. Use as many as your child needs.

1

Every card

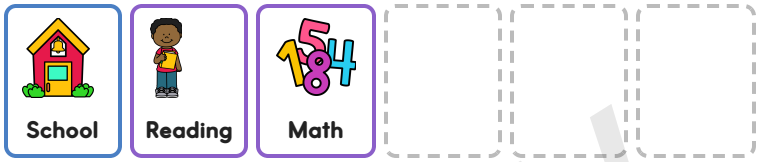

The whole day, one card for each part. This is where most schedules start.

2

Fewer cards

Show only what is next, or the next two or three. The rest wait out of sight.

3

Picture and word

A small picture next to a word, so the word does more of the work.

4

Word list

A short list of words, each with a tiny picture to check.

5

Written list

Words only, with a box to check. A child may write their own.

- ☐ School
- ☐ Reading
- ☐ Math

Keep in mind

- Your team decides if, when and how much to change a child's schedule. These steps are a menu, not a rule.
- Going back a step on a hard day is fine. Keep the step that works.
- Change one thing at a time, and keep the same pictures so the child recognizes them.

Our steps (write your team's plan here)

Filled Example

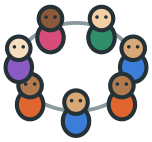

A schedule in use, and a week of counts for one invented child.

Mia's school day (invented)

MORNING

Bus

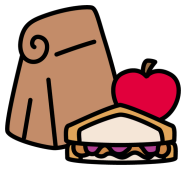

Backpack

Circle time

Reading

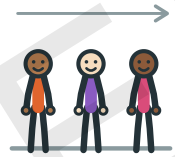

Math

AFTERNOON

Lunch

Recess

Art

Line up

Go home

FIRST

Math

THEN

Park

Mia's week (invented)

	Mon	Tue	Wed	Thu	Fri	Week
Cards on the strip	10	10	8	10	10	48
Cards finished	10	9	8	10	7	44

Reading the example

- Mia is an invented child. Nothing here is a real student.
- Wednesday was a short day, so only 8 cards were on the strip. Friday: 7 of 10 cards finished.
- This week: 44 of 48 cards finished. Every card was finished on 3 of 5 days.
- What you do with a count like this is your team's decision. The sheet only holds the numbers.

PREVIEW

A Note for Home

Send this home with a few cards or a copy of the home strip, so home and school use the same pictures.

Child _____ Date _____

What we are using at school

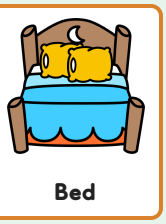

We use picture icons to show the day. The child looks at a picture, knows what comes next, and takes the card off when it is done.

Pictures we are using this week

_____

Try it at home

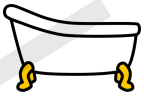

- Print the home strip (page 26) and keep it where the routine happens.
- Point to the first picture together, then let your child take the card off when it is done.
- Start with two or three pictures. Add one when it feels easy.

Bed

Wash hands

Brush teeth

Snack

Bath tub

Pajamas

Something that went well this week
