WEATHER JOURNAL

Daily log, weekly chart, graph and winter pages

My name Sam Date Oct. 14

Look outside. Show the weather.

How hot or cold?

100 80 60 40 20 0

68 degrees

Draw the sky.

Circle the weather.

Sunny Cloudy Rainy Windy Stormy Snowy

Wind calm breezy windy

Write about the weather.

Today the weather is sunny.

I know because I see big white clouds in the sky.

The air feels warm.

I am wearing a T-shirt and shorts.

Tomorrow I think it will be sunny again.

Weather Journal - Daily 2-3

23 PAGES

Bright Path Sped

Terms of Use

Please read before you print your first page.

One classroom license

- This file is for one classroom: one teacher and the students in that room.
- Please do not share it, post it online, or sell it.
- Extra licenses for a team or a school are available on the product page.

This is a fillable PDF

- Open it in a PDF reader (Adobe Acrobat Reader, Preview, or your browser), click into a line or a box, type, and Save As.
- The name and date lines, the temperature blanks, the writing lines and the notes boxes are type-in fields. You can also print any page and write by hand.
- It works offline. No account, no subscription, no internet connection needed after you download it.

Print at 100 percent

Turn off fit to page and shrink to fit, so the lines and boxes stay big enough to write in. Every page prints in color or in black and white.

Your files

A filled-in page may show a child's name. Keep it in your own folder. The example page uses an invented child.

Need help?

If a line will not behave or a page will not print the way you expect, use Ask a Question on the product page before leaving a review. A fix to the file ships as a free update: re-download it any time from My Purchases.

PREVIEW

How to Use

A few notes on the pages, the thermometer and the printing.

A five minute morning routine

- Look out the window together. Ask what is in the sky and whether the trees are moving.
- Read the thermometer aloud, then children color theirs and write the number.
- Children circle the picture, write their sentences, and one child shares.

Two writing levels

- **Grades K-1** (page 6, winter page 8): big lines with a top line, a dashed middle line and a bottom line, and a short starter on each.
- **Grades 2-3** (page 7, winter page 9): one ruled line for each sentence, with longer starters that ask children to say how they know.

The thermometer

- Every thermometer has a mark for each 10 degrees. All temperatures here are whole numbers of degrees Fahrenheit.
- On the winter pages the scale runs from 0 to 60, and the dashed line is at 32, where water freezes.
- Page 16: color each one up to 30, 80, 50, 100, 20, 70 (left to right). Then the four to read show 40, 90, 60, 20 (left to right).

Type it or write it

- Click a line and type, or print at 100 percent and write with a pencil. Every page works in black and white.
- Save As keeps your copy, so the blank file stays blank for the next class.
- Print the daily pages back to back with a cover, and staple them into a journal.

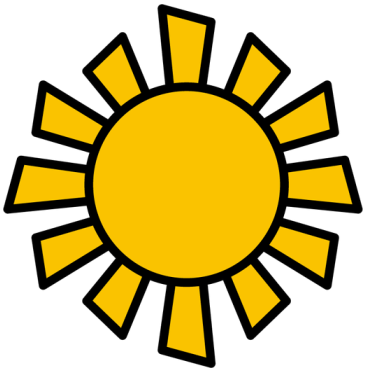

Make it a class habit

- Keep the weekly chart on a clipboard by the window and the class graph on the wall (page 14).
- At the end of the month, add up the days on the class record (page 19).

Example: a Filled-In Journal Page

Sam is an invented child. Nothing on this page describes a real class or a real child.

My name **Sam** Date **Oct. 14**

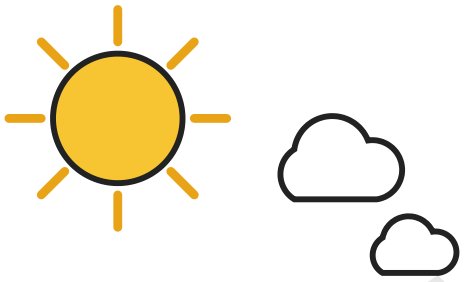

Look outside. Show the weather.

How hot or cold?

68 degrees

Draw the sky.

Circle the weather.

Sunny

Cloudy

Rainy

Windy

Stormy

Snowy

Wind calm **breezy** windy

Write about the weather.

Today it is **sunny.**

I see **big white clouds.**

It feels **warm.**

I wear **a T-shirt.**

How to read it

- The thermometer is colored up to 68, between the 60 and 70 marks. The blank says 68 degrees.
- The sunny picture is circled, and the sky box shows a sun and clouds. The wind word is breezy.
- Each of the 4 lines starts with the words printed on the page. Sam wrote the rest.

PREVIEW

A Note Home: Our Weather Journal

Send it home when you start the journal, or at the start of each month.

Date _____ Class _____ Sent by _____

Dear families,

This week your child is keeping a weather journal. Children look outside, read a thermometer, draw the sky and write about the weather.

What we are learning about weather this week

You can try this at home

- Look outside together. Ask: "What is the sky like? Is it windy? Is it hot or cold?"
- Find a thermometer, or read the number from a weather report, and talk about the day.

What we noticed at home

A note from you

Teacher _____

PREVIEW

Phrase Bank

Words for children and for you. Each blank is for what you really see.

Weather words

- sunny, cloudy, rainy, windy, stormy
- snowy, icy, foggy, clear
- hot, warm, cool, cold
- calm, breezy, windy
- puddles, drizzle, flurries, frost

Questions to ask at the window

- "What do you see in the sky?"
- "Are the trees moving? What does that tell us?"
- "Is it warmer or cooler than yesterday? How do you know?"
- "What do we need to wear outside today?"

Starters for grades K-1

- Today it is ____.
- I see ____.
- It feels ____.
- I wear ____.

Starters for grades 2-3

- Today the weather is ____.
- I know because I see ____.
- The air feels ____.
- Tomorrow I think it will be ____ because ____.

Noticing what a child did

- "You looked out the window before you wrote."
- "You colored the thermometer up to the 70."
- "You told me how you knew it was windy."
- "You circled the picture that matches the sky."

Your own words
